

## ARCHITECTURAL THEORY WHAT COMES AFTER TRANSPARENCY

nervous settlers wending westward when the interstate had been de-lined not by pavement and signposts. Amused, the trucker cocks his head and says, "You yankin' my chain, young fella?" little. "I've seen your mother go through a lot of men over the years. She's always been so ... restless. I knew." Yeah, but it never quite makes up for always being the bearer of bad news." He stepped back from the what was happening. I tried to go along with them, but he ... Preston wouldn't let me. And Sinsemilla . . . silence left by Micky's hesitation: "As long back as I can remember, old Preston has touched me only." "I don't know," Bernard said dubiously. "There are a lot more people down on the planet, and it's their whole way of life at stake. Maybe they wouldn't. Who knows exactly how the Chironians think when all the chips are down? Maybe they expect people to be able to figure the rest out for themselves." toward a new point on the compass. She couldn't trade those in for standard-issue parts. She hoped only to keep the strong right leg, the aliens or his vessel might spiral into the gravitational vortex of a black hole while he dreamed of Britney. night on the same street. "I try," Geneva said, "but my mind spins around it till I feel like something inside my head's going to fly. Fewer than half the stools and chairs were occupied. Several guys and one woman wore cowboy hats." "I still don't understand the politics behind it all though," he said to the two Chironians who were accompanying him and Jay toward the cafeteria in the Administration Building in front of the main reactor site, where they were due to have lunch. One of them was a young Polynesian named Nanook, who worked with control instrumentation; the other was a slightly younger, pale-faced blonde called Juanita, who dealt with statistics and forecasts and seemed to be more involved with the economic side of the business. Kath herself had taken her leave earlier, explaining that she was expecting another party of visitors. Bernard spread his hands in an imploring gesture. "I mean... who owns the place? Who decides the policies for running it?" stocked with a plastic tumbler and an ice bucket. In the bottom drawer of her small dresser, she kept a. As a youth he had daydreamed about becoming an entertainer--a singer, or a comic, maybe--but he couldn't sing and he couldn't tell jokes, and somehow after his parents died within two years of each other halfway through the voyage, he had ended up in the Army. So now, though he still couldn't sing a note or tell a joke right, he knew just how to use an M32 to demolish a small building from two thousand yards, could operate a battlefield compact blindfolded, and was an expert at deactivating optically triggered anti-intruder personnel mines. "It couldn't fire anyway," Kath replied. "Its modifications aren't completed yet. We've already got it." "Old Sinsemilla," said Leilani. how you think means changing what you believe about life. That's hard, sweetie. When we make our. He wondered how he might have made out if he'd had a start like that. And what would a guy like Colman be doing, who knew more about the Mayflower II's machines than half the echelon-four shot-noses put together? If that was the way the computers had brought the first kids up, Driscoll reflected, he could think of a few humans who ~ could have. used some lessons. She slipped into white shorts and a sleeveless Chinese-red blouse. In the mirror on the back of the. two of these seven days without any alcohol whatsoever. She wouldn't get sloppy tonight, just numb. Tanks filled, the transport pulls away from the pumps, but the driver doesn't return to the interstate. Breath wheezed in her throat, and each hard exhalation caused her cowl of hair to stir and plume. Although Casey and Barbara remained outwardly cordial and polite, they were making no attempt to disguise the fact that they felt the same way. Colman realized that for the first time he was seeing Chironians with the gloves off. All the warmth, exuberance, and tolerance that had gone before had been genuine enough, but beneath it all lay more deeply cherished values which came first, no matter who made the pleas. On that, there could be no concessions. When the trucker points toward the restrooms, the cowboys look up and see Curtis a little past the. - At that moment a local alarm sounded inside the command post. Within seconds the sounds of men running to stations came from the passageways and stain to the rear. One of the duty crew was already flipping switches to collect report summaries, and Charez got up to go to the outer observation room just as the Watch Officer appeared in the doorway from the other side. "There are troops approaching the lock," the Watch Officer announced. "Regulars--thirty or more of them." "One week, and already you're a master of hugely befuddling conversation. Oh, I'd love to hear what a. This was about Leilani Klonk, not about Michelina Bellsong. Leilani was only nine, and in spite of what. "I don't know." Amy screwed her face up and rubbed the bridge of her nose with a finger. "I suppose I'd have to be crazy." None of these people appears to be suspicious of him, and none seems likely to be one of the relentless. I thought you might need a hand with these so I did them last night. If my hunch is right, things have probably gotten a bit difficult for you. There's no sense in upsetting people who don't mean any harm. Take it from me, he's not such a bad guy. wheelchair? CLUMP, CLUMP, CLUMP, clump, clump, clump, clump, clump. survival, he must forget, at least for now, that particular terror, that unbearable loss. Pernak's contention, that the Big Bang represented not an act of absolute creation but a singularity marking a phase-change from some earlier-if that term could be applied-epoch in which the familiar laws of physics along with the very notions of space and time broke down, was representative of the general views held on Earth at that time. Indeed, although the bizarre conditions that had reigned prior to the Bang could not be described in terms of any intuitively meaningful conceptual model, a glimmer of some of their properties was beginning to emerge from the abstract symbolism of certain branches of theoretical mathematical physics. "But the people I work for might take it into their heads to decide they own it," Driscoll pointed out. "The compassionate young woman who saved him from the needle," Micky pressed, "was she you, Aunt." "Is that a proposal?" Wellesley asked. "You're proposing to plan for contingencies involving a first use of force?" KATH STOPPED TALKING and leaned away to pour a drink from the carafe of wine on the night table by the bed, and Colman lay back in the softness of the pillows to gaze contentedly round the room while he savored a warm, pleasant feeling of relaxation that he had not known for some time. It was a

cosy, cheerfully feminine room, with lots of coverlets and satiny drapes, fluffy rugs, pastel colon, and homey knickknacks arranged on the shelves and ledges. In many ways it reminded him of Veronica's apartment in the Baltimore module. On the wall opposite was a photograph of two laughing, roguish-looking boys of about twelve, whom despite their years he recognized easily as Casey and Adam, and scattered about were more pictures which he assumed were of the rest of Kath's family. The one in a frame on the vanity resembled Adam, though not Casey so much, and was of a dark-haired, bearded man of about Colman's age. It had to be Leon, he guessed, though he had felt it better not to ask, more because of the restraints of his own culture than from any fear of disturbing Kath. The painting of a twentieth-century New England farm scene-given to her by one of her friends, Kath had said when he remarked on it-interested him. Since arriving on Chiron he had seen many such reminders of ways of life on Earth that nobody from Chiron had known. On asking about them, he had learned that a feeling of nostalgia for the planet that held their origins, known only second-hand via machines, was far from uncommon among the Chironians..bribed, anyway. They aren't politicians, after all. If the National Security Agency also has operatives in.levitation beams that suck you right out of your shoes and up into the mother ship, little gray men with big."Those kids," Bernard replied, gesturing behind them. "There are some pretty sharp minds among them. Is everyone here like that?""Jay told us you're an engineering officer on the Mayflower 11," Chang said, sounding interested. "A specialist in fusion processes.".What had surprised him even more was the quality of everything they had provided. The closets, drawers, and vanity that formed one wall of the room by the entrance to the bathroom were old-fashioned in style, but built from real, fine-grained wood, expertly carved. The doors 'and drawers fitted perfectly and moved to the touch of a finger. The fabrics and drapes were soft and intricately woven rather than having been patterned by laser impregnation; the carpets were of an organic self-cleaning, self regenerating fiber that felt like twentieth-century Wilton or Axminster; the bathroom fittings were molded from a metallic glazed crystal that glowed with a faint internal fluorescence; the heating and environmental system were noiseless. On Earth the place would have cost a hundred thousand at least, he reflected. He wasn't sure if the Chironians still owned the complex and had leased it to the Mission for some' period, or what, but the letter from Merrick assigning him to quarters allocated on the surface hadn't mentioned rental payments. In his eagerness to get down from the Mayflower II, Fallows, after some moments of hesitation, had decided not to ask.."So what will you do? Sirocco inquired, propping his feet back on the desk. "Figured it out yet?"".she'd fetch the brandy and drink that instead, regardless of Leilani's objections. Alcohol never soothed."I said you can stuff it." Suddenly the feeling of intimidation that had haunted Bernard for years was gone. The role that he had allowed himself to be twisted and bent into shriveled and fell away like an old skin being sloughed off. For the first time he was-himself, and free to assert himself as an individual. And on the far side of the desk before him, the granite cathedral cracked apart and collapsed into rubble to reveal . . . nothing inside. It was a sham, just like all the other shams that he had been running from all his life. He had just stopped running.."Nothing," Juanita said. "But why would they? Who'd take any notice of them?"".woman occupies the driver's seat, her attention devoted to the stalled traffic blocking the highway..As the boy eases shut the door of the Explorer, the mongrel pads toward the back of the auto carrier..The land slopes down to the west. The earth is soft, and the grass is easily trampled. When he pauses to."But lay's still got a point," Bernard said, glancing at his son and nodding "What about the people who won't use them?"".Jean shook her head, still refusing to contemplate the prospect. "But why does it have to be over?" She looked imploringly at Bernard. "We were happy all those years in the ship, weren't we? We had our friends, like Jerry and Eve, we had the children. There was your job. Why should this planet take it all away from us? They don't have the right. We never wanted anything from them. It's-it's all wrong.". "They're not just guilty of misappropriating foundation funds for personal use. Circle of Friends receives.They will see through him, perhaps not immediately, but soon, and if they get their hands on him, he will."On what I'm doing." The Chironian looked apologetic. "I could talk to him about the marine biology on the east coast of Artemia, putting roofs on houses, or Fermat's theorems of number theory," he offered. "Do you think he might be interested in anything like that?"". "Yeah. And you're wearing a Hawaiian shirt. Plainclothes cops like Hawaiian shirts, 'cause you can hide.Jean forced a smile. "Just remember that," she said."For a few hours maybe.". "That was unfortunate, but it was beyond our control," Leon said. "I hope you do not believe that we were responsible." Bernard shook his head..that has broken out behind him.."Child Protective Services?"".From the kitchen, she could see through the dining area and into the lamplit living room. Her mother.In the closet: no Mom, no puke, no blood, no hidden passageway leading to a magical kingdom where."Only one of you was shot m the head," Leilani said, "but you've both got scrambled wiring for the most.freshness date had passed.."This planet has escaped such a fate until now, but its population will grow. It has a chance to profit from what Earth has- learned, and to plant the seeds of a strong, urnfl'e4 and unshakable order now, before the diseases of disunity have had a chance to germinate and become virulent. The same forces that are already unleashed upon Earth are only two years away from reaching Chiron in the form of the vanguard of the Eastern Asiatic Federation. In just two years' time, your choice will be either to submit to the domination of those who would enslave this planet, or to confront them with a unified strength that would make Chiron impregnable. Your choice is weakness or strength servility as opposed to dignity; slavery as opposed to freedom; ignominy as opposed to honor; and shame as Opposed to pride. Weakness or strength. I offer the latter alternatives".At least thirty men, dressed in black, debark from the trailer: not merely a SWAT team, not even a.lot like her.".caught her attention. At first he hears only the grumble of the SUVs. . . . Then, in the distance, a flutter of.Bouncing on the bed, giggling prettily, old Sinsemilla relived the comic moment: "Snake goes boing!.with Nature." .,Paula slapped down four aces gleefully. "You lose! Hey, how about that? I just cleaned him out. See, I knew he had to be bluffing.".Colman sighed. "So I kept running away and getting into all kinds of stupid trouble, and in the end did most of my growing-up in centers for problem kids

that the State ran. Sometimes they tried moving me in with families in different places, but it never worked out. The last ones tried pretty hard. They adopted me legally, and that's how I got my name. Later we moved to Pennsylvania . . . my stepfather was an MHD engineer, which was probably what, got me interested . . . but there was some trouble, and I wound up in the Army." braced herself with the same lie once more. This wasn't really vodka for Micky. This was anger for.also on occasion under the soap-obscured surface of a full bathtub, and of course in spaceships whether.remarkable. The crudeness of what she heard lulled to fire a blush in her. If she harbored anger, she hid it.make-believe cop, like what I am now, and if someday I can't do this . . . Well, then , . ."What in hell's come over him?" Hanlon asked, nonplussed. "Aren't they paying captains well these days?".saturated with toxins."I know, but I figured rd go take a 16ok at the place anyhow out of curiosity. That can't do any harm. Later on, well... maybe anything could happen."He begins to doubt the instinct that pressed him backward out of the hallway. Then he realizes that the.In spite of a free-spirited tendency to be unrestrained in all things, Sinsemilla had thus far restricted her.Instead of seeking chairs, they remained standing for the show.."Exactly what are you asking us to do?" Otto asked from the screen. Lechat tossed up his hands and began pacing again..holds, and still the door doesn't open for him. Magic lock, bolt fused to the striker plate by a sorcerer's.Face to the sun, eyes closed, striving to empty her mind of all thought, yet troubled by insistent.two words carried a heavier load than any of the freight trains that Micky had imagined escaping on.Leilani smiled wanly. "Sucky. We're still waiting for the day when I'm able to foretell next week's winning.Wellesley raised a hand a fraction. "Be careful you don't allow this to get too personal, Howard," he cautioned. "I know you had an embarrassing time yesterday, and I'm not condoning their attitude, but all the same we have to---" He broke off as he noticed that Sterm, the Deputy Director, was sitting forward to say something, which was a sufficiently rare event to warrant attention. ,"Yes, Matt?" The others looked toward Sterm curiously.." 'Strange lights in the sky,' " Micky quoted, " 'pale green levitation beams that suck you right out of your.Paul Lechat paced back and forth in agitation across the lounge of the Fallowses' apartment in Cordova Village. "I didn't think the Chironians would go that far." he said. "I thought they would react only against direct violence. Why couldn't they have just let everything die a natural death?". "Thank you," Merrick said, pouncing on the opportunity to conclude. "I agree with and endorse your assessment. Very good, Fallows. Enjoy your leave." Merrick turned to one side and began tapping something into the touchboard below the screens..which Laura served her life sentence, that inner darkness wouldn't be brightened by them..Driscoll had taken Shirley up on her invitation to get in touch when he got down to the surface, and she had asked him along to the party in Franklin, at the same time telling him to feel free to bring anyone he wanted. So Driscoll had invited Colman, Swley, Maddock, and Stanislaw, who among them had persuaded Sirocco to come too, and Sirocco had suggested bringing some of the girls from the Mayflower II. Adam, who turned out to be a friend of Ci's, had also been invited with Kath, and between them they had brought Adam's twin brother, Casey, and Casey's girlfriend from the ship-the lively woman that Colman hadn't been able to place previously..sufficiently well informed about the darker side of human nature to understand what he saw in that jar.."I'm not sure why, but it's important. - . from the Chironians."."I'm not sure.., maybe fifty. We've left most of them back down the ramp covering the lock out of the cupola."."Brandy and milk," Micky said, and at once Leilani, who was not drinking coffee, suggested, "Milk,".heard about the courtesy of the road. Everyone's hellbent on getting to the interstate, racing around and.returns quietly Jo the open bedroom door, the dog remaining by his side..Aunt Geneva's aged house trailer looked like a giant oven built for the roasting of whole cows, in.In the houses that he passed, Noah saw only a few puzzled or wary faces pressed to lighted windows..Jerked up and jammed down, the lever handle doesn't release the latch, but pulled inward, it works..so intently focused on the rear entrance to the restaurant that not one of them catches sight of Curtis as.grasp. She lacks the cultural references to make sense of it. Her tail stops wagging, but only because she.Micky swung her legs over the side of the bed, slid next to her aunt, and put an arm around her."Aw, I wasn't watching it." Jay waved vaguely with the book and returned it to its shelf. "Usual stuff."..denial, knocked the breath out of her..Curtis eases off the bed. He feels the wall beside the jamb, finds the switch..light into a few of the rooms in her heart. Until then, she had long resisted such explorations, perhaps out.Although the boy is mortified by this discovery, he's also still unable to get a grip on the tossing reins of."Have you seen the news this evening?" Jean asked. "Three of Padawski's gang split off and turned themselves in, but the troops found two more bodies over there- Chironians. How long do you think this can go on before they start getting back at us here in Canaveral?".As the Mayflower II wheeled slowly in space high above Chiron, the outer dour of Shuttle Bay 6 on the Vandenberg module separated into four sectors which swung apart like the petals of an enormous metal flower to expose the nose of the surface lander nestling within. After a short delay, the shuttle fell suddenly away under the rotational impetus of its mother-ship, and thirty seconds later fired its engines to come round onto a course that would take it to the Kuan-yin, orbiting ten thousand miles below.
