"And when he doesn't have any?".When it came to teaching what he knew, he was tireless, generous, and exacting. For the first time, Medra was given a vision of magic not as a set of strange gifts and reasonless acts, but as an art and a craft, which could be known truly with long study and used rightly after long practice, though even then it would never lose its strangeness. Highdrake's mastery of spells and sorcery was not much greater than his pupil's, but he had clear in his mind the idea of something very much greater, the wholeness of knowledge. And that made him a mage..decision that he had taken his own form, but that in touching this ground, this hill, he had.steaming water into the bath. "He has ivory," she said. That nothing will change. Nothing will grow. That no matter what cures I use, the sickness will end in death." He looked around at them all like a hurt ox. "And I think it is true. There is no way to regain the Equilibrium but by holding still. We have gone too far. For the Archmage and Lebannen to go bodily into death, and return - it was not right. He looked forward to seeing him, to being kind to him, teaching him, petting him a bit as he had done yesterday. He sat down with him in the sun. Gelluk was fond of children and animals. He liked all beautiful things. It was pleasant to have a young creature about. Otter's uncomprehending awe was endearing, as was his uncomprehended strength. Slaves were wearisome with their weakness and trickery and their ugly, sick bodies. Of course Otter was his slave, but the boy need not know it. They could be teacher and prentice. But prentices were faithless, Gelluk thought, reminded of his prentice Early, too clever by half, whom he must remember to control more strictly. Father and son, that's what he and Otter could be. He would have the boy call him Father. He recalled that he had intended to find out his true name. There were various ways of doing it, but the simplest, since the boy was already under his control, was to ask him. "What is your name?" he said, watching Otter intently..Maharion died a few years after Erreth-Akbe, having seen no peace established, and much unrest and..and heavy. It's a difficult thing for a young man, very difficult -- a test of a will that has not yet been steeled, a mind that has not yet seen its true goal. I very strongly advise that you not take that risk. Write your parents, and go to the Great Port, or to Roke. Half your year's fee, which I'll return to you, will see to your first expenses..". "Pretty good, pretty good," his father said. "Keep practicing." And he went on. He was not sure what he ought to have said. He did not want to encourage the boy to spend any more time on music, or with this girl; he spent too much already, and neither of them would help him get anywhere in life. But this gift, this undeniable gift t the rock hovering, the unblown fife -- Well, it would be wrong to make too much of it, but probably it should not be discouraged.. "Crafty men need to stick together," he said. "Men who have no art at all, nothing but wealth-they..you!" A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked..anywhere he could not see it. "As the Master Namer here, I make free with names, my own included. Who named you, Irian?" in Havnor. They flew north, Erreth-Akbe in pursuit. Over the sea near Taon, Orm turned again and "Go on, Deyala. I'll stay here." The Herbal went off. Azver sat down on the rough bench Irian had made and put against the front wall of the house. There's an old pallet in the woodhouse. Air it. Don't bring mice in with it." And he stalked off towards the Overfell, angry with the boy for coming and with himself for giving in; but it was not anger that made his heart pound. Striding along-he could stride, then-with the seawind pushing at him always from the left and the early sunlight on the sea out past the vast shadow of the mountain, he thought of the Mages of Roke, the masters of the art magic, the professors of mystery and power. "He was too much for 'em, was he? And he'll be too much for me," he thought, and smiled. He was a peaceful man, but he did not mind a bit of danger..Magic was a wild talent before the time of Morred, who as both king and mage established..other eye looked a little off to the side.
