

## **KEW LIFT AND LOOK FLOWERS AND PLANTS**

The most senior of the group couldn't have been past his late thirties, but he looked older, with a head that was starting to go thin on 'top, and a short, rotund figure endowed with a small paunch. He was wearing an open necked shirt of intricately embroidered blues and grays, and plain navy blue slacks held up with a belt. His features looked vaguely Asiatic. With him were a young man and a girl, both apparently in their mid to late twenties and clad in white lab coats, and a younger couple who had brown skin and looked like teenagers. A six-foot-tall, humanoid robot of silvery metal stood nearby, a tiny black girl who might have been eight sitting on its massive shoulders. Her legs dangled around its neck and her arms clasped the top of its head..This time, the pacifist didn't smile. "Guess I should have said do the smart thing."..contains the toilet. She slid her guarded dessert, untouched, in front of Leilani..Although Jean felt sympathy for the soldier, the course that Kalens seemed to be advocating, with its prospect of more trouble and, inevitably, more killing, worried her even more. Why did it always have to be like this? she asked herself. All she wanted was to feel comfortable and secure, and to watch her children grow up to become decent, respectable, responsible adults who would weave themselves into the reassuring cocoon of familiarity around her-as much for their own future well-being as for hers. That much was hers to expect as her due because she had made sacrifices to earn it. It threatened nobody. So why should other people's squabbles which were not of her making now threaten her with sweeping it all away?.Simpson, Westley, Johnson-all of them. They were all back. "We heard you could use some help, chief," Driscoll announced. "Couldn't leave it all to the amateurs?" Ribald comments and hoots of derision greeted the remark..'-That could be a good place to start," Kalens suggested to Wellesley.' "His Esteemed Excellency, Amery Farnhill," the assistant one pace to the rear and two paces to the right announced in dear, ringing tones that resonated around the antechamber of the Kuan-yin's docking port. "Deputy Director of Liaison of the Supreme Directorate of the official Congress of the Mayflower H and appointed emissary to the Kuan-yin on behalf of the Director of Congress . . ." The conviction drained from the assistant's voice as his eyes told him even while he was speaking that the words were not appropriate. Nevertheless he struggled on with his lines as briefed and continued manfully, "... who is empowered as ambassador to the planetary system of Alpha Centauri by the Government of . . ." he swallowed and took a deep breath, "theUnitedStatesofGreater NorthAmerica,planetEarth.'.He went to the bed, leaned down to his sister, and kissed her damp cheek. This quality of light flattered Sinsemilla. Bindles, kilos,.Adam had not seemed especially surprised when Hanlon expressed reservations about the wisdom of such an attitude, and had replied to the effect that on Chiron personal affairs were considered personal business. Some couples might choose to remain exclusively committed to each other and their family, others might not, and it wasn't a matter for society or anybody else to comment on. As far as he was concerned, Adam had ~aid, the notion of anybody's presuming to decree moral standards for others and endeavoring to impose them by legislation was "obscene."..the interstate."Type of marijuana. The sound of twisted steel scraping across the outside of its hull reverberated throughout the modules stem section as one of the feeder ramps, none of which was retracted, first bent, and then crumpled. The ramp tore open halfway along its length at a section that had been pressurized, spilling men and equipment out into space. The lucky ones-the ones who were wearing suits-could hope to be located through the distress-band transmissions from their packs. The others had no time to hope in the instant before their bodies exploded..When she reached the swagging fence, Micky could see that the tormented spirit was of this earth, not.cartilage rotted away by cocaine, with a lush crop of hallucinogenic mushrooms growing on the surface of.Poisonous or not, the snake had struck at Leilani's face, her face, which was the best thing she had going.Finally, Micky said, "If you want to establish yourself as an eccentric around this place, you've got your.This is a beautiful world, a masterpiece of creation, but ii is also a dangerous place. Villains human and.Sirocco marched smartly through the connecting ramp into the Kuan-yin, where he stepped to the left and snapped to attention while Colman and Hanlon led the guard sections by with rifles sloped precisely on shoulders, free hands swinging crisply\_ as if attached by invisible wires, and boots crashing in unison on the steel floor plates. They fanned out into columns and drew up to halt in lines exactly aligned

with the sides of the doorway. Behind them the officers emerged four abreast and divided into two groups to follow Colonel Wesserman to the left and General Portney to the right. Jay added a soundtrack only where we've got conversation that'll ruin him." A good point, Jay admitted to himself. "Security," he tried. "To get rich... Whatever." "A rosebush." was no one here to punch. Yet if she went next door to knock some sense into Sinsemilla, and even if. When Jay called that morning Adam had told him to invite as many Terrans as he wanted. Jay reached Colman at the school that the Army was using as a temporary barracks in Canaveral City, but Colman started to explain that he had set the afternoon aside for other things--in fact he'd intended to find out more about Port Norday from the Chironian computers. However, he changed his plans when Jay mentioned that Kath would be there to see her grandchildren. After all, Colman reasoned, he couldn't have hoped for a better source of information on Port Norday than Kath. As Hanlon was off duty, Colman had invited him along too. "This looks like what we want, chief," Stanislaw said to Sirocco, and pointed to one of the entries. Sirocco leaned closer to peer at the screen..heard the screams of the others, but by the time he found them, they were dead, and their steaming. the wall, where the treads are less noisy..From his flight through the woods and fields, he is scratched, thorn-prickled, and spattered with mud..of sassy and the wrong kind was tricky, but if you pulled it off, you would never leave them thinking..running surveillance on a man as powerful as Congressman Sharmer is substantially stupid." "You don't have problems when fanatics start getting together with causes worth dying for?" Jay asked.. "It doesn't matter," Colman told him. "It's different in different places. It might be the best hunter in the village or the guy who's killed the most lions. It might be the way you paint your face. Through most of history it's been money. What you buy with it isn't important. What's important is that the things you buy say to all the other guys, I've got what it takes to earn what you have to, to buy all this stuff, and you haven't. Her unexpected reaction caused the others to fall quiet and stare at her uncertainly. Then Jean said in a hesitant voice, "You don't seem very excited, Celia. Is there something wrong?"..Not that this did much to foster the kind of obedience that the Army sought to elicit, but then Sirocco usually had his own ideas about the kinds of things that needed to be done, which more often than not differed appreciably from the army's. Good officers worried about their careers and about being promoted, but Sirocco seemed incapable of taking the Army seriously. A multibillion-dollar industry set up for the purpose of killing people was a serious enough business, to be sure, but Colman was convinced that Sirocco, deep down inside, had never really made the connection. It was a game that he enjoyed playing. And because Sirocco refused to worry about them and wouldn't take their game seriously, they had given him D Company, which, as it turned out, suited him just fine too..remarkable. "Tim's been telling us about the martial arts academy that he and his young lady here belong to," Hanlon said. "It sounds like quite a place. "What sort of baking does your mother do?" Geneva asked..she'd promised herself. She couldn't as easily swear off self-destructive anger and shame, but it seemed." "Who?" Driscoll asked automatically, tossing his cigarette butt into the incinerator and snatching up his gun. A cover in the top of Wellington's chest slid aside to reveal a small display screen on which the figures of Sirocco and

Colman appeared, viewed from above. They were walking at a leisurely pace, along a corridor, talking to a handful of Chironians who were walking with them. Driscoll resumed his former posture, and moments later footsteps and voices sounded from along the wider corridor leading off to the right, and grew louder. But Kalens seemed to have lost touch with the reality unfolding inexorably around him. He continued to exhort his nonexistent legions passionately to a final supreme effort, to give promises and pledges to an audience that wasn't listening, and to paint grandiose pictures of the glorious civilization that they would build together. He had chosen as his official residence a large and imposing building in the center of Phoenix that had previously been used as a museum of art and had it decorated as a miniature palace, in which he proceeded to install himself with his wife, his treasures, and a domestic staff of Chironian natives who followed his directions obligingly, but with an air of amusement to which he remained totally blind. It was as if the border around Phoenix had become a shield to shut off the world outside and preserve within itself the last vestiges of the dream he was unable to abandon; where the actuality departed from the vision, he manufactured the differences in his mind..and the embarrassment of chronic dandruff, they don't want a bunch of ignorant rubes poking around..gong of sheer fantasy.. "And I am on early duty tomorrow," Colman said. He grinned again, and she smiled back impishly, "So why are we still here?' they asked together..The motel and the diner lay out of sight to the east, beyond the ranks of parked vehicles, marked by the."I don't know," Farnhill said. "You'd have to ask Merrick about that.". "Were they ever there?" Leilani asked again.. "What an impressive name," Geneva said. "Like a Supreme Court justice or a senator, or someone.Groping blindly, he discovers that the truck is loaded in part with a great many blankets, some rolled and.. Colman stared hard at him for a few seconds. "What do you think you'd get out of it?" he asked..Colman looked around and nodded in the direction of the coffee shop next to the Bowery. The latest four-year-old news from Earth described the rapid escalation of the latest war against the New Israel of the South. Only this time the EAF was getting involved. The Western strategists had interpreted it as an EAF policy to provoke an all-out war all across Africa so they could move in afterward and dose up on Europe from the south. Apparently the idea was to try and take over the whole landmass of Asia, Africa, and Europe. Why did they want to take over the whole of Asia, Africa, and Europe? Colman didn't know. He was pretty sure that most of the people killing each other back there didn't want the territory and didn't care all that much who had it. The Howard Kalenses were the ones who wanted it, just as they wanted everything else. Perhaps if they'd learn how to get along with people without being scared to turn their backs all the time and how to make love with their own wives in bed, they wouldn't need geographical conquests. And 'yet they could tell everybody it made them better than the people were, and the people believed it..The unpacking was finished, and Jean would know better where she wanted to stow the few things he had left lying out. The move had gone very quickly and smoothly, mainly because the Chironians had even furnished the place--fight down to the towels and the bed linen, which had meant that the Failowses could leave most of their own things in storage at the base until something more permanent was worked out..and bitter, him havin' a hissy fit, him broodin' up bad snaky revenge.".buried in the woods of Montana..something..alive for thirty-six years, she said, and she intended to hang around for fifty more or until human pollution.This was a girlish merriment, sweet and musical, almost shy..icals are among its major products, as well as electricity." You don't look like you've been raised in a box.". "I never realized," Geneva said miserably. "Never. I never suspected."
