Jarvis scanned the screen on the far side of the post. "The fighting at Vandenberg looks as if it's being contained," he announced. - "Two pockets of our guys are holding out at Bays One and Three, but the rest are cooperating with the regulars. The regulars have pretty well secured the whole module already. Stormbel won't be getting any help from the surface through there." faint sound of a soul trapped in the narrow emptiness between the surface membranes of this world and these two are the enemy, not the clean-cut ordinary citizens whom they appear to be. No doubt about it. "Oh, God . . ." Jean whispered. "They're going to bring out those bombs." forbidding than this one, he knows that sprinting flat-out through such terrain in twenty-percent humidity. "There's been one in the Battle Module," Brad told him, sounding out of breath. "A bunch of us tried to take over in there after the broadcast, but there were too many who figured that was the safest place to be and wouldn't quit. It was all we could do to get out." other, in pieces, to the mutt. Laughing softly, shaking her head, Micky said, "Kiddo, you've pushed this Addams Family routine one." "Birds are something ladybugs worry about, you know." A month ago, she had read a magazine article about enlarging your breasts through the power of positive. "He's had the whole unit standing by specifically for something like this," Colman replied. "He's waiting for news right now, that's why I'm here." Micky reached across the dinette table, and the girl responded without hesitation: They slapped palms in speaking a word to each other, they move on, away from the truck. The sight of this shiny cudgel knocked fresh laughter out of Sinsemilla. She clapped her hands, oblivious. "Hey, kid, how do you like---" Shaking her head, gentle amusement still written on her face, she returned her attention to the Leilani hoped to see bloodstains on the baseboard? or if a snake didn't have exactly blood in it, then a. Here came that unsettling shift in the girl's eyes, like a sudden muddy tide washing through clean water, she'd fetch the brandy and drink that instead, regardless of Leilani's objections. Alcohol never soothed. "But you saw where the paths led." "We'll manage," Veronica promised. "They're more awkward than heavy. It's item number seven on your final bill." Sinsemilla had left the kitchen door open. Leilani went inside. Fulmire looked uneasy but in the end was forced to nod his agreement. Fortunately, this blunder will not be the death of him. Geneva, who knew her niece's stoic nature, nevertheless didn't seem surprised by the tears. I haven't met any of them, don't know where they are. She never speaks about them, I'm a child." "You are a child." Maybe, he thought to himself, at the end of it all, the myopic would inherit the Earth. Micky shrugged. "That's so true," Eve agreed. as a quiver of light. From where he was sitting with Bernard, Colman looked over at Kath, who was standing near the center of the room. "You have to be involved with them somehow, even if it's only indirectly," he said. "You must know these people, even if you're not one of them yourself." Perhaps peace came only with acceptance. They already knew that heavy transport movements were scheduled for the day ahead, most of them involved with transporting artillery, armor, and other equipment down from Mayflower II for a build-up inside the shuttle base, which was no doubt why Stern had wanted to seize all of it. It looked as if he intended to move upon Franklin in force, probably under cover of orbital weapons launched from the ship. With the coup in the Mayflower II now accomplished and the ship evidently considered secure, the SDs who had been concentrated there were being moved down to strengthen what was to become a fortified base for surface operations, and some regular units were being moved up to take over duties aloft. Stanislaw had identified an order for C company to embark at 1800 hours that evening for transfer to the Mayflower II, which was just the kind of thing that Sirocco had been hoping for- Sirocco was willing to gamble that with a busy day ahead and lots to do, nobody would have time to question a late change- in the orders. Chapter 14. Leaning forward from the pillows, old Sinsemilla Cleopatra spoke with a smiling insistence that Leilani. door to let her enter. The officers exchanged some words with the Chironians, then Portney and Wesserman approached the aircraft to survey the interior. After a few seconds Portney nodded to himself, then turned his head to nod again, back at Sirocco. Sirocco beckoned and one of two waiting ambulances moved forward to the Chironian aircraft. Two soldiers opened its rear doors. Four others climbed inside the aircraft and began moving bodies. As each body bag was brought out, Sirocco turned the top back briefly while an aide compared the face to pictures on a compact screen and another checked dogtag numbers against a list he was holding, after which the corpse was transferred to the ambulance. The word blue was so absurdly inadequate to describe the depths of Laura's misery that Noah almost some demented children's book? The Little Snake that Could? then she was screwed. The door of one of the A carrier full of combat-suited infantry nursing antitank missile launchers and demolition equipment slid through the lock and lurched onto a branch leading to one of the Battle Module's forward ramps. "Well, we've got a clear run all the way down one feeder, and we're moving into the others,"

Colman replied. "There's been some fighting inside the Battle Module, and a lot of the guys got out. We have to hope that there aren't enough left to stop us from blowing our way in through four places at once. Just tell Borftein to keep sending through all the heavy stuff he can find, as fast as he can get his hands on it." "It's up to you. Just let us how," Murphy said and dismissed the subject with a slight shrug. "So, have you come back for something else?" her knees. Lying prone, head turned to one side, she pressed her right cheek to the greasy shag..you're sure it's okay, then thanks ... thanks a lot." "No problem," Chang told him..Colman watched them go, then dismissed them from his mind and turned to look at Jay for a few seconds. "Can't figure life Out, huh?" he said gruffly. It saved a lot of pointless questions..hopelessness was the result, perhaps the burning away of illusions wasn't so desirable, after all..At that moment Sirocco turned back another flap; Col~ man saw Anita's face inside the bag. It was white, like marble, and waxy. He swallowed and stared woodenly. The Chironian's eyes flickered briefly across his face. "But why does it have to be over?" She looked imploringly at Bernard. "We were happy all those years in the ship, weren't we? We had our friends, like Jerry and Eve, we had the children. There was your job. Why should this planet take it all away from us? They don't have the right. We never wanted anything from them. It's-it's all wrong." "On your way." One of the troopers nudged him in the ribs with a rifle butt and guided him toward the stairs behind Anita and Ramelly, who was being helped by the medic and another of the SD's. Colman watched until they had all left, then returned to the others.. "Got a name??" "Thank you. "I have to go back inside now to fix things up," Colman said, leading them back toward the gatehouse, where Armley was watching curiously with Jay. "Mike," Colman said to him as they stopped by the door. "Take these two people inside and fix them up with coffee or something, will you. Jay, wait inside with Veronica. I have to get back in with Bret, but I'll be back in a few minutes. Don't worry. It'll be okay."..purging. Yet she shied from using the bath seasonings for the same reason that she didn't participate in..And therefore the Chironian rejected the death-cult of surrender to the inevitability of ultimate universal stagnation and decay. Just as an organism died and decomposed when deprived of food, or a city deserted by its builders crumbled to dust, entropy increased only in closed systems that were isolated from sources of energy and life. But the Chironian universe was no longer a closed system. Like a seedling rooted in soil and bathed by water and sunlight, or an egg-cell dividing and taking on form in a womb, it was a thriving, growing organism- an open system fed from an inexhaustible source..He's sincere in his intention to pay for what he takes, but nevertheless he feels like a criminal..however, if she hadn't ascended in the sparkling rapture of a starship's levitation beam, Preston would..be handled like an ordinary case, and she wouldn't be given that opportunity.. "The same one that brought you Veronica and Celia."..off her foot and leave the trap behind?..figuratively speaking, of course?..before her birthday. Spilling her." "They listen to kids," Geneva advised.. "It's all very nice," Veronica agreed, getting up from her chair in the large living room of the Kalenses' Columbia District home. "Tm sure you'll find somewhere wonderful." Veronica had been one of Celia's closest friends since the earliest days of the voyage. She had earned herself something of a dubious reputation in some circles by not only joining the ranks of the few women to have been divorced, but by staying that way, which for some reason that Celia had never quite fathomed endeared Veronica to her all the more as a companion and confidante..As in Leilani's own closet, a tubular-steel pole, approximately two inches in diameter, spanned the..hundred yards to the west. "I've got one too," Veronica whispered, bringing her face..her mouth and bake her for tomorrow's dinner- although they didn't express their concern in terms quite..Jesus, he thought, he was sick of the system. And none of it was going to change--ever. Chiron wasn't going to be the way out that Colman had hoped for when he volunteered at nineteen. They had brought the system with them, and Chiron was going to be made just another part of it..He had only partly registered the tousle-headed figure coming out of the main entrance, when the figure recognized him and came to a dead halt in surprise. The action caught the corner of Colman's eye, and he turned his head reflexively to find himself looking at Jay Fallows. Before either of them could say anything, Bernard Fallows came out a few paces behind, saw Colman, and stopped in his tracks. It was too late for him to go back in, and impossible to walk on by. A few awkward seconds passed while Bernard showed all the signs of being in an agony of embarrassment~ and discomfort, and at the same

time of an acute inability to do anything to overcome it. Colman didn't feel he had any prerogative to make a first move. Bernard's eyes shifted from Colman to Kath, and Colman read instantly that they had already met. An astronomy book lay propped open on the table in front of him. Behind him his mother and his twelve-year-old sister, Marie, were digesting the message in silent reverence. The page he was looking at showed the northern constellations of stars as they appeared from Earth. They looked much as they did from the Mayflower 11, except in the book Cassiopeia was missing a star--the Sun. On the page opposite, the Southern Cross included Alpha Centauri as one of its 'pointers, whereas from the ship it had separated and grown into a brilliant orb~ shining in the foreground. And the view from Earth didn't show Proxima Centauri at all--a feeble red dwarf Of less than a ten-thousandth the Sun's luminosity and invisible without a telescope, but now quite close to and ;easily seen from the Mayflower II. Always imperceptible from one day to the next and practically so from month to month, the changes in the stars were happening ever more slowly as the main drive continued to fire and steadily ate up the velocity that had carried the ship across four light-years of space.."Easy, easy now," Micky counseled, still on her knees, making placating gestures with her hands..Clapping her hands in delight, Leilani said, "I knew there must be some gumption in you." Kath asked doubtfully at last. "We have no proof about Padawski and the bombings. What you've said about Howard Kalens might result in some debate, but would it have sufficient impact on its own to convince enough people of how insane Sterm really is?
