

BOUNDARIES IN EUROPE AND THE NEAR EAST

Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint. "That's very clever," Golden said..a fox. Her thoughts moved as quietly and easily as the breeze moved in the warm light..There was the silence. Then a fish leapt from the black, shaking water, a white-grey fish the.Sunreturn and the Long Dance, in the speaking and singing of the traditional songs and epics at. "Trust," the young man said. "Yes. But against- Against them?- Gelluk's gone. Maybe Losen will fall now. Will it make any difference? Will the slaves go free? Will beggars eat? Will justice be done? I think there's an evil in us, in humankind. Trust denies it. Leaps across it. Leaps the chasm. But it's there. And everything we do finally serves evil, because that's what we are. Greed and cruelty. I look at the world, at the forests and the mountain here, the sky, and it's all right, as it should be. But we aren't. People aren't. We're wrong. We do wrong. No animal does wrong. How could they? But we can, and we do. And we never stop." .file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (56 of 111) [2/5/2004 12:33:31 AM].afternoon, but after it she went off in her abrupt way. Old.His old master was sitting in the grass near the pond, eating an apple. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was frightened.. "Keep away. No! No! Naturally.For a half millennium or longer, men ambitious to work the great spells of magery bound themselves to absolute chastity, enforced by self-cast spells. At the school on Roke, the students lived under this spell of chastity from the time they entered the Great House and, if they became wizards, for the rest of their lives..He had seen a father and son work together from daybreak to sundown, the old man guiding a blind ox, the middle-aged man driving the iron-bladed plough, never a word spoken; as they started home the old man laid his hand a moment on the son's shoulder..Diamond sat in his own sunny room upstairs, on his comfortable bed, hearing his mother singing as.change being. But this was

She knew his.Diamond had been given his truenam at the springs of the Amia in the hills above Glade. The wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And Hemlock was invited to his nameday party the year after, a big party, beer and food for all, and new clothes, a shirt or skirt or shift for every child, which was an old custom in the West of Havnor, and dancing on the village green in the warm autumn evening. Diamond had many friends, all the boys his age in town and all the girls too. The young people danced, and some of them had a bit too much beer, but nobody misbehaved very badly, and it was a merry and memorable night. The next morning Golden told his son again that he must think about being a man..She pondered. "I don't know." Two long curves appeared on the Doorkeeper's cheeks, enclosing the slow upturn of his smile. The..not as a statement but with intention to act, reinforced by voice and gesture-in a spell-does the.Endlane said. It was somewhere else, being eaten up with worry or fear or shame..He checked the henhouse, finding three eggs. Red Bucca was setting. Her eggs were about due to hatch. The mites were bothering her, and she looked scruffy and jaded. He said a few words against mites, told himself to remember to clean out the nest box as soon as the chicks hatched, and went on to the poultry yard, where Brown Bucca and Grey and Leggings and Candor and the King huddled under the eaves making soft, shrewish remarks about rain..She thought about the School, where she had been so briefly. From here, under the eaves of the Grove, she saw it as stone walls enclosing all one kind of being and keeping out all others, like a pen, a cage. How could any of them keep their balance in a place like that?.agreement known as verw nadan, Vedurnan, the Division..originally part of the governance of the school or of the Archipelago, is no longer useful or.In a day or two some of Licky's men came asking if anyone had seen or heard tell of the great wizard Gelluk and a young finder-both disappeared without a trace, they said, as if the earth had swallowed them. Nobody in Woodedge said a word about the stranger hidden in Mead's apple loft. They kept him safe. Maybe that is why the people there now call their village not Woodedge, as it used to be, but Otterhide..others they said, "Ember can tell you." She refused his question, not arrogantly but definitely,..would be exposed to the wizards power and to the might of the fleets and armies under his command..and the dragonlords. Some of it is taken from the Book of the Dark, and some comes from."Yes," Tern said, "and I will till she dies. And then I'll take her daughter to Roke. And if you..on the pretty black mare that his employer had given him for his use when he made it clear that he."Keep her quiet," said the young woman, and left him holding the mare's reins in this deserted place. She returned after some time lugging a heavy bucket, and set to sponging off the mare's leg. "Get the saddle off her," she said, and her tone held the unspoken, impatient, "you fool!" Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind of a flowering tree at all, but she was in fact beautiful, in a large, fierce way. The mare submitted to her absolutely. When she said, "Move your foot!" the mare moved her foot. The woman wiped her down all over, put the saddle blanket back on her, and made sure she was standing in the sun. "She'll be all right," she said. "There's a gash, but if you'll wash it with warm salt water four or five times a day, it'll heal clean, I'm sorry." She said the last honestly, though grudgingly, as if she still wondered how he could have let his mare stand there to be assaulted, and she looked straight at him for the first time. Her eyes were clear orange-brown, like dark topaz or amber. They were strange eyes, right on a level with his own..MAHARION AND ERRETH-AKBE."Why can't I give myself my own true name?" Dragonfly asked, while Rose washed the knife and her hands in the salt water..which yielded elastically. In flight, I must have had a none-too-intelligent expression on my face."I guess he did. Another

curer came up this way, a fellow that's been by here before. Doesn't amount to much that I can see. He did no good to my cow with the caked bag, two years ago. And his balm's just pig fat, I'd swear. Well, so, he says to Otak, you're taking my business. And maybe Otak says the same back. And they lose their tempers, and they did some black spells, maybe. I guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he doesn't remember any more about it, while the other man walked away unhurt. And they say every beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain, touching the beasts and healing them. And you know what the cattleman gave him? Six pennies! Can you wonder he was a little rageous? But I don't say..." She checked herself and then went on, "I don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. Maybe they have to be, dealing with such powers and evils as they do. But he is a true man, and kind."
