You know that's just a paranoid fantasy. I use only enough time for practice and no more." I sighed. "You seem to have all the best of it" She snorted. "I wonder. Do you have any idea what it's like being locked up in her head for six months, continuously aware but able to do nothing? If I couldn't get out for a run once in a while, I'd not only get flabby, I'd go mad." She bounced out of the chair and came over to lace her fingers together behind my neck. "What about you? It's three months until January. How can I give up seeing you for three whole months?" He climbed onto his back, huddling between his shoulder blades, his hand on his shoulders. Unfortunately, launching twelve thousand torpedoes simultaneously put a serious overload on our computer system. Zorphwar runs at A-1 priority on our machine, which means that any other use of the machine is halted while Zorphwar computations are completed. As you may have noticed, it took approximately forty minutes for the machine to compute the paths through the galaxy of those torpedoes, to determine their impact points, and to calculate the radius of destruction of each burst. Normally such overloads are handled by adjusting the work load in the Computer Center. However, at three thirty yesterday, the Center was in the midst of printing the paychecks for the entire Computer Products Division. The little delay our game occasioned upset the very tight schedule for that operation. As a result, all checks from R through Z were not printed on time and failed to make the courier flight to the West Coast. That is the reason your paycheck was not delivered to you today. Regrettably, it is also the reason that Division President Tailing and Corporation Comptroller Westland were not paid this week. While you are more familiar than I am with the personalities at Headquarters, I suspect that both of these gentlemen like to receive their paychecks. I trust that, if any investigations come out of this little incident, you will do your best to emphasize the fact that the Zorphwar program has already been modified to permit the launching of no more than tea doomsday torpedoes in one attack. Thus, this particular problem will never occur again..She swooped toward her ankles with the knife. The long skirt of her dress hung in the way.
