"Five years from now, that automated probe will leave the Sun and tour the nearby stars to search for habitable worlds... away from Earth, and away from all of Earth's troubles, problems, and perils. Eventually, if all goes well, it will arrive at same place insulated by unimaginable distance from the problems that promise to make strife an inseparable and ineradicable part of the weary story of human existence on this planet." Congreve's expression took on a distant look as he gazed at the replica, as if in his mind he were already soaring with it outward and away. "It will be a new place," he said in a faraway voice. "A new, fresh, vibrant world, unscarred by Man's struggle to elevate himself from the beasts, a place that presents what might be the only opportunity for our race to preserve an extension of itself where it would survive, and if necessary begin again, but this time with the lessons of the past to guide it."He looked at me, grinned, and shrugged..asked Lida Mullens whether she would consider giving him an endorsement. Only a handful, of course, are directly based on Mary Shelley's novel itself; of these, only one besides the great classic of 1931 is worth mentioning. That is Frankenstein: The True Story. Coscripted by Christopher Isherwood, it takes enough liberties to almost qualify as a variation, but is wonderfully literate and contains."Then we'll work it so you won't have to hide," said Amos. Defense of Criticism by Joanna Russ 51. In another hour I said I had to call it a night. I had to get up early the next morning. I always spent Sunday with my mother in Inglewood. My mother was touring Yucatan at the time, but that was neither here nor there. I looked at Johnny. He nodded. He was to make sure Detweiler stayed at least another twenty minutes and then follow him when he did leave. If he went anywhere but his apartment, he was to come and let me know, quick. Maurice was a philatelist. He specialized in postwar Germany-locals and zones, things like that. Together they started through the marsh and muck. "You know," said Amos, stopping once to look at a grey spider web that spread and forced her to disrobe. The state troopers got there in fifteen minutes, and Cora never spoke to her. On the com circuit the tech yells: "Idiot! I'm already reading ninety. Ninety, damn it. There's still one number to go." Well, Til get them, he insisted, hoping to impress the other voice with the authenticity and vitality of his self-confidence. But the other voice wasn't impressed, and so instead of going straight from Center St. to the nearest speakeasy to celebrate, he took the subway home and spent the evening watching first a fascinating documentary on calcium structures and then Celebrity Circus, with Willy Marx. Willy had four guests: a famous prostitute, a tax accountant who had just 16. She looked back without stopping. "If you like. I'd like having. Dramatization is another. I (like many reviewers) often stage a little play called The Adventures of Byline. Byline (or "1") is the same species of creature as the Kindly Editor or the Good Doctor, who appear from time to time in these pages. That is, she is a form of shorthand. When Byline rewrites story X, that doesn't mean that the real, historical personage actually did or will or wish to rewrite story X, or that I expect its real, historical author to rewrite it to Byline's prescription, any more than my saying that "my" copy of Bug Jack Ban-on tried to punch "me" in the nose means that such an event really happened. Pauline Kael's Movie Loon is another such fiction; these little creatures we send scurrying about the page are not our real, live selves, and their exploits are dictated more by the exigencies of our form than by a desire for personal glory. "I love you. Every single one of you." words than I am. I'm visually oriented. "Twin vampires?" "think I've recognized someone," she said excitedly, preening her paper feathers with her free hand. With your own eyes now you can see Bruce, only a dot of blue beyond the might have attracted some attention, but Jack's hair, for all his colorful costume, was a very ordinary. Maybe it's me, but I don't think I'm handling the stim console badly. If I were, the nameless tech. When the blowout started, Lang had snapped on her helmet quickly. By the following day the word was beginning to spread, and by the close of business on the third day every store was sold out. Most people who got them, either through the mail or by purchase, used them to spy on their neighbors and on people in hotels. I looked around to make sure I hadn't disturbed anything, turned off the bathroom light, and got in. "I know a psychiatrist who spends her weekends here in Aventine. Perhaps she can help." When he reached the apron of the second stage, he strode across it and began ascending the second series of steps. We kept right on his heels. Is there any way of unspecializing the genetic structure of somatic cells so as to allow them to. "Okay. Who called?" Amos and darted on ahead to get back to the cell. Then Amos walked out to the boat with the broken. "What is it a map of?" Amos asked. He knew you should ask as many questions as possible when. In fact, the controls on this machine are unfamiliar, the little viewers you have used all your life have only one knob, for nearer or farther? to move up/down, or left/right, you just point the viewer where you want to see. This machine has dials and little windows with numbers in them, and switches and pushbuttons, most of which you don't understand, but you know they are for special purposes and don't matter. The main control is a metal rod, right in front of you, with a gray plastic knob on the top. The knob is dull from years of handling; it feels warm and a little greasy in your hand. The console has a funny electric smell, but the big screen, taller than you are, is silent and dark. You can feel your heart beating against your breastbone. You grip the knob harder, push it forward just a little. The screen lights, and you are drifting across the next room as if on huge silent wheels, chairs and end tables turning into reddish silhouettes that shrink, twist and disappear as you pass through them, and for a moment you feel dizzy because when you notice the red numbers jumping in the console to your left, it is as if the whole house were passing massively and vertiginously through itself; then you are floating out the window with the same slow and steady motion, on across the sunlit pasture where two saddle horses stand with their heads up, sniffing the wind; then a stubbled field, dropping away; and now, below you, the co-op road shines like a silver-gray stream. You press the knob

down to get closer, and drop with a giddy swoop; now you are rushing along the road, overtaking and passing a yellow truck, turning the knob to steer. At first you blunder into the dark trees on either side, and once the earth surges up over you in a chaos of writhing red shapes, but now you are learning, and you soar down past the crossroads, up the farther hill, and now you are on the big road, flying eastward, passing all the cars, rushing toward the great world where you long to be..In the HaU oj the Martian Kings.the entire mission on a configuration the people back on Earth wouldn't certify.".The North Wind was happier than he had ever been since the wizard first made his cave..we watched cafe patrons and people in the street outside..Jane Yolen."Mallory," I said out loud, "you're cracking up.".43 would only let the cabin until May. So he untied the jailor and called the sailors and made plans for Amos' and the prince's return. The last thing the grey man did was take the beautiful costume back to his cabin where die black trunk was waiting..Now she lay on the bunk, her feet sprawled carelessly in front of her. She slowly shook her head."I can almost feel the weight of those diamonds and emeralds and gold and pearls right now," said Amos.. "We were provided for," Mary Lang said quietly. "They knew we were coming and they altered their plans to fit us in." She looked back to Singh. "It would have happened even without the blowout and the burials.
