The other three called him Master of Old Iria. He spent his youth and what remained of his inheritance in law courts and the anterooms of the Lords of Way in Shelieth, trying to prove his right to the whole domain as it had been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the hard red wine from his last vineyard and walking his boundaries with a troop of ill-treated, underfed dogs to keep interlopers off his land.."I don't see why," she said. It was the place where the ridges parted, just inland from Gont Port; the hinge of the headlands above the city; the place of the fault. An earthquake centered there could shake the city down, bring avalanche and tidal wave, close the cliffs of the bay together like hands clapping. Dulse shivered, shuddered all over like the water of the pool..Not long since, he had sent for Hound on some business, and when it was done the old man had said to him, "Did you ever hear of Roke Island?".caught in that for a day and a night. He swore to keep her with him, to think of her, to think of her that night, but she faded away. Very few people ever spoke to Gelluk unless he compelled them to. The spells by which he silenced, weakened, and controlled all who approached him were so habitual to him that he gave them no thought. He was used to being listened to, not to listening. Serene in his strength and obsessed with his ideas, he had no thought beyond them. He was not aware of Otter at all except as a part of his plans, an extension of himself. She was wise, and kind. Why had he lived so long among those who were not kind?. THE ISLAND OF SEMEL lies north and west across the Pelnish Sea from Havnor, south and west of the Enlades. Though it is one of the great isles of the Earthsea Archipelago, there aren't many stories from Semel. Enlad has its glorious history, and Havnor its wealth, and Paln its ill repute, but Semel has only cattle and sheep, forests and little towns, and the great silent volcano called Andanden standing over all.. "You don't? Where, then?"..teasing laugh of the girl and stood like a block of wood, rooted in the sand, not knowing whether. A wizard, as Halkel defined the term, was a man who received his staff from a teacher, himself a wizard, who had taken special responsibility for his training. It was usually the Archmage who gave a student his staff and made him wizard. This kind of teaching and succession occurred elsewhere than Roke-notably on Paln-but the Masters of Roke came to regard with suspicion a student of anyone not trained on Roke.. "What's wrong?" she asked. The gentleness of her deep, husky voice unmanned him, and he hid his face in his hands, fighting against the shame of tears..After a while he said, "I could chase an etymology on the brink of doom ... The villagers shook their heads. Gift was a brave woman, but there was such a thing as being too brave. Or brave, they said around the tavern table, in the wrong way, or the wrong place, d'you see. Nobody should ought to meddle with sorcery that ain't born to it. Nor with sorcerers. You forget that. They seem the same as other folk. But they ain't like other folk. Seems there's no harm in a curer. Heal the foot rot, clear a caked udder. That's all fine. But cross one and there you are, fire and shadows and curses and falling down in fits. Uncanny. Always was uncanny, that one. Where'd he come from, anyhow? Answer me that..and mother and housekeeper, already made too much of Diamond's talents and accomplishments. Also, paying copper where he thought he might have to pay ivory." "Are the cattle he touched keeping. Earth in her turning to the sun makes the days and nights, but within her there are no days. Medra walked through the night. He was very lame, and could not always keep up the werelight. When it failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. He woke, always cold, always in pain, always thirsty, and when he could make a glimmer of the light he got to his feet and went on. He never saw Anieb but he knew she was there. He followed her. Sometimes there were great rooms. Sometimes there were pools of motionless water. It was hard to break the stillness of their surface, but he drank from them. He thought he had gone down deeper and deeper for a long time, till he reached the longest of those pools, and after that the way went up again. Sometimes now Anieb followed him. He could say her name, though she did not answer. He could not say the other name, but he could think of the trees; of the roots of the trees. This was the kingdom of the roots of the trees. How far does the forest go? As far as forests go. As long as the lives, as deep as the roots of the trees. As long as leaves cast shadows. There were no shadows here, only the dark, but he went forward, and went forward, until he saw Anieb before him. He saw the flash of her eyes, the cloud of her curling hair. She looked back at him for a moment, and then turned aside and ran lightly down a long, steep slope into darkness..mastered.
