Terrific, just terrific," Barry replied with authentic warmth. He'd always scored well at this preliminary stage of basic communication, which was why, at the time, he'd so much resented his examiner's remark about his handshake. There was nothing phoney about his handshake, and he knew it. "Vampires don't exactly get transfusions." "Certainly," said Amos. The two of them had managed to salvage most of the dome. Working with patching kits and lasers to cut the tough material, they had constructed a much smaller dome. They erected it on an outcropping of bare rock, rearranged the exhaust to prevent more condensation on the underside, and added more safety features. They now slept in a pressurized building inside the dome, and one of them stayed awake on watch at all times. In drills, they had come from a deep sleep to full pressure-integrity in thirty seconds. They were not going to get caught again. This day, like the nine before it, illuminated a Tharsis radically changed from what it had been over the last sleepy ten thousand years.
