

STORIES BY HALEVY DUMAS FILS MAUPASSANT LAVEDAN AND MARGUERITTE EDITED

If the state police did get involved, and even if they found evidence that the accident was staged, they would most likely point the finger of blame at the man for whom Victoria had been preparing dinner. "You must've slipped this one in my pocket when you first came in here," Nolly deduced. Suddenly remembering the doctor's assurance to Neddy that they would be out of this building by week's end, Celestina said, "But we've nowhere to go." "No. But I'm sure as can be, the kid is better off undiscovered by the likes of him." "Loved her? Of course I loved her. Naomi was beautiful and so kind ... and funny. She was the best ... the best thing that ever happened to me." "Now you don't have to worry," Angel said, "about what happens to him if ever you're gone, Aunt Aggie. If he can do this, he can do anything, and you can rest easy." Although the ace of hearts had only positive meanings, and although, according to Maria, multiple appearances, especially in sequence, meant increasingly positive things, a series of chills nevertheless riffled through Agnes's spine, as if her vertebrae were fingers shuffling. In the living room, he removed a decorative pillow from the sofa. He carried it into the foyer. She only half understood their frantic conversation, partly because the ability to concentrate was draining from her along with her lifeblood, but also because she was distracted by Joey. He was no longer in the wreck, but standing at the open rear door of the ambulance. The report on the tower forced Junior to consider his mortality; fear, hurt, and self-pity roiled in him. His voice trembled with offense: "You do know, Mr. Magusson, what happened to my Naomi was an. Knuckle over knuckle, snared in the web of thumb and forefinger, vanishing into the purse of the palm, secretly traversing the hand, reappearing, knuckle over knuckle, the coin glimmered as it turned. Kathleen Klerkle, Mrs. Wulfstan, sitting on the edge of Nolly's desk, looked diagonally across it at the visitor in the client's chair. Actually, Nolly had two chairs for clients. Kathleen could have sat in the second; however, this seemed to be a more appropriate pose for a hawkshaw's dame. Not that she was trying to look cheap; she was thinking Myrna Loy as Nora Charles in *The Thin Man*-worldly but elegant, tough but amused. which was beginning to come into view, was as sharp as pins and needles, sheer torture to her eyes. Junior glanced over his shoulder even as Celestina turned and fled. He caught only a glimpse of her disappearing into the inner hallway. She herself had been too nervous to eat anything. She'd held the same glass of untasted champagne throughout the evening, clutching it as though it were a mooring buoy that would prevent her from being swept away in a storm. All three of these sorry excuses for human beings were money mad. Rudy owned six successful used-car dealerships and--his pride--a Ford franchise selling new and used vehicles, in five Oregon communities, but he liked to live large; he also visited Vegas four times a year, pouring money away as casually as he might empty his bladder. Sheena enjoyed Vegas, too, and was a fiend for shopping. Kaitlin liked men, pretty ones, but since she might be mistaken for her father in a dimly lighted room, her hunks came at a price. Artificial eyes were on order. He would soon return to Newport Beach for a third fitting before implant. They weren't glass, as commonly believed, but thin plastic shells that fit neatly behind the eyelids in the cavities left after surgery. On the inner surface of the transparent artificial cornea, the artificial iris would be skillfully hand-painted, and movement of the ocular prosthesis could be achieved by attaching the eye-moving muscles to the conjunctiva. The Beatles began singing the number-one song, "I Feel Fine," as Junior turned off the county highway and followed the lake road northeast around the oil-black water. They had two titles in the American top five. In disgust, he switched off the radio. On this momentous day, however, drawing provided no solace. Frequently, her hands shook, and she could not control the pencil. In bed, lights out, Junior marveled at his daredevil spirit. He never stopped surprising himself. He had been surprised to learn her age. She didn't appear to be that old. Thirty or not, Victoria was unusually attractive. And suddenly Celestina believed that Bellini was a cop, not because his voice contained such authority, but because her heart told her that the time had come, that the long-anticipated danger had at last materialized: the dark advent that Phimie had warned her about three years ago. She hung her head, covered her face with her chilled hands, and wondered how her mother could sustain faith in God when such terrible things could happen to someone as innocent as Phimie. "But nothing equals a quake for killing. Big one in Shaanxi, China, killed eight hundred thirty thousand." Celestina gave birth to Seraphim in '69, saw her painting on the cover of *American Artist* in '70, and gave birth to Harrison in '72. He found the strength to squeeze her hand tighter than before. "Be safe. Keep Angel safe." Bartholomew's genius might have been intimidating, even off-putting, if he'd not been as much child as child genius. Likewise, he would have been wearisome if impressed by his own gifts. Shaking his head, his coffee cup rattling against the saucer, Edom said, "Uh, no, sir, no, I don't think we've ever met till now." "Fear?" Kathleen asked, more interested in Vanadium's words than in his prestidigitation. "You said you're offering fear to Cain ... as if that was something he would want." Junior's heart knocked so hard and fast that he wouldn't have been surprised if Vanadium, at the far end of the room, had begun to tap his foot in time with it. Junior flung back the covers and came to his feet, but his knees proved weak, and he sat at once on the edge of the bed. "Whatever you're paying here, that's what you'll pay for the new place," Lipscomb said. "Just that she's aware of all the ways things are," Maria added. "Like you and Barty." Kaitlin had the piercing voice and talent for vituperation that marked her as a member of the Hackachak tribe, but for now she was content to leave the vocal assault to her parents. The stare with which she drilled Junior, however, if brought to bear on a promising geological formation, would core the earth and strike oil in minutes. Phimie's eyes widened, her hand tightened painfully on her sister's hand, her entire body convulsed, thrashed, and she cried, "Unnn, unnn, unnn!" Junior hadn't noticed when the detective stopped turning the coin across his knuckles. This saving spirit retreated, and in his place came a young paramedic in a black-and-yellow rain slicker over hospital whites. "Just want to be sure there's no spinal injury before we move you. Can you squeeze my hands?" He had assumed that the dinner guest was

Victoria's lover, but suddenly he realized that this might not be the case. The man might be nothing more than a friend. Her father or a brother. In which case the invitation to romance-posed by the coquettishly arranged wine and rose-would be so wildly inappropriate that the visitor would know at.He did not answer Hound's question.."I ALWAYS EAT CAV-EE-JAR FOR BREAKFAST," said Velveeta Cheese in her stuffed-bear voice.."Well, you see, that's the funny thing about all the important choices we make. If we make a really big wrong choice, if we do the really awful wrong thing, we're given another chance to continue on the right path. So the very moment I stupidly stepped off the curb without looking, I created another world where I did look both ways and saw the rhinoceros coming. And so-".Maria, puzzled but cooperative, left the room as instructed, and Barty removed the correct book from the stack on the table, without anyone's guidance. He sat in the armchair at his mother's side and began to read:..Another thought: The young gallery employee would remember that Junior had asked after Neddy and had followed him toward the men's room. He would provide a description, and because he was an art connoisseur, therefore visually oriented, he'd most likely provide a good description, and what the police artist drew wouldn't be some cubist vision in the Picasso mode or a blurry impressionistic sketch, but a portrait filled with vivid and realistic detail, like a Norman Rockwell painting, ensuring apprehension..Eventually Agnes came to suspect that for all the pleasure the boy took in math and for all his aptitude with numbers, his greatest gift and his deepest passion lay elsewhere. He was finding his way toward a destiny both more astonishing and stranger than the lives of any of the many prodigies about whom she'd read..PZ7.L52I5 Tal 2001 [Fic]-dc21 2001016554.The search for Cain was secondary. Getting to the revolver took Priority. Regain the gun and then proceed room by haunted room to hunt him down. Hunt him down, if he was here. And if Cain didn't do the hunting first..For reasons of mice and dust, doors at the Lampion house were never left ajar, let alone open this wide..As if he sensed her reluctance to return to Dr. Chan, Barty had kept her occupied with talk of the red planet as they approached the office building, had talked her off the street, along the driveway, and into a parking space, where finally she relinquished the fantasy of an endless road trip. At 5:45, long past the end of office hours, Dr. Chan's suite was quiet.."Some places, it has to be like that." some places it has to be that your eyes are okay?".Edom, eager to learn precisely when a tidal wave or falling asteroid would bring his doom, fetched a pack of cards from a cabinet in the parlor. When Maria explained that only every third card was read and that a full look at the future required four decks, Edom returned to the parlor to scare up three more..Having been so wounded by one death, Celestina could not imagine how Lipscomb could have survived the loss of his entire family. Pity knotted her heart and cinched her throat so that she spoke in little more than a whisper: "Was that the American Airlines. . .".The paramedic pumped the inflation cuff of the sphygmomanometer, and Junior's blood pressure was most likely high enough to induce a stroke, driven skyward by the thought that Naomi's love had been a lie.."Besides, I still live by my vows as much as possible, though I've had the longest continuing dispensation on record." A smile on that cracked countenance could be touching, but an ironic look now worked less well; it gave Kathleen a chill. "Vanity is a sin I've more easily been able to avoid than some others.".Vanadium sat in the chair, watching. With the perfect control of a sleight-of-hand artist, he turned a quarter end-over-end across the knuckles of his right hand, palmed it with his thumb, caused it to reappear at his little finger, and rolled it across his knuckles again, ceaselessly..He stopped for lunch at a restaurant with a spectacular view of the Pacific, framed by massive pines..Regrettably, at 2:00 A.M., February 28, waking alone in Tammy's bed, Junior sought her out and found her snacking in the kitchen. Forsaking a fork in favor of her fingers, she was eating a.Using the brochure as an ice-breaker, Junior circulated through the throng, seeking anyone who'd attended the.They wore out a lot of cards and kept a generous supply of all types of decks on hand.."That's just ... an old joke," she heard herself saying, as from a distance. "You didn't really walk between the drops?".To have the best chance of becoming a master mechanic, any young apprentice needs a mentor. The art of total card control cannot be learned entirely from books and experimentation..His entire body throbbed from his neck to the tips of his nine toes. His legs were the worst, filled with hot twisting agony.."Too few," said Maria, "might mean you made an admirably small number of moral mistakes but also that you failed to take reasonable risks and didn't make full use of the gift of life.".Their struggle to put their sorrow into words moved Agnes not because they cared so deeply, but because in the end they were unable to express themselves adequately. Without the relief provided by expression, their anguish grew corrosive. Their lifelong introversion left them without the social skills to unburden themselves or to provide solace to others. Worse, their obsessions with death, in all its many means and mechanisms, had prepared them to expect Barty's cancer, which left them neither shocked nor capable of consolation, but merely resigned. Ultimately, in great frustration, each twin was reduced to fragmented sentences, crippled gestures, quiet tears-and Agnes became the only consoler..The guesswork of a wizard is close to knowledge, though he may not know what it is he knows. The first sign of Otter's gift, when he was two or three years old, was his ability to go straight to anything lost, a dropped nail, a mislaid tool, as soon as he understood the word for it. And as a boy one of his dearest pleasures had been to go alone out into the countryside and wander along the lanes or over the hills, feeling through the soles of his bare feet and throughout his body the veins of water underground, the lodes and knots of ore, the lay and interfolding of the kinds of rock and earth. It was as if he walked in a great building, seeing its passages and rooms, the descents to airy caverns, the glimmer of branched silver in the walls; and as he went on, it was as if his body became the body of earth, and he knew its arteries and organs and muscles as his own. This power had been a delight to him as a boy. He had never sought any use for it. It had been his secret..When he woke, he was in a hospital bed, his upper body slightly elevated. The only illumination was provided by a single window: an ashen light too dreary to be called a glow, trimmed into drab ribbons by the.Reflecting upon her son's clever, diligent, and uncomplaining adaptation to darkness, she wished that she had described to him the dazzling sunset under which they had made their journey home. Although her

words might have been inadequate to the spectacle, he would have elaborated on them to create a picture in his mind; with his creative skills, the world that he'd lost with his sight might be remade in equal splendor in his imagination..As Wally followed them inside, Celestina grinned at him. "From the car to the living room, all as neat as a well-practiced ballet. We've got a big headstart on this married thing." .pride, his one great shining moment but also his sinful pride. Clubbed with the trophy first, fists later. And now, here.,Hesitantly, the ivory tickler shook hands. "I'm ... uh ... I'm Ned Gnathic. Everyone calls me Neddy." Junior picked up his pace, pushing through the crowd, repeatedly glancing back, and although he caught only quick squints of the dead cop's face, he could tell that something was terribly wrong with it. Never a candidate for matinee-idol status, Vanadium looked markedly worse than before. The port-wine birthmark still pooled around his right eye. His features were not merely pan-flat and plain, as they had been before, but were ... distorted..unwittingly oversell any strong reaction, striking a false note and raising suspicions..By November 1967, the Father Brown detective stories, written for mystery-loving adults by G. K. Chesterton, thrilled Barty. This series of books would retain a special place in his heart for the rest of his life-as would Robert Heinlein's The Star Beast, which was among his Christmas gifts that year..If Junior were weak-minded enough to succumb to madness, this was the moment when he should have fallen into an abyss of insanity. He heard an internal cracking, felt a terrible splintering in his mind, but he held himself together with sheer willpower, remembering to breathe slowly and deeply..Junior approached the headstone from behind, circled it, and shone the flashlight on the chiseled facts.:Zedd endorses self-pity, but only if you learn to use it as a springboard to anger, because anger-like hatred--can be a healthy emotion when properly channeled. Anger can motivate you to heights of achievement you otherwise would never know, even just the simple furious determination to prove wrong the bastards who mocked you, to rub their faces in the fact of your success. Anger and hatred have driven all great political leaders, from Hider to Stalin to Mao, who wrote their names indelibly across the face of history, and who were--each, in his own way--eaten with self-pity when young..After clicking off the kitchen lights, the hall light, and the light in the foyer, he pulled shut the front door, leaving the house dark and silent behind him..In Room 724, standing alone at her sister's bedside, watching the girl sleep, Celestina told herself that she was coping well. She could handle this unnerving development without calling in either of her parents..He prepared his knives and guns. Blades and bullets. Fortune favors the bold, the self-improved, the self-evolved, the focused..Murder itself was easy, but the aftermath was more draining than he had anticipated. Although the ultimate liability settlement with the state was certain to leave him financially secure for life, the stress was so great that he wondered, in his darker moments, if the reward would prove to be worth the risk.. "Well, the blood wasn't dark and acidic, so it didn't come from his stomach. It was bright and alkaline. It could have arisen in the esophagus, but most likely it's pharyngeal in origin." In answer, Wally came running with his heavy medical bag, as he was vow doctor to some people on the pie route. "The weather's a lot better than I expected, so I went back to change into lighter clothes." "Could you throw an Oreo someplace you weren't blind or maybe someplace Wally wasn't shot?" He snatched up the wine list before she could look at it. "If you're paying, then I'm ordering whatever costs the most, regardless of what it tastes like." Once in a while, however, he reverted to his roots, to the food that gave him comfort. Thus, the cheeseburger and its decadent accoutrements..Neighbors might not be home. And by the time he knocked, asked to use the phone, dialed ... Too great a waste of time..Then Junior saw the blood on the right cuff of Vanadium's shirt. Blood dripping from his hand, too..If there had been footsteps, they had fallen silent the moment Junior froze to listen for them. Even over the hard drumming of his heart, he would have heard any noise. The pillowy fog seemed to smother sound in the alleyway more effectively than ever..Freed for the moment from the need to be strong for her sleeping Angel or for Wally, Celestina turned to Tom Vanadium, saw in his gray eyes both the sorrow of the world and a hope to match her own, saw in his ruined face the promise of triumph over evil, leaned against him for support, and finally dared to cry.. "We've been planning this a long time," Angel assured her. "I've climbed the tree a hundred times, maybe two hundred, mapping it, describing it to Barty, inch by inch, the trunk and its four divisions, all the major and minor limbs, the thickness of each, the degree of resilience, the angles and intersections, knots and fissures, all the branches down to the twigs. He's got it cold, Aunt Aggie, he's got it knocked. It's all math to him now." Wednesday morning, January 10, he wired one and a half million dollars from the Gammoner account to Pinchbeck in Switzerland. Then he closed out the account in the Grand Cayman bank..When she was finished with the dishtowel, she returned to the dining room, and though dinner was underway, she called for another toast. Raising her glass, she said, "To Maria, who is more than my friend. My sister. I can't let you talk about what I've given you without telling your girls that you've given back more. You taught me that the world is as simple as sewing, that what seem to be the most terrible problems can be stitched up, repaired." She raised her glass slightly higher. "First chicken to be come with first egg inside already. God bless." The sirens shrieked so loud that he felt a sympathetic vibration in his dental fillings, and with a sharp cry of brakes, a great red truck turned the corner, at once followed by a second..Celestina didn't hear gunfire, but she couldn't mistake the bullets for anything else when they cracked through the door..Now her mooring was Wally Lipscomb-obstetrician, pediatrician, landlord, and best friend--who arrived halfway through the reception. As she listened to Helen Greenbaum's sales report, Celestina held Wally's hand so tightly that had it been a plastic champagne flute, it would have cracked.."He'll just think I'm an incompetent detective. If he comes around wanting his five hundred bucks back, I'll give it to him." In all the many ways things are, across the infinity of worlds and all Creation, Barty believed that no woman existed whose beauty exceeded hers or whose heart was better..Either Obadiah intuited Agnes's fear or he was motivated by her kindness to reveal his method, after all. "I'm embarrassed to say what you saw wasn't real magician's work. Crude deception. I chose the ace of diamonds exactly because it represents wealth in fortune-telling, so it's a positive card that people respond well to. The ace with your boy's name was

prepared beforehand, inserted face up toward the bottom of the deck, so a middle cut wouldn't reveal it." "I was twenty-three. At St. Anselmo's I was the prefect of one dormitory floor. The floor on which all the murders occurred. After that ... I decided maybe I could better protect the innocent if I were a cop. For a while, the law gave me more to hold on to than faith did." Of course, Seraphim's child would not have a telephone. He was just a baby, dangerous to Junior in a way that was not clear, but a baby nonetheless. More likely than not, Victoria spoke directly to the maniac detective. Even if she reported her sordid fabrications to another officer, it would have gotten back to Vanadium, and the cop would have sought her out at once to hear her filth firsthand, whereupon she would have enhanced her story until it sounded as though Junior had grabbed her knockers and had tried to shove his tongue down her throat. She searched the child's unfocused eyes for some sign of the hateful father's wickedness. Sweet-tempered, generous, honest, kind Naomi had surely been incapable of murdering anyone--least of all the man she loved. Convinced that the house was playing tricks on him, Barty went downstairs, step by measured step, to the foyer and the ground-floor hall. In his blindness, Barty listened to her reports and, through her, saw more than he could have seen if never he had lost his eyes. Widening his eyes in calculated surprise, Junior said, "Are you a police officer?" Clearly, the musician recognized him, which seemed unlikely, even extraordinary, considering that they'd never spoken to each other, and considering that Junior must be only one of thousands of customers who had passed through that lounge in the past three years. Tammy--the stock analyst, broker, and cat-food-eating feline fetishist--whom he had dated from Christmas of '65 through February of '66, had given him the timepiece in return for all the trading commissions and perfect sex that he had given her. And as he grew, the boy seemed content with his own company and that of his mother and his uncles. Yet Agnes worried that no children his age lived in their neighborhood. She thought he would be happier if he had a playmate or two. The house was empty, silent. Hanna worked only days. Nellie Oatis, Perri's companion, was not employed here anymore. "He's blind, sure, but he's also a boy," Angel said, "and trees are something that boys gotta do."
