

## **KAROLINE HJORTH AND RIITTA IKONEN EYES AS BIG AS PLATES**

He doused the light and crouched motionless in the absolute darkness, leaning against a wall of the dumpster to steady himself, because his feet were planted in slippery layers of fog-dampened plastic trash bags..Of firm but pliable rubber, custom-formed to his disfigured foot, a shoe insert filled the void left by his missing toe. This simple aid ensured that virtually all footwear was comfortable, and by November, Junior walked with no discernible limp..You struck a discord that can be heard, however faintly, all the way to the farthest end of the universe.....Evidently, the hero was accustomed to encounters of this nature. He rose, pulled out the unused fourth chair. "Please sit with us." Indeed, the winter storm had dampened neither his hair nor his clothes. The rain appeared to slide away from him a millimeter before contact, as though the water and the man were composed of matter and antimatter that must either repel each other or, on contact, trigger a cataclysmic blast that would shatter the very foundation of the universe.. "Well, Uncle Jacob doesn't understand kids. Anyway, this is pretty good stuff." The two bereaved women huddled at one end of the living room, tearful, touching, talking quietly, wondering together if there was any way that each could help the other to fill this sudden, deep, and terrible hole in their lives..Leashed like a dog, he walked along, sullen and shivering with sickness and rage. He stared around him, seeing the stone tower, stacks of wood by its wide doorway, rusty wheels and machines by a pit, great heaps of gravel and clay. Turning his sore head made him dizzy..Instead, he imagined Vanadium's blunt fingers moving over the intravenous apparatus with surprising delicacy, reading the function of the equipment as a blind man would read Braille with swift, sure, gliding fingertips. He imagined the detective finding the injection port in the main drip line, pinching it between thumb and forefinger. Saw him produce a hypodermic needle as a magician would pluck a silk scarf from the ether. Nothing in the syringe except deadly air. The needle sliding into the port ....Of the things you couldn't have seen coming, I'm the worst ... I'm the worst ... I'm the worst.....The water shut off, and Junior heard the ratcheting noise of a paper-towel dispenser..Kennedy, whose portraits hung side by side, the girl revealed to their mom and dad what had been done to her and also what, in her despair."Of all the things I might be meant to do with my life," he told Agnes, "I believe nothing will matter more than the small part I've had in bringing together these two children." Google didn't realize that he was an object of disgust. He wiggled his eyebrows in what he evidently assumed to be an expression of male camaraderie, and he nudged Junior with one elbow..But when the lore-books of a wizard came into a warlord's hands he was likely to treat them with caution, locking them away to keep them harmless or giving them to a wizard in his hire to do with as he wished. In the margins of the spells and word lists and in the endpapers of these books of lore a wizard or his apprentice might record a plague, a famine, a raid, a change of masters, along with the spells worked in such events and their success or unsuccess. Such random records reveal a clear moment here and there, though all between those moments is darkness. They are like glimpses of a lighted ship far out at sea, in darkness, in the rain..Junior was free of superstition. He believed in neither gods nor demons, nor in anything between..Agnes had believed that through this ordeal, she'd largely spared her child from an awareness of the awful depth of her misery. In this, however, as in so many other instances, the boy proved to be more perceptive and more mature than she'd realized. Now she felt that she had failed him, and this failure ached like a wound..Maria's hand tamed, the card turned, and another knave of spades revolved into view, snapped against the table..Wait here in the car. Give them time to settle down. At this hour, they would put the kid to bed first. Then Ichabod and Celestina would go to their room, undress for the night..holding hands as they watched John Wayne in *The Searchers*, David Niven in *Around the World in 80 Days*. They were so young then, sure they would live forever, and they were still young now, but for one of them, forever had arrived..Simon Magusson-capable of representing the devil himself for the proper fee, but also capable of genuine remorse-visited Vanadium in the hospital, soon after learning that the detective had awakened from a coma. The attorney shared the conviction that Cain was the guilty party, and that he'd also murdered his wife..In the morning, at breakfast, from this calmer perspective, he looked back at his tantrum in the middle of the night and wondered if he might be in psychological trouble. He decided not. In November and December, Junior studied arcane texts on the supernatural, went through new women at a pace prodigious even for him, found three Bartholomews, and finished ten needlepoint pillows..Barty, thirteen years old but listening to books at a postgraduate college level, had no doubt studied leukemia while they were awaiting the test results, to prepare himself to fully understand the diagnosis on first receiving it. He tried not to look stricken when he heard acute myeloblastic, which was the worst form of the disease, but he appeared more ghastly in his pretense than if he had revealed his understanding. Had his eyes not been artificial, his stiff-upper-lip pose would have been utterly unconvincing..Junior lifted the pattie with a fork, found no quarter under it, and put the meat on one half of the bun. He constructed the sandwich from these fixings, added ketchup and mustard, and took a great, delicious, satisfying bite..A few minutes after dawn, in excellent weather, they flew out of Sacramento, bound for Eugene. Junior would have enjoyed the scenery if his face hadn't felt as if it were gripped by a score of white-hot pliers in the hands of the same evil trolls that had peopled all the fairy tales that his mother had ever told him when he was little..She wanted to tell him not to say these queer things, not to talk this way, yet she couldn't speak those words. When Barty asked her why, as inevitably he would, she'd have to say she was worried that something might be terribly wrong with him, but she couldn't express this fear to her boy, not ever. He was the lintel of her heart, the keystone of her soul, and if he failed because of her lack of confidence in him, she herself would collapse into ruin..summoned an expression no less dubious than that of a policeman listening to the alibi of a suspect with bloody hands. Then: "I'm quite sure that Wroth Griskin does not make candlesticks. If that's what you're looking for, I'd recommend the housewares department at Gump's."..Through fog-shrouded hills forested with oaks, maples, madrones, and

pepperwoods, through magnificent stands of redwoods that towered three hundred feet, he arrived in Weott on the evening of January 3, 1968, where he stayed the night. If Paul had any northernmost goal for this trip, it was the city of Eureka, almost fifty miles farther-and for no reason, other than to eat Humboldt Bay crabs at their origin, because that was one of his and Perri's favorite foods.. "Why do you think he's spending his money for all this tricky stuff?" Kathleen wondered, not for the first time..A door slammed, and after the briefest of internal debates about whether to ize or act, Junior left Ichabod straddling the threshold. He must get to Celestina before she reached a telephone, and then he could come back and finish moving the body..Barty, didn't watch much television. He'd been up late enough to see Red Skelton only a few times, but that comedian always drew gales of laughter from him..He paused, not sure how to proceed. He was not accustomed to writing letters to total strangers..On the other hand, one needed to believe in something. Junior didn't clutter his mind with superstitious nonsense or allow himself to be constrained by the views of bourgeois society or by its smug concepts of right and wrong, good and evil. From Zedd, he'd learned that he was the sole master of his universe. Self-realization through self-esteem was his doctrine; total freedom and guiltless pleasure were the rewards of faithful adherence to his principles. What he believed in-the only thing he believed in-was Junior Cain, and in this he was a fiercely passionate believer, devout unto himself. Consequently, as Caesar Zedd explained, when any man was clearheaded enough to cast off all the false and half rotten. She tore it. With the small scissors, she opened the shoulder seam from the inside..The doors were unlocked on a pickup parked next to the Pontiac. Junior lifted the granny onto the front seat of the truck. She was so light, so unpleasantly angular, and she rustled so much that she might have been a new species of giant mutant insect that mimicked human appearance. He was glad, after all, that he hadn't killed her: Granny's prickly--bur spirit might have proved to be as difficult to eradicate as a cockroach infestation. With a shudder, he tossed her purse on top of her, and slammed the truck door..quiet pool, sweet with the fragrance of jasmine. Under the huge spreading oak. Grass oiled to a glossy green by the..And the mills of capitalism provide them. Supply meets demand. Fantasy becomes a commodity, an industry..Although rain-pasted to her skin, the fine hairs rose on the nape of her neck. The gooseflesh crawling across her arms had nothing to do with her cold, wet clothes..An exceptionally attractive woman, alone at the bar, stirred his desire. Glossy black hair: the tresses of night itself, shorn from the sky..Because he genuinely liked women and hoped always to please them, always to be discreet and chivalrous and giving, Junior did as she wished, spinning a vivid account of the grisly vengeance he would take if ever Seraphim told anyone what he'd done to her. Vlad the Impaler, the historical inspiration for Brain Stoker's Dracula--thank you, Book-of-the-Month Club--could not have imagined bloodier or more horrific tortures and mutilations than those that Junior promised to visit upon the reverend, his wife, and Seraphim herself Pretending to terrorize the girl excited him, and he was perceptive enough to see that she was equally excited by pretending to be terrorized..She hung her head, covered her face with her chilled hands, and wondered how her mother could sustain faith in God when such terrible things could happen to someone as innocent as Phimie..After a day of work, the pencil portrait of Nella Lombardi was finished. The second piece in the series-an extrapolation of her appearance at age sixty-was begun..According to the cards, Barty would be rich financially, but also in talent, spirit, intellect. Rich in courage and honor, Maria promised. With a wealth of common sense, good judgment, and luck..Junior was less surprised by his sudden assault on Victoria than by the failure of the bottle to break. He was, after all, a new man since his decision on the fire tower, a man of action, who did what was necessary. But the bottle was glass, and he swung forcefully, hard enough that it smacked her forehead with a sound like a mallet cracking against a croquet ball, hard enough to put her out in an instant, maybe even hard enough to kill her, yet the Merlot remained ready to drink..In his voice, he heard a tremor that had nothing to do with the hideous deaths in Effingham more than sixteen years previous.. "All right. Well ... Jesuits are encouraged to pursue education in any subject that interests them, not theology alone. I was deeply interested in physics." Earthquake weather. Southern Californians had many definitions of that term, but Edom knew he was right this time. Thunder would roll again soon, but it would arise from underfoot.. "You remember things?" the girl asked, her fingertips still pressed lightly to his cheek.. "Tragic. Her string's been cut too soon. Her music's ended prematurely," Junior said, feeling confident enough to dish a serving of the maniac cop's half-baked theory of life back to him. "There's a discord in the universe now, Detective. No one can know how the vibrations of that discord will come to affect you, me, all of us." Clearly touched and intrigued, the magician nevertheless circled the offer in search of reasons to decline, before at last shaking his head sadly. "I doubt that I'm the caliber of person you're looking for, Mrs. Lampion. I wouldn't be entirely a credit to your project." Opening his eyes blinking back his tears just as more agonizing contractions knotted his abdomen, he could see ribbons of red in the watery green mess that gushed from him. Bright red. Gastric blood would be dark. This must be pharyngeal blood. Unless an artery had ruptured in his stomach, torn by the incredible violence of these intransigent spasms, in which case he was puking his life away..The second and third rooms proved to be deserted, as well, and as muffled as the cushioned spaces of a funeral home, but an office was tucked discreetly at the back of the final chamber. As Junior crossed the third room, apparently monitored by closed-circuit security cameras, a man glided out of the office to greet him..The cheerful tides of friends and neighbors, over the years, had washed away nearly all the stains that the dark rage of Agnes's father had impressed on these rooms. She hoped her brothers might eventually see that hatred and anger are only scars upon a beach, while love is the rolling surf that ceaselessly smooths the sand..Deciduous black oaks lined the street. All were leafless at this time of year, gnarled limbs clawing at the moon..Although she had never seen snow other than in pictures and on film, this deep-settled silence seemed to speak of failing flakes, of white muffling mantles, and she wouldn't have been in the least surprised if, stepping outside, she had found herself in a glorious winter landscape, cold and crystalline, here on the always-snowless hills and shores of the California Pacific..As Junior stood at Seraphim's grave, his breath smoked from

him in the still night air, as though he were a dragon. "Who is this?" he demanded, although for a demand, the words came out too thin, too squeaky. Junior hoped that he hadn't been betrayed by eyeshine in the fraction of a second before he closed his eyes to slits. Even at this post midnight hour, the lounge would sometimes be as crowded with worried loved ones as at any other time of the day. This morning, however, the only life under the threat of the scythe appeared to be Wally's; the sole vigil being kept was for him. The glimmering bay and the shimmering amber candlelight provided the perfect atmosphere for the song that arose now from the piano in the bar. He'd never had a chance to read this to Perri or to benefit from her opinion. Now, as he scanned the lines of his calligraphic handwriting, his words seemed foolish, inappropriate, confused. Perhaps hoping to discover which runaway freight train or exploding factory would smear him across the landscape, Jacob pushed aside his dessert plate and shuffled each deck separately, then shuffled them together until they were well mixed. He stacked them in front of Maria. The walls were barren. The only art in these rooms was a single sculpture. Junior was taking university extension courses in art appreciation and almost daily haunting the city's countless galleries, constantly deepening and refining his knowledge. He intended to refrain from acquiring a collection until he was as expert on the subject as any director of any museum in the city. Friday, after dinner, when he'd heard enough of Maria's method of fortune-telling to know that four decks were required, that only every third draw was read, and that aces-especially red aces-were the most propitious cards to receive, Jacob had taken great pleasure in preparing for Barty the most favorable first eight cards that could possibly be dealt. This was a small gift to cheer Agnes, on whose heart Joey's death weighed as heavily as iron chains. One detail. One only. It was a crucial detail, however, one that she absolutely must confirm before she left St. Mary's, even if she would be required to look at the child once more, this spawn of violence, this killer of her sister. Looking down at Barty, Agnes saw the ghost of Joey in the baby's face, and although she half believed that her husband would be alive now if he had never tempted fate by putting such a high price on his life, she couldn't find any anger in her heart for him. She must accept this final generosity with grace-if also without enthusiasm. "AND I DRINK CHAMPAGNE ALL DAY," said Miss Cheese, pronouncing it "cham-pay-non." Agnes met them, pulling Grace and Angel to her side. Her eyes were bright with excitement. "Tom, you're a man of faith, even if you've sometimes been troubled in it. Tell me what you make of all this." So burning with anger was he that his car, by direct thermal transmission from his hands upon the wheel, should have been glowing cherry red in the January night, should have been scorching tunnels of clear dry air through the cold fog. Rancor, virulence, acrimony, vehemence: All words learned for the purpose of self-improvement were useless to him now, because none adequately conveyed the merest minimum of his anger, which swelled as vast and molten as the sun, far more formidable than his assiduously enhanced vocabulary. "There's a fine George and Ira Gershwin song called 'Someone to Watch Over Me.' The strand was inclined toward the lake. He closed the door and got out of the way as the Studebaker rolled forward, gathering speed. A half bath downstairs. Two bedrooms and a full bath on the upper floor. All deserted. Recently, Wally administered to Angel a set of apperception tests for three-year-olds, and the results indicated that she might not ever be a math whiz or a verbal gymnast, but that she might be highly talented in other ways. Her appreciation of color, her innate understanding of the derivation of secondary hues from the primary colors, her sense of spatial relationships, and her recognition of basic geometric forms regardless of the angle at which they were presented were all far beyond what was exhibited by other kids her age. Wally said she was visually, rather than verbally, gifted, that she would undoubtedly exhibit increasing precociousness in matters artistic, that she might follow Celestina's career path, and that she might even prove to be a prodigy. Whether making love or killing, he was never guided by bigotry. A private little joke with himself. But true. Because of his blindness and his intellectual gifts, Barty was home schooled; besides, no teacher was a match for his autodidactic skills, nor could anyone possibly inspire in him a greater thirst for knowledge than the one with which he had been born. Angel went to this same informal classroom, and her sole fellow student was also her teacher. They aced the periodic equivalency tests that the law required. Their constant companionship seemed to be all play, yet was filled with constant learning, too. He turned the brochure in his hands, to look at the front of it again. Gradually he began to suspect that the title of the exhibition might be what had brought to mind the reverend's unremembered sermon. Agnes supposed Jacob trembled in anticipation of the crash of an airliner or at least a light aircraft. Edom might be calculating the odds that this serene place-at this specific hour-would be the impact point for one of those planet-killing asteroids that reputedly wiped most life off the earth every few hundred thousand years or so. One worrisome problem: Neddy might be found in the container before it had been hauled away, instead of at the landfill that preferably would serve as his next-to-last resting place. If his body was discovered here, it must be at a distance from any trash bin used by the gallery. The less likely the cops were to connect Neddy to Greenbaum's art-sausage factory, the less likely they also were to connect the murder to Junior. Junior could only imagine how flattered Victoria would be to receive the attentions of a twenty-three-year-old stud, flattered and grateful. When he contemplated all the ways she could express that gratitude, there was barely enough room behind the wheel of the Suburban for him and his manhood. When Agnes and Paul returned from a honeymoon in Carmel, they discovered that Edom had finally cleared out Jacob's apartment. He donated his twin's extensive files and books to a university library that was building a collection to satisfy a growing professorial and student interest in apocalyptic studies and paranoid philosophy. Sweaty, chilled, trembling, weak-kneed, watery-eyed with self-pity, Junior spread a plastic garbage bag on the driver's seat. He got in the Suburban, twisted the key in the ignition, and groaned as the engine vibrations threatened to undo him. Junior picked up his pace, pushing through the crowd, repeatedly glancing back, and although he caught only quick squints of the dead cop's face, he could tell that something was terribly wrong with it. Never a candidate for matinee-idol status, Vanadium looked markedly worse than before. The port-wine birthmark still

pooled around his right eye. His features were not merely pan-flat and plain, as they had been before, but were ... distorted..Another of Junior's self-improvement projects, since moving to California, was to become a knowledgeable gourmet, also a connoisseur of fine wines. San Francisco was the perfect university for this education, because it offered innumerable world-class restaurants in every imaginable ethnic variety..Meanwhile, as attorneys met on Tuesday afternoon, Junior, having taken leave from work, phoned a locksmith to change the locks at his house. As a cop, Vanadium might have access to a lock-release gun that..When Max answered, Vanadium let out his breath in a whoosh of relief and began talking on the inhalation: "It's me, Tom, and maybe I've just got a bad case of the heebie-jeebies, but there's something I think you better do, and you better do it right now."..He was Father Tom again, having recommitted to his vows three years previous. At his request, the Church had assigned him as the chaplain of Pie Lady Services..They were as gracious as any people he had ever met, but they also seemed genuinely interested in his story. He wasn't surprised that..Koko changed directions with a fantastic pivot turn and bounded after the girl..Every distorted shape, every smear of color, every swath of light and shudder of shadows resisted her attempts to relate them to the world she knew, as if shimmering before her were the landscape of a dream..That was the first-and until now the last-long walk he made with a purpose in mind. He went to see a hero..Agnes had the craziest notion that he was counting them, when at is age, Of course, he would have no concept of numbers..Down the stairs, through the ground floor, quickly, soundlessly, breath held at times, listening for the other's breathing, listening for the softest squeak of rubber-soled shoes, although the hard clack of cloven hoofs and a whiff of sulfur would not have been surprising. At last he went to the kitchen, full circle from the shiny quarter on the breakfast table to the quarter again. No Cain..The announcement poster seemed enormous, huge, far bigger than she remembered it, crazily-recklessly large. By its very size, it challenged critics to be cruel, dared the fates to celebrate her triumph by shaking the city to ruin right now, in the quake of the century. She wished Helen Greenbaum had opted, instead, for a few lines of type on an index card, taped to the glass..Hound told his master that they had the hexer in a safe place, and Losen said, "Who was he working for?"..Like all ICU waiting rooms, where Death sits patiently, smiling in anticipation, this lounge was clean but drab, and the utilitarian furnishings didn't pamper, as though bright colors and comfort might annoy the ascetic Reaper and motivate him to cut down more patients than otherwise he would have done..Holding hands, Barty and Angel led the adults into the kitchen, to the back door. This procession had a ceremonial quality that intrigued Tom, and by the time they stepped onto the porch, he was impatient to know why everyone-except he and Wally-was emotionally airborne, one degree of altitude below euphoria..Before the pianist could cry out, Junior drove him between the toilet and the sink, slamming him against the wall hard enough to knock loose his breath and to cause the water to slosh audibly in the nearby toilet tank..A SEVERE THIRST INDICATED to Agnes that she wasn't dead. There would be no thirst in paradise..After much oily commiseration, sanctimonious babble about Naomi having gone to a better place, and insincere talk of the government's desire always to ensure the public safety and to treat every citizen with compassion, Knacker or Hisscus, or Nork, finally got around to the issue of compensation..On one particular street in Bright Beach, however, the most significant event of the year occurred on a pleasant afternoon in early April, when Barty, now nine years old, climbed to the top of the great oak and perched there in triumph, king of the tree and master of his blindness..The Book of the Dark, written late in the time it tells of, is a compilation of self-contradictory histories, partial biographies, and garbled legends. But it's the best of the records that survived the dark years. Wanting praise, not history, the warlords burnt the books in which the poor and powerless might learn what power is..place settings. He returned with them to the kitchen and put them in the lower oven, as though Victoria were using it as a plate warmer.
