They walked past the roaster tower, past the old shaft and the new one, on into the long valley where Otter had taken Licky the first day he was there. It was late autumn now. Women who work magic may practice periods of celibacy as well as fasting and other disciplines believed to purify and concentrate power; but most witches lead active sexual lives, having more freedom than most village women and less need to fear abuse. Many pledge "witch-troth" with another witch or an ordinary woman. "You have been a witch, Irian?". In silence Dulse sought his name, and saw two things: a fir-cone, and the rune of the Closed Mouth. Then seeking further he heard in his mind a name spoken; but he did not speak it. "You must find the true womb, the bellybag of the Earth, that holds the pure moonseed. Did you know that the Moon is the Earth's father? Yes, yes; and he lay with her, as is the father's right. He quickened her base clay with the true seed. But she will not give birth to the King. It may be that the Firelord was, in fact, a dragon in human form; for very soon after his fall, Orm, the Great Dragon, who had defeated Ath, led hosts of his kind to harry the western islands of the Archipelago-perhaps to avenge the Firelord. These fiery flights caused great terror, and hundreds of boats carried people fleeing from Paln and Semel to the Inner Islands; but the dragons were not doing as much damage as the Kargs, and Maharion judged the urgent danger lay in the east. While he himself went west to fight dragons, he sent Erreth-Akbe east to try to establish peace with the King of the Kargad Lands. Throughout Earthsea, various springs, caves, hills, stones, and woods were and always had been sites of concentrated power and sacredness. All were locally feared or venerated; some were known far and wide. No wind stirred. The air was soft, the big sail hung slack. Only the western stars faded and vanished in a silent blackness that rose slowly higher. The master looked at that. "Witchwind, you say?" he asked, reluctant. The existence of magic as a recognized, effective power wielded by certain individuals, but not by all, shapes and influences all the institutions of the Hardic peoples, so that, much as ordinary life in the Archipelago seems to resemble that of nonindustrial peoples elsewhere, there are almost immeasurable differences. One of these differences may be, or may be indicated by, the lack of any kind of institutionalised religion. Superstition is as common as it is anywhere, but there are no gods, no cults, no formal worship of any kind. Ritual occurs only in traditional offerings at the sites of the Old Powers, in the great, universally celebrated annual festivals such as Sunreturn and the Long Dance, in the speaking and singing of the traditional songs and epics at these festivals, and, perhaps, in the performance of spells of magic. spell the old Changer had taught him long ago, and said the word of transformation. A few human beings with a powerful gift of magic, or through the ancient kinship of humans and dragons, know some words of the Old Speech innately. But the very great majority of people must learn the Old Speech. Hardic practitioners of the art magic learn it from their teachers. Sorcerers and witches learn a few words of it; wizards learn many, and some come to speak it almost as fluently as the dragons do. "I've been coming doing business here some ten
