When he stroked the sleek black flow.the dark night brings forth the moon!" "Tell me your name," she said, and he said, "Teriel,".Knowledge of these places and powers was the heart of religion in the Kargad Realm. In the Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought and reverence. On all the islands, the arts mostly practiced by witches, such as midwifery, healing, animal husbandry, dousing, mining and metallurgy, planting and growing spells, love spells, and so on, often invoked or drew upon the Old Powers. But the learned wizards of Roke had generally come to distrust the ancient practices and made no appeal to the "Powers of the Mother." Only in Paln did wizards combine the two practices, in the arcane, esoteric, and reputedly dangerous Pelnish Lore..The wizard's spells still bound their minds together. "Probably not," the wizard said, and then, appearing to notice Diamond, put down his pen and said, "Young man, I must ask you if you wish to continue studying with me." Taken back to Omer, one of the boys broke down and blubbered about joining the Hand. Hearing that. Look, Medra. Look!. He left her at the corner of the street, a narrow, dull, somehow sly-looking street that slanted up between featureless walls to a wooden door in a higher wall. He had put his spell on her, and she looked like a man, though she did not feel like one. She and Ivory took each other in their arms, because after all they had been friends, companions, and he had done all this for her. "Courage!" he said, and let her go. "So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep you safe. To keep you with the mule-breeders, and the nut-pickers, and these." "A spell of silence," she said.. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (41 of 111) [2/5/2004 12:33:31 AM]. As they coasted that island, he himself put an illusion about Hopeful, so that she would seem not a boat but a drifting log; for pirates and Losen's slave takers were thick in these waters.. cool of it rising between his toes. He still like to go barefoot, but no longer enjoyed mud; it. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end.
