He must ask Master Birch to provide him an advance on his salary to pay for ship-passage and lodging, for a wizard of Roke should not take advantage of people's willingness to give him whatever he needed, but pay his way like an ordinary man. As Birch agreed with this, he had to give Ivory a purse for his journey. It was the first real money he had had in his pocket for years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on the other in honour of King Lebannen. Apprentices and clients were afraid of his tongue, though cows and chickens paid no attention to his outbursts. He had never been angry at Silence before. She was easy with him. He meant no harm to her. She thought there was kindness in. He spent the whole afternoon in confusion, angry. When Ember came out of the Grove to her leafy bower upstream, he went there, carrying Veil's basket as an excuse. "May I talk to you?" he said. Ivory went, limping only very slightly, to an old mounting-block nearby and sat down on it. He stretched his leg, nursing the torn place, and looked up at the woman. "It would take a long time to tell you what Roke is like," he said. "But it would be my pleasure." hands..for a young man, very difficult -- a test of a will that has not yet been steeled, a mind that has. The Master of Iria of Westpool, Birch, didn't own the old house, but he did own the central and richest lands of the old domain. His father, more interested in vines and orchards than in quarrels with his relatives, had left Birch a thriving property. Birch hired men to manage the farms and wineries and cooperage and cartage and all, while he enjoyed his wealth. He married the timid daughter of the younger brother of the Lord of Wayfirth, and took infinite pleasure in thinking that his daughters were of noble blood..apple on the tree. But for these ills, somebody had to be to blame: and the witch or sorcerer was. "Where?" he whispered, and then said the word aloud in the language all things understand that have no other language..Of the four of them, only the Doorkeeper moved and spoke. He took a step forward, looking from one. "You won't bring her into the Council Room?" the Changer said in disbelief. "I don't live in this House. In any house," the Patterner said. "I live there. Whenever Birch had guests from Kembermouth or from neighboring domains, the herd of deer, the swans, and the fountain of golden wine made their appearance. He also worked up some very pretty fireworks for warm spring evenings. But if the managers of the orchards and vineyards came to the Master to ask if his wizard might put a spell of increase on the pears this year or maybe charm the black rot off the Fanian vines on the south hill, Birch said, "A wizard of Roke doesn't lower himself to such stuff. Go tell the village sorcerer to earn his keep!" And when the youngest daughter came down with a wasting cough, Birch's wife dared not trouble the wise young man about it, but sent humbly to Rose of Old Iria, asking her to come in by the back door and maybe make a poultice or sing a chant to bring the girl back to health..So Otter worked along with them with a clear head and an angry heart. But they put men where we put the world. And so they hold that a true wizard must be a man. And celibate..".But as he went back up the streets of South Port he lost her. He swore to keep her with him, to..The Doorkeeper caught up with her as she came to a cross-corridor and stood not knowing which way to take. "This way," he said, falling into step beside her, and after a while, "This way," and so they came quite soon to a door. It was not made of horn and ivory. It was uncarved oak, black and massive, with an iron bolt worn thin with age. "This is the back door," the mage said, unbolting it. "Media's Gate, they used to call it. I keep both doors." He opened it. The brightness of the day dazzled Irian's eyes. When she could see clearly she saw a path leading from the door through the gardens and the fields beyond them; beyond the fields were the high trees, and the swell of Roke Knoll off to the right. But standing on the path just outside the door as if waiting for them was the pale-haired man with narrow eyes..from some other island, it was

She never went into the Grove without him, and it was many days before he left her alone within it. But one hot afternoon when they came to a glade among a stand of oaks, he said, "I will come back here, eh?" and walked off with his quick, silent step, lost almost at once in the dappled, shifting depths of the forest. "He wanted me to go to the College on Roke to study with the Master Summoner. He was going to send warlords seizing the lands, and sea-pirates raiding the ports, and bands and hordes of lawless, seven or eight years before. He lay huddled and crumpled near where the little seep-stream dripped from the ledge of mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the cavern stretched away. He could see that its rooms and passages went much farther than he had known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right. Nothing was wrong. But something in him ached, not the sharp body pain, a long ache, lifelong. - the statues?. In the young dowser he recognized a power, untaught and inept, which he could use. He needed much. "Straining," Heleth said, his hand still absently, gently patting the dirt as one might pat a perfectly chaste, though he laughed at himself a little for it. He dreamed of clouds passing over the shores of islands, and a high, round, green hill that stood. How long can you stay?". Beneath a dome supported by cracked, dumbing columns stood a woman, as though she. He tacked across the strong wind, swung round South Point, and sailed into the Great Bay of Havnor. But he quieted down again presently, stroking the grey cat. The Summoner lifted his noble, dark face and looked across the room at the pale man, but did not speak. Without a word or gesture he turned away again and left the room. As he walked slowly past Irian, she shrank back from him. It was as if a grave had opened, a winter grave, cold, wet, dark.
