"Who doesn't? I like the cheese making. There's an interest to it. And I'm strong. All I fear is getting old, when I can't lift the buckets and the molds." She showed him her round, muscular arm, making a fist and smiling. "Pretty good for fifty years old!" she said. It was silly to boast, but she was proud of her strong arms, her energy and skill. .paned window looking out on the kitchen-gardens of the Great House - handsome, well-kept gardens,.He reached out towards Yaved, towards the ache, the suffering. As he came closer to it he felt a great strength flow into him from the west, as if Silence had taken him by the hand after all. Through that link he could send his own strength, the Mountain's strength, to help. I didn't tell him I wasn't coming back, he thought, his last words in Hardic, his last grief, for he was in the bones of the mountain now. He knew the arteries of fire, and the beat of the great heart. He knew what to do. It was in no tongue of man that he said, "Be quiet, be easy. There now, there. Hold fast. So, there. We can be easy." .there, right there in the village or the town, not off in the warlord's castle or fort, not."That would spare us much trouble and some danger," said the young Finder..The witch said nothing. She knew the girl was right. Once the Master of Iria said he would or.He came up on deck again. It was clearing, and as the sun set the clouds broke all across the west, showing a golden sky behind the high dark curve of a hill..Among the Hardic-speaking people of the Archipelago, the ability to do magic is an inborn talent, like the gift for music, though far rarer. Most people lack it entirely. In a few people, perhaps one in a hundred, it is a latent, cultivable talent. In a very few people it is manifest without training..A wizard, as Halkel defined the term, was a man who received his staff from a teacher, himself a wizard, who had taken special responsibility for his training. It was usually the Archmage who gave a student his staff and made him wizard. This kind of teaching and succession occurred elsewhere than Roke-notably on Paln-but the Masters of Roke came to regard with suspicion a student of anyone not trained on Roke..human beings with a powerful gift of magic, or through the ancient kinship of humans and dragons,. That's ours," Ivory said, and the ship's master said, "Bound for Hort Town," and Dragonfly said softly, "From Iria."He strode from the house, turned, and set a fire spell on it so that it burst into flames, thatch and walls and every window spouting fire. Women ran out of it screaming. They had been hiding no doubt in the back room; he paid them no attention. "Hound," he thought. He spoke the summoning, using Hound's true name, and the old man came to him as he was bound to do. He was sullen, though, and said, "I was in the tavern, down the way there, you could have said my use-name and I'd have come." "All right," she said finally. "I'm not keeping you. But now this. . ." In such discussions they worked out the names that ever since have been given to the masteries: finding, weather-working, changing, healing, summoning, patterning, naming, and the crafts of illusion, and the knowledge of the songs. Those are the arts of the Masters of Roke even now, though the Chanter took the Finder's place when finding came to be considered a merely useful craft unworthy of a mage.."You still are," Medra said. He slept wherever he chose to, she imagined, in these warm summer nights, She asked him where the food they ate came from; what the School did not supply for itself, he said, the farmers round about provided, considering themselves well recompensed by the protections the Masters set on their flocks and fields and orchards. That made sense to her. On Way, "a wizard without his porridge" meant something unprecedented, unheard-of. But she was no wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House, borrowing tools from a farmer and buying nails and plaster in Thwil Town, for she still had half the cheese money..Down. When the city was in order again, and the ships had all come back, and the walls were being rebuilt, Ogion escaped from praise and went up into the hills above Gont Port. He found the queer little valley called Trimmer's Dell, the true name of which in the language of the Making was Yaved, as Ogion's true name was Aihal. He walked about there all one day, as if seeking something. In the evening he lay down on the ground and talked to it. "You should have told me, I could have said goodbye," he said. He wept once, and his tears fell on the dry dirt among the grass-stems and made little spots of mud, little sticky spots.. not so abruptly as the Namer, in the light and shadow under the trees. Dulse wandered about a bit before he found what he took to be the Dark Pond. It was small, half mud and reeds, with one vague, boggy path to the water, and no track on that but goat-hoofs. The water was dark, though it lay out under the bright sky and far above the peat soils. Dulse followed the goat-tracks, growling when his foot slipped in the mud and he wrenched his ankle to keep from falling. At the brink of the water he stood still. He stooped to rub his ankle.
