Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea.."Where?" he whispered, and then said the word aloud in the language all things understand that have no other language..Rose.... All over the hill spark-weed was in flower, its long petals blazing yellow in the grass. Children on Havnor knew that flower. They called it sparks from the burning of Ilien, when the Firelord attacked the islands, and Erreth-Akbe fought with him and defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-Akbe and the heroes before him, the Eagle Queen, Heru, Akambar who drove the Kargs into the east, and Serriadh the peacemaker, and Elfarran of Solea, and Morred, the White Enchanter, the beloved king. The brave and the wise, they came before him as if summoned, as if he had called them to him, though he had not called. He saw them. Unfortunately the king's wizards, enraged at the attack on the heart of the kingdom and heartened by their victory in the Pelnish Sea, had taken the fleet on into the far West Reach and attacked the islets and rocks where the dragons raised their young, killing many broods, "crushing monstrous eggs with iron mauls. " Hearing of this, Orm's dragon anger woke again, and he "leapt for Havnor like an arrow of fire. " They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one. He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be! the land altered with time and chance. having by both wizardry and scholarship discovered Yevaud's true name under centuries of false. When (in the year 440, by Hardic count) Erreth-Akbe came to make peace between the Archipelago and the slave, short and thin, hairless, with running sores on his hands and arms, uncapped a stone cup by the rim of the condensing shaft. Gelluk peered in, eager as a child. "So tiny," he murmured. "So young. The tiny Prince, the baby Lord, Lord Turres. Seed of the world! Soul-jewel!" or the Wandlord, had paid court to Elfarran. Unforgiving and determined to possess her, in the few. "We are four against him," said the Patterner.
