(There Ged found it, and rejoining the two halves.He sat up. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again..When he came home he had a three-year-old daughter with him. He turned her over to the housekeeper and forgot about her. When he was drunk sometimes he remembered her. If he could find her, he made her stand by his chair or sit on his knees and listen to all the wrongs that had been done to him and to the house of Iria. He cursed and cried and drank and made her drink, too, pledging to honour her inheritance and be true to Iria. She drank the wine, but she hated the curses and pledges and tears and the slobbered caresses that followed them. She escaped, if she could, and went down to the dogs and the horses and the cattle, and swore to them that she would be loyal to her mother, whom nobody knew or honoured or was true to, except herself..did not know he wanted. His gift was far beyond Dulse's guidance, yet he had been right to come to.league of mages. Proud and secure in their powers, they had sought to teach others to band."If I do, it will be thanks to you," she said. In that moment he loved her for her true heart, and would have forsworn any thought of her but as his companion in a bold adventure, a gallant joke..I did not understand..of a spell, speaking in the tongue that all the wizards and mages of Roke had learned, the.Often her mind here seemed empty of thought, full of the forest itself, but this day memories came to her, vivid. She thought about Ivory, thinking she would never see him again, wondering if he had found a ship to take him back to Havnor. He had told her he'd never go back to Westpool; the only place for him was the Great Port, the King's City, and for all he cared the island of Way could sink in the sea as deep as Solea. But she thought with love of the roads and fields of Way. She thought of Old Iria village, the marshy spring under Iria Hill, the old house on it. She thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune the vine "right down to the life in it"; and Rose, her Etaudis, whispering charms to ease the pain in a child's broken arm. I have known wise people, she thought. Her mind flinched away from remembering her father, but the motion of the leaves and shadows drew it on. She saw him drunk, shouting. She felt his prying, tremulous hands on her. She saw him weeping, sick, shamed, and grief rose up through her body and dissolved, like an ache that melts away in a long stretch. He was less to her than the mother she had not known..orders! And some of em did what he said, and some of em didn't. So I got on out of there, that."I know. I said everything wrong. I did everything wrong. I betrayed everything. The magic. And the music. And you.."interrupt their tete-a-tete. I must have committed some impropriety. He looked me up and down,."Back that way," said the taverner.."Nais. How old are you?""What is it - what is it like - on Roke?".The clouds darkened. Rain passed through the little valley, falling on the dirt and the grass..Staggering wildly the wizard tried to turn, lost his footing on the crumbling edge, and plunged.off for the Ninety Isles as soon as Tern liked..refused, and I quickly left the artificial cave, gritting my teeth, as if I had somehow been insulted..and incredulous at his obstinacy-"Master, I would stay, but my work is on Gont-I wish it was here,."Off you go, then," she said, "and leave us to settle this matter of the Rule." Her frown was as fierce as ever, but her voice was seldom as harsh as this when she spoke to him..no harm in this fellow, no malice. No ambition. "No spine," said Hemlock to the silence of the."Of course. It was my responsibility as your teacher."."That's something else."..But her boat-cradle of willow wood, floating free, bore their child Serriadh to safety, wearing.Otter's humble teachers had taught him pride. They told me nothing..by Halkel (finding, mending, dowsing, animal healing, etc.) and some high arts (human healing..hands; they put this into their pockets and walked on. For some reason I did exactly as the man in..She had thought maybe his talk of coming here to cure the cattle sickness was one of the mad bits. He did not act like the curers who came by with remedies and spells and salves for the animals. But after he had rested a couple of days, he asked her who the cattlemen of the village were, and went off, still walking sore-footed, in Bren's old shoes. It made her heart turn in her, seeing that..He said nothing. In fact he was at a loss. If he had known it would be this easy, he could have had her name and with it the power to make her do whatever he wanted, days ago, weeks ago, with a mere pretence at this crazy scheme - without giving up his salary and his precarious respectability, without this sea voyage, without having to go all the way to Roke for it! For he saw the whole plan now was folly. There was no way he could disguise her that would fool the Doorkeeper for a moment. All his notions of humiliating the Masters as they had humiliated him were moonshine. Obsessed with tricking the girl, he had fallen into the trap he laid for her. Bitterly he recognized that he was always believing his own lies, caught in nets he had elaborately woven. Having made a fool of himself on Roke, he had come back to do it all over again. A great, desolate anger swelled up in him. There was no good, no good in anything.."You're in such a hurry. You still know nothing.."welcome. "Tell us how you came here.."they were dragons."."I learned it really quickly," Diamond said..something heavy in a cloth..woman with a dog; I had never seen such a dog, it was huge, its head like a ball, very ugly; in its."It'll stop by midday," the wizard told the chickens. He fed them and squelched back to the house with three warm eggs. When he was a child he had liked to walk in mud. He remembered enjoying the cool of it rising between his toes. He still like to go barefoot, but no longer enjoyed mud; it was sticky stuff, and he disliked stooping

to clean his feet before going into the house. When he'd had a dirt floor it hadn't mattered, but now he had a wooden floor, like a lord or a merchant or an archmage. To keep the cold and damp out of his bones. Not his own notion. Silence had come up from Gont Port, last spring, to lay a floor in the old house. They had had one of their arguments about it. He should have known better, after all this time, than to argue with Silence. The wizard's eyes narrowed and his smile broadened. They came forward on their knees, face to face, their arms straight down and their hands joined. They kissed each other all over their faces. To Rose's lips Diamond's face was smooth and full as a plum, with just a hint of prickliness above the lip and jawline, where he had taken to shaving recently. To Diamond's lips Rose's face was soft as silk, with just a hint of grittiness on one cheek, which she had rubbed with a dirty hand. They moved a little closer so that their breasts and bellies touched, though their hands stayed down by their sides. They went on kissing. eyes catching and holding hers. "But there. In the wood. He had seen a father and son work together from daybreak to sundown, the old man guiding a blind ox, the middle-aged man driving the iron-bladed plough, never a word spoken; as they started home the old man laid his hand a moment on the son's shoulder. When he showed signs of reviving during the journey, one of them bashed him on the head, remarking. He stood there for a while, bewildered. It seemed to him that it was not by his own act or decision that he had taken his own form, but that in touching this ground, this hill, he had become himself. A magic greater than his own prevailed here. I went down to the very edge of the platform, until once more that invisible, springy force made. "He tricked and killed a great mage, my master. He's dangerous. I want vengeance. Who did he talk to here? I want them. Then I'll see to him." "Power." "Oh, are you a teller? Oh, why didn't you say so to begin with! Is that what you are then? I wondered, it being winter and all, and you being on the roads. But with that horse, I thought you must be a merchant. Can you tell me a story? It would be the joy of my life, and the longer the better! But drink your soup first, and let me sit down to hear..." "What's that all about?" Golden said to his wife, a rhetorical question.
