

## GELSOMINA THE MOON YARN

him, but she watched him in wonder..felt the bonds close and tighten, and the old shadow fall..After a little silence Otter said, "Thanks." And he looked up at Hound, one brief, questioning..He let that sink in for a while, and then continued softly, "And to work the spell of semblance on..see the fire shine in that! Or do I have to get me a carpet now? A fleecefell, on a golden warp?".stay on after we land.".the same root comes the noun esege, "creative force, breath, poetry.".Her apparition stood again just outside the spiderweb cords of the spell, gazing at him, and seeing him, for a soft, bluish, sourceless light filled the room. Her sore, raw lips quivered but she did not speak..The villagers shook their heads. Gift was a brave woman, but there was such a thing as being too..Rose made a dim glow of werelight so that they could find their way through the marshy ground..him, but in the direction Otter chose to go..platform and I was on the "rast" -- there was not even anyone to ask, for the area around me was.."You didn't say it"..powerless..dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards..whole "independence" escapade involved flying from one terminal to another, where someone..He stood there for a while, bewildered. It seemed to him that it was not by his own act or decision that he had taken his own form, but that in touching this ground, this hill, he had become himself. A magic greater than his own prevailed here..reflections. "Come on, where are you?" I heard her whisper. I saw only the pale smudge of her.."There was no place for him among the Masters, since a new Master Summoner had been chosen, a strong man in his prime, not likely to retire or die. Among the scholars and other teachers he had a place of honor, but he wasn't one of the Nine. He'd been passed over. Maybe it wasn't a good thing for him to stay there, always among wizards and mages, among boys learning wizardry, all of them craving power and more power, striving to be strongest. At any rate, as the years went on he became more and more aloof, pursuing his studies in his tower cell apart from others, teaching few students, speaking little. The Summoner would send gifted students to him, but many of the boys there scarcely knew of him. In this isolation he began to practice certain arts that are not well to practice and lead to no good thing..".There's not much worth much in my life," she said, gazing down at the pavement. "All I know how to do is run the farm, and try to stand up and speak truth. But if I thought it was all tricks and lies even on Roke, I'd hate those men for fooling me, fooling us all. It can't be lies. Not all of it. The Archmage did go into the labyrinth among the Hoary Men and come back with the Ring of Peace. He did go into death with the young king, and defeat the spider mage, and come back. We know that on the word of the king himself. Even here, the harpers came to sing that song, and a teller came to tell it..".him with her snout..".And cast wide!" He looked from one to the other again. "I wasn't well taught, in the City of Havnor," he said. "My teachers told me not to use magic to bad ends, but they lived in fear and had no strength against the strong. They gave me all they had to give, but it was little. It was by mere luck I didn't go wrong. And by Anieb's gift of strength to me. But for her I'd be Gelluk's servant now. Yet she herself was untaught, and so enslaved. If wizardry is ill taught by the best, and used for evil ends by the mighty, how will our strength here ever grow? What will the young dragon feed on?".Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them..Never old. I can't teach you. I can take you into the Grove." After a minute he stood up. "Yes?".Irian drew a deep breath and looked at him eye to eye as they sat there. ""Only in dark the light,"" she said..across half the world. Turning west he saw fields and pastures and roads. To the north were long.."Yes," Irioth said. "I understand. You are a kind woman." She was talking about him, about his not..hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and..".Where old Early went with the great fleet. I see. Friends there. Well, I know one of the ships is back, because I saw one of her men, down the way, in the tavern. I'll go ask about. Find out if they got to Roke and what happened there. What I can tell you is that it seems old Early is late coming home. Hmn, hmn," he went, pleased with his joke. "Late coming home," he repeated, and got up. He looked at Otter, who was not much to look at. "Rest easy," he said, and went off..".What brit? Ah, the milk? What of it?".endless supply of slaves for his needs and experiments. It was easy to keep up the protections he..go in..".The Namer nodded..He said nothing. In fact he was at a loss. If he had known it would be this easy, he could have..been his secret..done? And when you know there's ore underfoot, you stamp on the place..pointed me out to others. I went in. A man in a black undershirt that was actually somewhat..I went around the lake. The colossus seemed to lead me with its motionless, luminous.."So, to be blunt about it, if you have this gift, Diamond, it's of no use, directly, to our business. It has to be cultivated on its own terms, and kept under control -- learned and mastered. Only then, he said, can your teachers begin to tell you what to do with it, what good it will do you. Or others," he added conscientiously..".You

could go to Roke," he said, his eyes bright with excitement, mischief, daring. Meeting her. He knew he was no match for Early. To stop that first binding spell he had used all the strength of resistance he had. The illusion and the shape-change were all the tricks he had to play. If he faced the wizard again he would be destroyed. And Roke with him. Roke and its children, and Elehal his love, and Veil, Crow, Dory, all of them, the fountain in the white courtyard, the tree by the fountain. Only the Grove would stand. Only the green hill, silent, immovable. He heard Elehal say to him, Havnor lies between us. He heard her say, All the true powers, all the old powers, at root are one..more. Her eyes were closed, but suddenly the whites shone from underneath her lashes; I bent. Medra had been thinking, once again, and still unavailingly, how he could leave Havnor at once and unnoticed, when the wizard came..wish as well as his?".through long-disused levels, yet the wizard seemed to know every step, or perhaps he did not know..which all of them did..she went about the house. He held the wizard's letter and reread the message and the two runes."Do you?" asked the man in the red tunic, smiling a little..his face. "And if you're not, you'd better dowse all the same. That way you'll stay above ground. There was the silence. Then a fish leapt from the black, shaking water, a white-grey fish the length of his hand, and as it leapt it cried out in a small, clear voice, in that same language, "Yaved!".have anyone. Once, when they had gone a long way and the trees, dark evergreens she did not know, stood very high about them, she heard a call - a horn blowing, a cry? - remote, on the very edge of hearing. She stood still, listening towards the west. The mage walked on, turning only when he realized she had stopped."In the Inmost Sea, on the Isle of the Wise, on Roke Island, where all magery is taught, there are nine Masters," he began..All the rumors of Roke had said that it was spell-defended and charm-hidden, invisible to ordinary eyes. If there were any spells woven about that hill or the bay he now saw opening before it, they were gossamer to him, transparent. Nothing blurred his eyes or challenged his will as he flew over the bay, over the little town and a half-finished building on the slope above it, to the top of the high green hill. There, striking down dragons claws and beating rust-red wings, he lighted..the word to say to him."He told her, as well as he could. "We were strangers. Yet she gave me her name," he said. "And I gave her mine." He spoke haltingly, with long pauses. "It was I that walked with the wizard, compelled by him, but she was with me, and she was free. And so together we could turn his power against him, so that he destroyed himself." He thought for a long time, and said, "She gave me her power." "I can build boats, or mend them, and sail them.
