Another curer came up this way, a fellow that's been by here before. Doesn't amount to much that I can see. He did no good to my cow with the caked bag, two years ago. I guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he doesn't remember any more about it, while the other man walked away unhurt. And they say every beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain, touching the beasts and healing them. And you know what the cattleman gave him? Six pennies! Can you wonder he was a little rageous? But I don't say..." She checked herself and then went on, "I don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. Maybe they have to be, dealing with such powers and evils as they do. But he is a true man, and kind." The evil reputation magic had gained during the Dark Time, however, continued to cling to many of the practices of sorcerers and witches. Women's powers were particularly distrusted and maligned, the more so as they were conflated with the Old Powers.. shoulders hunched, joined the stream of pedestrians. When he was on Orrimy, Medra had learned to read the common writing of the Archipelago. Later, "And what would I do there?" None of the mages answered him. In the silence, the men with him murmured, and a voice among them said, "Let us have the witch." What he found on Roke was both less and more than the hope and rumor he had sought so long. For the rest of his life, Medra kept the doors of the Great House on Roke. The garden door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed in that house as the centuries passed through it. And still the ninth Master of Roke is the Doorkeeper.. Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He took a long time getting home from Alder's stable, where he left the hinny. Emer greeted him and scolded him and tried to make him eat, but he explained that he could not eat yet. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. So the pattern of the years was set for Tern. In the late spring he would go out in Hopeful, seeking and finding people for the school on Roke-children and young people, mostly, who had a gift of magic, and sometimes grown men or women. Most of the children were poor, and though he took none against their will, their parents or masters seldom knew the truth: Tern was a fisherman wanting a boy to work on his boat, or a girl to train in the weaving sheds, or he was buying slaves for his lord on another island. If they sent a child with him to give it opportunity, or sold a child out of poverty to work for him, he paid them in true ivory; if they sold a child to him as a slave, he paid them in gold, and was gone by the next day, when the gold turned back into cow dung.
