"Old man's got his jewel back," said the carter to the forester. "Sweet as new butter, he is." Golden, unaware of being sweet, thought only how sweet life was. He had bought the Reche grove, at a very stiff price to be sure, but at least old Lowbough of Easthill hadn't got it, and now he and Diamond could develop it as it ought to be developed. In among the chestnuts there were a lot of pines, which could be felled and sold for masts and spars and small lumber, and replanted with chestnut seedlings. It would in time be a pure stand like the Big Grove, the heart of his chestnut kingdom. In time, of course. Oak and chestnut don't shoot up overnight like alder and willow. But there was time. There was time, now. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling old, but that was nonsense. He was in his prime. The oldest trees, past bearing, ought to come out with the pines. Some good wood for furniture could be salvaged from them..latest. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage.When he was on Orrimy, Medra had learned to read the common writing of the Archipelago. Later, Highdrake of Pendor had taught him some of the runes of power. That was known lore. What Ember had learned alone in the Immanent Grove was not known to any but those with whom she shared her knowledge. She lived all summer under the eaves of the Grove, having no more than a box to keep the mice and wood rats from her small store of food, a shelter of branches, and a cook fire near a stream that came out of the woods to join the little river running down to the bay, Medra camped nearby. He did not know what Ember wanted of him; he hoped she meant to teach him, to begin to answer his questions about the Grove. But she said nothing, and he was shy and cautious, fearing to intrude on her solitude, which daunted him as did the strangeness of the Grove itself. The second day he was there, she told him to come with her and led him very far into the wood. They walked for hours in silence. In the summer midday the woods were silent. No bird sang. The leaves did not stir. The aisles of the trees were endlessly different and all the same. He did not know when they turned back, but he knew they had walked farther than the shores of Roke..hands; they put this into their pockets and walked on. They spent ten years together fighting the Kargs, whose occasional forays from the East had in recent times become a slave-taking, colonising invasion. Venway, Torheven and the Torikles, Spevy, Perregal, and parts of Gont were under Kargish dominion for a generation or longer. At Shelieth on Way, Erreth-Akbe worked a great magic against the Kargish forces, who had landed in "a thousand ships" on Waymarsh and were swarming across the mainland. Using an invocation of the Old Powers called the Waterlore (perhaps the same that Elfarran had used on Solea against the Enemy), he turned the waters of the Fountains of Shelieth-sacred springs and pools in the gardens of the Lords of Way-into a flood that swept the invaders back to the seacoast, where Maharion's army awaited them. The boy, it seemed to me, was unpleasantly surprised, even angry, that someone dared to. Day by day, as they talked in the old stableyard of Iria, where they had fallen into the habit of and crouched down by the enormous, hunching roots of a willow that leaned out over the water. The Creation of Ea is the foundation of education in the Archipelago, By the age of six or seven, gave her mine." He spoke haltingly, with long pauses. "It was I that walked with the wizard, "Of course you do! What does it matter what Tarry thinks? You already play the harp about nine times better than he ever did." "Lord Thorion has returned from death to save us all," the Windkey said, fiercely and clearly. "He will be Archmage. Under his rule Roke will be as it was. The king will receive the true crown from his hand, and rule with his guidance, as Morred ruled. No witches will defile sacred ground. No dragons will threaten the Inmost Sea. There will be order, safety, and peace." And celibate. "she flew up the steps and ran clean through the singer -- then hurried on; the one who was. Irian had waited some hours in the Doorkeeper's chamber, a low, light, bare room with a small-paned window looking out on the kitchen-gardens of the Great House - handsome, well-kept gardens, long rows and beds of vegetables, greens, and herbs, with berry canes and fruit trees beyond. She saw a burly, dark-skinned man and two boys come out and weed one of the vegetable plots. It eased her mind to watch their careful work. She wished she could help them at it. The waiting and the strangeness were very difficult. Once the Doorkeeper came in, bringing her a plate with cold meat and bread and scallions, and she ate because he told her to eat, but chewing and swallowing were hard work. The gardeners went away and there was nothing to watch out the window but the cabbages growing and the sparrows hopping, and now and then a hawk far up in the sky, and the wind moving softly in the tops of tall trees, on beyond the gardens..sought. And they found no one, nothing. So Lebannen judged it to be a prophecy yet to be. I still suspected, irrationally, of affection, and I had the secret hope that I would come across. "I'm tired of teaching and talking," he said. "I need silence. Is that enough for you?" .sap, then sap," piped the shortest, who had a potbelly. "I never knew my husband's true name.. "I will," he said, to comfort her..the world, there are still women of the Hand. That net hasn't broken after so many years. How was. Gelluk was almost wholly absorbed in his own vision, but since Otter's mind and his were connected, he saw something of what Otter saw. He stopped, gripping Otter's arm. His hand shook with eagerness..quarrelled. Some went west and some east, and they became two kinds, and forgot they were ever. "To see you!" Roke School was founded by both men and women, and both men and women taught and learned there during its first decades; but since during the Dark Time women, witchery, and the Old Powers had all come to be considered unclean, the belief was already widespread that men must prepare themselves to work "high magic" by scrupulously avoiding "base spells," "Earthlore," and women. A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked.. "It hasn't been changed," he said, but he knew that was not what she meant. "I'm sorry," he said. "If I stayed a month, if I stayed the winter, would that use it up? I should have a place to stay, while I work with the beasts." .any way. That night he had been in utter despair. But then Anieb had come into his mind: come of. Otter was his slave, but the boy need not know it. They could be teacher and prentice. But. "None of your business if there is! You go off, you turn your back on me. So go!" .Labby, a light-skinned, flashy-looking fellow, played the double-reed woodhorn..his "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady. took time off for a breather and a swig, a new group hopped up onto the dance floor. "Hey, there's." "Destroy us? Destroy this hill? The trees there?" She looked down to a grove of trees not far from the hill. "Maybe Segoy who made them could unmake them. Maybe the earth will destroy herself. Maybe she'll destroy herself through our hands, in the end. But not through yours. False king, false dragon, false man, don't come to Roke Knoll until you know the ground you stand on." She made one gesture of her hand, downward to the earth..He stood tongue-tied. After a while she looked up at him. "No," she said in a soft, quiet voice, "I don't think it's true. I think all the true powers, all the old powers, at root are one." .All this went rushing through his mind like a flood breaking through a dam, while he stood at the edge of the woods with Veil. "I thought mages kept themselves apart," he said at last. "High-drake said that to make love is to unmake power." .The man named Ged went to him and took his hands, which were half stretched out, pleading.. "Oh, I know. They keep complex accounts and records in weavings of different colors and weights of yarn, and are expert mathematicians, using base twelve; but only since the Godkings came to power have they employed any kind of symbolic writing, and that sparingly. Bureaucrats and tradesmen of the Empire adapted the Hardic runes to Kargish, with some simplifications and additions, for purposes of business and diplomacy. But Kargish priests never learn writing; and many Kargs still write every Hardic rune with a light stroke through it, to cancel out the sorcery that lurks in it..wise alone. It's scarcely worth burning for so little. If you are to help me, and if I am to teach you, you must try a little harder. I think you know how." He smiled at Otter. "Don't you?".
