"I am Jack, Prince of the Far Rainbow," said Jack, "and this is Amos."..colony will lack the push needed to make it."Congreve's voice warmed to his theme, and his manner became more urgent and persuasive. "Developments in genetic engineering and embryology make it possible to store human genetic information in electronic form in the' ship's computers. For a small penalty in space and weight requirements, the ship's inventory could be expanded to include everything necessary to create and nurture a first generation of, perhaps, several hundred fully human embryos once a world is found which meets the requirements of the preliminary surface and atmospheric tests. They could be raised and tended by special-purpose robots that would have available to them as much of the knowledge and history of our culture as can be programmed into the ship'~ computers. All the resources needed to set up and support an advanced society would come from the planet itself. Thus, while the first generation was being raised through infancy in orbit, other machines would establish metals- and materials-processing facilities, manufacturing plants, farms, transportation systems, and bases suitable for occupation. Within a few generations a thriving colony could be expected to have established itself, and regardless of what happens here the human race would have survived. The appeal of this approach is that, if the commitment was made now, the changes involved could be worked into the existing schedule for SP3, and launch could still take place

in five years as projected. She consulted the pad, but I'd bet my last gumshoe she knew every word on it by heart "A Mrs. Carmichael called. Her French poodle has been kidnaped. Johnny Peacock came by an hour later acting very conspiratorial. Detweiler had suggested a bridge game that night, but Johnny didn't play bridge, and so they settled on Scrabble.. Song finished her report and handed the mike to Lang. Before she could start, Weinstein came on the line.. Amanda cried, "Matthew, don't?" Her eyes widened with horror. Her mouth moved again.. "So what do you want me to think?" I say.. next four years. We either find a way of getting what we need from what's around us, or we all die. And. The topmost platform of the scaffolding was on a level with the serrated apex of the unfinished wall. Getting a grip on the edge of the platform, the King chinned himself and swung his body onto the narrow planking. He stood up, and the wind set his ringleted hair to dancing about his golden crown.. Nolan had shrugged, too, and dismissed her from his mind. But that night as he lay on his bed, listening to the pounding of the drums, he thought of her again and felt a stirring in his loins.. "The pain," she explained calmly to the ice cream section of the freezer, "only comes on when I do this." "I said," the prince cried back, "look at the moon!" Amanda was still very quiet when I took the lease in to her. I offered her myself and my runabout to move her luggage from the cabletrain station. She accepted, and while we collected the luggage, including a huge trunk that almost filled the car, I did my best to be kind and amusing. Finally, she started glowing again. I left her with the key, my telephone number, and a warning that, since the cabins on either side of her for some distance were empty, she should keep her doors locked. I also promised to call her the next day to see if she needed anything.. She gave me a faint smile. "Some. You're a wonderful man, Matthew.
