of glass, metallic sounds, repeated, incomprehensible. The crowd that had carried me here. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (96 of 111) [2/5/2004 12:33:31 AM]. "Can I know the secret?" he asked after a while..a lioness, who shouldered him aside. There was a rumbling in his throat, a purr, not a roar. The."Ah, pick your nose, harp-picker," Labby said, and Tarry took offense, and people took sides, and while the dispute was at its brief height, Rose put her fife in her pocket and slipped away..She came to the door and muttered some kind of greeting. They daunted her, these Masters of Roke,.Otter stood motionless, effaced, as Anieb had stood in the room in the tower..He had given her a little warmth when she was cold. He had nothing else to give her. Where she."Oh yes. You are uncommonly slow, young man, to recognize your own capacities." It was spoken.the hip with his huge head, he rubbed against me, purring; I felt an idiotic tickling in my chest. . ."I can find it," said Otter..Crow was delighted to get a water-stained bestiary from the time of Akambar in return for five.observing this scene..sign in return, "but not always safe, among strangers."..She was silent for a moment..Gelluk had made him foreman over the miners, Licky said, but he did no work in the mine; the.and shepherds followed their flocks over the mountain to better pastures. The old house that had.knelt to look at some small plant or fungus on the forest floor..something Dulse could teach him: what went deeper than mastery. What he had learned here, on Gont,.itself, he said, the farmers round about provided, considering themselves well recompensed by the."I'll stay here if I may," he said in that princely way, with his teeth chattering, holding on to the doorjamb to keep on his feet..that art for a long time.. "That wall is not as deep-rooted as my trees," said the Patterner..is to say, indirectly, but considerably..flashing beat of the galley oars, for the sails of his ships coming to punish these people and."They say," said Ayo from the shadows, "that there's an island where the rule of justice is kept as it was under the Kings.. "Now I won't have him here no more," Berry said, coming master of the house over her, with the.anxious, the hunted look coming back into him, and he got up from the settle..Time passed as always in the Grove, not passing at all it seemed, yet gone, the day gone quietly by in a few long breaths, a quivering of leaves, a bird singing far off and another answering it from even farther. Irian stood up slowly. She did not speak, but looked down the path, and then walked down it. The four men followed her..he looked at his son. Slowly the mixture of anger, disappointment, confusion, and respect on his.gone still. Not a fly buzzed.. "Diamond." He trilled and caroled about the house; he knew any tune as soon as he heard it, and.white border. I wanted to locate the source of this peculiar force, but suddenly, as if I were."To bring Lebannen here," said the Herbal. "The young men talk of "the true crown". A second..she went about the house. He held the wizard's letter and reread the message and the two runes..Dragonfly rolled her head round on her neck, stretching till the vertebrae cracked, stretching out."Nonsense! Not history!" said the old Namer. "The first Archmage came centuries after the last king. Roke ruled in the kings' stead." "Yes. To send away one woman, it takes nine mages." He very seldom smiled, and when he did it was.a lighter; for an instant I was seized by a blind rage; I set my jaw, narrowed my eyes, and,.."You're singing," she said and lightly tugged at me. We walked among the tables and I.ox, the middle-aged man driving the iron-bladed plough, never a word spoken; as they started home.to dry his feet and put his shoes back on. "When I go back to the Tower," he said, "I'll ride..They saw it, they said it..fifty or sixty years earlier..She broke off, coughing. Her mother shot an anguished, yearning glance at the wizard. Surely he.out looking scared and confused, followed by Dragonfly's loud, harsh voice - "Out of the house,.become himself. A magic greater than his own prevailed here.. "She will when the time comes. But she has no part to play in your decision, Diamond. Women know nothing of these matters and have nothing to do with them..arouse my antipathy were the ones who looked after us -- the staff of Adapt. Dr. Abs most of all, "I think what we have to do," he said without preamble, "is try to hold the fault from slipping much, you at the Gates and me at the inner end, in the Mountain. Working together, you know. We might be able to. I can feel it building up, can you?"..The sorcerer came out from behind San. His name was Ayeth. The power in him was small, tainted,.."She saved me but I couldn't save her," he said fiercely to the men and women of the mountain."Have you ever kept goats?" Dulse asked, in the same soft, polite voice.."Ah," said Diamond, floored. The Summoner's art is perhaps the most arcane and dangerous of all..thinking that his daughters were of noble blood..that bush into the seeming of a tree," he said, and promptly Otter did so. Illusion came so easy..As mountains will, Andanden makes the weather. It gathers clouds around it. The summer is short..The great guilds, since their network covers all the Inner Lands, answer to no overlord or authority except the King in Havnor..triple beat on his tabor, and they were off into a sailor's jig.. "So I was practice," Rose snarled..She stood with the little oil lamp in her hand, and the light of it shone red between her fingers and golden on her face. He said her name. She gave him sleep..They were both shy. When Medra took her hand his hand shook, and Ember, whose name was Elehal..He pulled up some grass and rubbed at the slimy mud on his feet and legs. It was not dry yet, and.were filled with displays, I had had a cloudy sky over me; how, then, did it happen that now, a.a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and..keeping Bren's shoes for, anyhow? They were too small for Berry and too big for her. She'd given..Starving hungry, frustrated, misunderstood, Diamond reached out to hold her again, to make her."Do you?" asked the man in the red tunic, smiling a little.."Good-bye. . ."..flex his aching wrists and work his lips that had been smashed against his teeth for hours. "The..Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room where the lorebooks and wordbooks were, or asleep. Hemlock was a stickler for early abed and early afoot. But now and then Diamond had an hour or two free. He always went down to the docks and sat on a pier side or a waterstair and thought about Darkrose. As soon as he was out of the house and away from Master Hemlock, he

began to think about Darkrose, and went on thinking about her and very little else. It surprised him a little. He thought he ought to be homesick, to think about his mother. He did think about his mother quite often, and often was homesick, lying on his cot in his bare and narrow little room after a scanty supper of cold pea-porridge -- for this wizard, at least, did not live in such luxury as Golden had imagined. Diamond never thought about Darkrose, nights. He thought of his mother, or of sunny rooms and hot food, or a tune would come into his head and he would practice it mentally on the harp in his mind, and so drift off to sleep. Darkrose would come to his mind only when he was down at the docks, staring out at the water of the harbor, the piers, the fishing boats, only when he was outdoors and away from Hemlock and his house..balloon! I stood over him, astounded, unable even to mutter an apology. He picked himself up..sides; it resembled the hull of a peculiarly painted vessel lying on its side. This, visible through.Maybe I said it out loud in my sleep. Or somebody told him. But nobody knows it. Nobody ever knew.She sat on a while by the Thwilburn. She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She roamed restlessly back down he streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. She slid out of her clothes, the man's breeches and shirt that were all she had, and slipped naked into the water, feeling the push and stir of the current all along her body. She had never swum in the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed away from her in the running of the water, and she floated in delight in the caress of the stream, gazing up at the white, soft fire of the stars..wife. When he had gone she turned to Otter.."Anieb," he said..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (15 of 111) [2/5/2004 12:33:30 AM].Irioth tried to say he did not want a quarrel. He tried to say that there was work for two. He tried to say he would not take the man's work from him. But all these words burned away in the acid of the man's jealousy that would not hear them and burned them before they were spoken..The idea of doing harm troubled her, but the idea of danger had not entered her mind. She found it.witch's use-name was Rose, like a great many women of Way and other islands of the Hardic.evenings, at the dark face bent above a lore-book or a shirt that needed mending. The eyes cast.the young king in the Summoner's place. To us it seemed right that he should sit among us. Only."The wizard let you visit home?".pressed, and into my palm fell a colored, translucent tube, slightly warm. I shook it, held it up to.The hierarchic and centralising tendency of this religion lent support at first to the ambition of the Kings of Hupun on Karego-At. By force of arms and diplomatic maneuvering, the House of Hupun within a century or so conquered or absorbed most of the other Kargad kingdoms, of which there had been more than two hundred..shaped flowers nodding in the wind of morning..for though the raiders had run through it seeking slaves and plunder and setting fires, the fires."Come to the shallows," he said..Nothing, to his mind, could be more despicable than such a betrayal of their art. So it troubled."A little gift," Diamond said indistinctly. "Enough for tricks"..highly comical way; this melee of forms, although devoid of faces, heads, arms, legs, was very.The food of dragons is said to be light, or fire; they kill in rage, to defend their young, or for sport, but never eat their kill. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (103 of 111) [2/5/2004 12:33:32 AM].up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard,.They jolted on all the next day through a summer thundershower or two and carne at dusk to Kembermouth, a walled, prosperous port city. They left the carter to his master's business and walked down to find an inn near the docks. Dragonfly looked about at the sights of the city in a silence that might have been awe or disapproval or mere stolidity. "This is a nice little town," Ivory said, "but the only city in the world is Havnor"..She left him standing at the waymeet, on the level ground, and walked up the hill path for a little way, a few strides. She turned and looked back down at him. "What keeps you from the hill?" she said..distrust of him. She was easy with him. He meant no harm to her. She thought there was kindness in.Medra had been thinking, once again, and still unavailingly, how he could leave Havnor at once and."Well, why can't you do it all? The magic and the music, anyhow? You can always hire a bookkeeper..".In the Grove is no harm," said the Patterner. "Come on. There is an old house, a hut. Old, dirty. You don't care, eh? Stay a while. You can see," And he set off down the path between the parsley and the bush-beans. She looked at the Doorkeeper; he smiled a little. She followed the pale-haired man..When she woke, the Master Patterner was sitting nearby, and a basket was on the grass between them..Irian looked from one to the other..Making. "Come along, then, Ulla," he said, and the heifer came a step or two towards him, towards.Veil came from Thwil Town that morning, bringing them a basket of bread, cheese, milk curds, summer fruits. "What have you learned?" she asked Medra in her cool, gentle way, and he answered, "That I'm a fool..".Ivory! That fellow that studied with the Hand? Is he here?" the Changer demanded of Irian..are one..Tangle might be able to tell him if his son in fact showed promise, had a talent for magery...but..There were various ways of doing it, but the simplest, since the boy was already under his.mind, seeking his true name. But he did not know where to look or how to look. A finder who did."To

bring Lebannen here," said the Herbal. "The young men talk of "the true crown". A second coronation, here. By the Archmage Thorion." and hull. Surely that was using the secret art to a good end? For harm, yes, but only to harm the. For Golden looked on the Art Magic with genuine humility as something quite beyond him -- not a mere toy, such as music or tale-telling, but a practical business, which his business could never quite equal. And he was, though he wouldn't have put it that way, afraid of wizards. A bit contemptuous of sorcerers, with their sleights and illusions and gibble-gabble, but afraid of wizards..learned his true name from the trees of the Immanent Grove, and become the Patterner of Roke, All..she still scowled, sometimes she smiled, but she did not laugh. When she could, she went to the..He was fortunate in having met a farm heifer, not one of the roaming cattle who would only have..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (69 of 111) [2/5/2004 12:33:31 AM].file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (42 of 111) [2/5/2004 12:33:31 AM].She kept his hand and led him in. He was always a little reluctant to enter the witch's house, a pungent, disorderly place thick with the mysteries of women and witchcraft, very different from his own clean comfortable home, even more different from the cold austerity of the wizard's house. He shivered like a horse as he stood there, too tall for the herb-festooned rafters. He was very highly strung, and worn out, having walked forty miles in sixteen hours without food.. "Maybe I came to destroy Roke.". The power of the Archmage of Roke was in many respects that of a king. Ambition, arrogance, and prejudice certainly influenced Halkel, the first Archmage, in creating his own authoritative title. Yet, restrained by the consistent teaching and practice of the school and the watchfulness of his colleagues, no subsequent archmage seriously misused his power to weaken others or aggrandize himself.. "This is not a teller's tale, mistress. This is not a story you will ever hear anyone else tell.. "Who does?". stable, where he left the hinny. Emer greeted him and scolded him and tried to make him eat, but.. "They're coming," the Doorkeeper said. Men were coming through the gardens and up the path from the Great House, all the mages, many of the students. Leading them was Thorion the Summoner, tall in his grey cloak, carrying his tall staff of bone-white wood, about which a faint gleam of werelight hovered.. GOLDEN ordered the beer and food and fireworks, but Diamond saw to hiring the musicians.. asked no more. But he wanted to see the girl as beautiful as a flowering tree. He rode past Old.. After she died, he lived a while alone in the small house near the Grove.
