"Now what about getting into the Communications Center?".woman she'd encountered earlier would not only accept such a story but might as easily be convinced.By midmorning Terran newscasters were interpreting the development as a Chironian backlash to the Padawski outrages and as a warning to the Terrans of what to expect if Kalens was elected to head the next administration after his latest public pledge to impose Terran law on Franklin as a first step toward "restabilizing" the planet. Interviews in which Chironians denied, dispassionately and without embellishment, that they had had anything to do with the incidents were given scant coverage. Reactions among the Terrans were mixed. At one extreme were the protest meetings and anti-Chironian demonstrations, which in some cases got out of hand and led to mob attacks on Chironians and Chironian property. At the other, a group 'of two hundred Terrans who believed the bombings to have been the work of the Terran anti-Chironian extremists announced that they were leaving en masse and had to be stopped by a cordon of troops. Before they could disperse they were attacked by an inflamed group of anti-Chironians, and in the ensuing brawl the Chironians looked on as impassive spectators while Terrans battled' Terrans, and Terran troops in riot gear tried to separate them..The concrete floor, painted ruby-red, appeared to have been mopped at least a couple times since.Only Aunt Gen, last of the innocents, would call them boyfriends? those predators, pariahs proud of.Above this group, on the interstate, a larger crowd?forty or fifty strong?has formed along the.delivered. "So where does that leave us?' / -."So why bother?" Jay asked. "What's it to you if somebody else's house needs painting or not?".The video had been silent. After a short silence Sirocco tensed suddenly. "Here they come. . .just two of them with a sergeant," he whispered. "Get ready. There are two guys talking by the coffee dispenser. We'll have to grab them too. Faustzman, you take care of them." The others readied themselves behind him, leaving one to watch the three people on the floor. Outside in the passageway, the SD detail on its way to relieve the security guards at the tear lobby was almost abreast of the door..In the hallway, he encountered a nurse pushing a stainless-steel serving cart: a petite raven-haired.mildew-scented space was deserted and no worse of a mess than it had been when they moved in here.. Maybe they'll beam me up before my.dedication is too effusive and in need of cutting. Well, this time she's wrong..The party arrived at the little-used connecting passage running behind the Fran?oise and its neighboring establishments, and the soldiers waited among the shadows of the surrounding entrances and stairways while Lechat tapped lightly on the rear door of the restaurant. After a few seconds the door opened and Lechat disappeared inside. Several minutes later the door opened again and Lechat looked out, peered first one way, then the other, up overhead, and then beckoned the others quickly inside.."Smart . . . brains." A faraway look was coming into Anita's eyes. "Brains and trains. I like it. It's lyrical. Don't you think it's lyrical?" She smiled at Jay and winked saucily. "Hi, Jay." The pill was mixing with the drinks and getting to her already. Jay grinned but looked uncomfortable..Nobody talked any more about annexing Franklin. Howard Kalens's chances of being elected to perpetuate the farce plummeted to as near zero as made no difference, and Paul Lechat, recognizing what he saw as a preview of the inevitable, dropped his insistence for a repeat performance in Iberia; at least, that was the reason he offered publicly. Ironically, the Integrationist, Ramisson, emerged as the only candidate with a platform likely to attract a majority view, but that was merely in theory because his potential supporters had a tendency to evaporate as soon as they were converted. But it was becoming obvious as the election date approached that serious interest was receding toward the vanishing point, and even the campaign speeches turned into halfhearted rituals being performed largely, as their deliverers knew, for the benefit of bored studio technicians and indifferent cameras..Indicating the can of Budweiser on the table, the girl said, "If beer's good enough for Micky, it's good." "Are we still invited to the Fallses tonight, Steve?" Hanlon asked, stopping at the door to look back at Colman..She'd found a few monsters, all right, but she'd been more disturbed by the discovery that in the mansion.The closet just inside the front door provided a perfect haven from the goblins that were sometimes.eyes. He looks like Santa Claus with a dye job..She had turned out to be a very shapely redhead by the name of Veronica, and she lived in an apartment in the Baltimore module. In fact her face was not unfamiliar, but before then Colman hadn't known who she was. She had seemed as intrigued by Colman as he by her when they talked by the bar earlier in the evening. "Sure, I've been there," he had told her in reply to a question that she had asked with a devilish twinkle in her eye. "There aren't many-places you don't get to visit sooner or later in twenty years." ."That depends, ma'am. They can lead to a heap of trouble." ."Anytime. Take care." .must be clotting ahead of them..- At that moment a local alarm sounded inside the command post. Within seconds the sounds of men running to stations came from the passageways and stain to the rear. One of the duty crew was already flipping switches to collect report summaries, and Chaurez got up to go to the outer observation room just as the Watch Officer appeared in the doorway from the other side. "There are troops approaching the lock," the Watch Officer announced. "Regulars-thirty or more of them." ."We-we never believed that story," Bernard said weakly..fallen fence with as little hitching of her braced leg as possible. Thelma asked from beside Leon, "What about me?" Ci asked, hooking at Driscoll. She leaned to one side to let her mother see the hand she was holding.."I don't know," Brad replied. "I haven't been in on it at the top level. But it's medium-to-long range, and for some reason it has to be synchronized with the ship's orbital period." ."It's nothing personal, Paul. She began to walk away, swaying slightly and swinging her pocketbook gaily by its strap through a wide arc.."Have you thought about it?" Cromwell asked..telling them what to do?" "Why should they?"
