Smith set the device down on the bench with care. His hands were shaking. He had had the thing clamped down on the bench all the time until now. The trip to Manaos was an ordeal, but it ended in Darlene's arms. She was blonder and more beautiful than he'd remembered, more loving and tender than he'd ever known her to be, and in the union that was their reunion Nolan found fulfillment Of course there was none of the avid hunger of Nina's coiling caresses, none of the mindless thrashing to final frenzy. rapid series of clangs. A tiny white ball came through the doorway and bounced off three walls. It moved almost faster than they could follow. It hit Crawford on the arm, then fell to the floor where it gradually skittered to a stop. The hissing died away, and Crawford picked it up. It was lighter than it had been. It wasn't much in the way of a home; they were crowded against each other on rough pads made of insulating material. The toilet facilities were behind a flimsy barrier against one wall, and smelled. But none of them would have wanted to sleep outside in the dome, even if Lang had allowed it..Maybe Detweiler was a vampire..?Marc Russell."What could he want with a woman worthy of a prince?" asked Amos..Mary Lang sighed, slapped her thighs, and stood up. Like all the others, she was nude and seemed totally at home with it None of them had worn anything but a Martian pressure suit for eight years. She ran her hand lovingly over the gossamer wall, the wall that had provided her and her fellow colonists and their children protection from the cold and the thin air for so long. He was struck by her easy familiarity with what seemed to him outlandish surroundings. She looked at home. He couldn't imagine her anywhere else..Colman grunted to himself, made one final sweep of the surroundings, then dropped the flap back into place and turned to face inside. Behind Driscoll, Maddock was examining the bottom of the gorge through the image intensifier, while in the shadows next to him the expression of concentration on Corporal Swyley's face was etched sharply by the subdued glow of the forward terrain display screen propped in front of him.."We had a back-up pilot, of course. Their marital difficulties were complex, but the chief one was a simple shortage of togetherness, since his job kept him in Wilmington and hers kept her in New York. Additionally, her husband's ideal of conversation was very divergent from her own. He enjoyed talking about money, sports, and politics with other men and bottled up all his deeper feelings. She was introspective, outgoing, and warmhearted.."You have no choice." Tendrils of green and blue wormed their way into the pattern. "I'm as much a part of this body as you are.
