

## LA CHROMOLITHOGRAPHIE ET LA PHOTOCHROMOLITHOGRAPHIE

Barty stood in the rain, surrounded by the rain, pummeled by the rain, with the rain. Saturated grass squished under his sneakers. The droplets, in their millions, didn't bend-slip-twist magically around his form, didn't hiss into steam a millimeter from his skin. Yet he remained as dry as baby Moses floating on the river in a mother-made ark of bulrushes..Although the Rolex was expensive, Junior cared nothing about the monetary loss. He could afford to buy an armful of Rolexes, and wear them from wrist to shoulder..The three of them, gathered around her in the quick, held fast to her, as if Death couldn't take what they refused to release.. "Better hold on tight to her," Wally warned Celestina, braking to a halt at the intersection. "She'll float up and away, then we'll have to call the fire department to get her down..".When she turned to him again, he had already slipped into his jacket and snatched the car keys off the foyer table. He put his left hand under her right arm, as though Agnes were feeble and in need of sup-.Beautiful she was, both of face and form, even with her mouth gaping wide and her eyes rolled back in her skull. How bright her future might have been if she had not chosen to deceive. A tease was, in essence, a deceiver-promising what she never intended to deliver.. "Imagine me thinking you'd be gone," she said to Barty. "Your old mum is losing it. I never made a deal with Rumpelstiltskin, so there's nothing for him to collect..".For Agnes and Barty, one stop remained, where some of the joy of Christmas would always be buried with the husband that she still missed every day and the father that he would never know.. "I knew," said Wally, braking for a red traffic light, "that you'd be thinking of Phimie now, and thinking of her would lead you to your father's words, because as short as her life might have been, Phimie was a Bartholomew. She left her mark..". "Well, the lab could detect abnormally high salt levels, but that wouldn't matter in court. He could say he ate a lot of salty foods..".This momentous day. In every ending, new beginnings. But, thank God, no ending here..Edom drove, happy to assist Agnes. He was happier still that he didn't have to make the pie deliveries alone..As she commented on each masterpiece, Frieda grew steadily less coherent. She had drunk a few cocktails, the better part of a bottle of Cabernet Sauvignon, and two after-dinner brandies..deodar cedars with layers of drooping branches surrounded the place, and usually they seemed sheltering, but now they loomed, ominous..Over many proud generations and at least to the extent of second cousins, no one on either side of Celestina's family had skin of this light color. They were without exception medium to dark mahogany, many shades darker than this infant..The problem was Celestina in the Buick, because when she saw what was happening, she might slide behind the steering wheel and speed away. The engine was running, white plumage rising from the tailpipe and feathering away in the fog, so she might escape if she was a quick thinker..He liked her face, too. She wore no makeup, and pulled her brown hair back in a bun. Some might say she was mousy, but the only things mousy that Nolly saw about her were a piquant tilt to her nose and a certain cuteness..Angel cocked her head and studied his left hand, which he had closed while opening his right. She pointed. "It's there..". "Was a priest," he corrected. "Might be again. At my request, I've been under a dispensation from vows and suspension from duties for twenty-seven years. Ever since those kids were killed..".As he headed toward the door, the detective said, "Don't forget your apple juice. Got to build some strength for the trial..".Now, Obadiah produced a pack of playing cards as though from a secret pocket in an invisible coat. "Like to see a little something?..".In Room 724, standing alone at her sister's bedside, watching the girl sleep, Celestina told herself that she was coping well. She could handle this unnerving development without calling in either of her parents..The port-wine birthmark appeared to be darker than before and differently mottled than he remembered it..Adoption records would have been kept as secret from Celestina as from everyone else. But perhaps she knew something about the fate of her sister's bastard son that Junior didn't know, a small detail that would seem insignificant to her but that might put him on the right trail at last..They were as gracious as any people he had ever met, but they also seemed genuinely interested in his story. He wasn't surprised that..The following morning, he canceled his German lessons. It was an impossible language. The words were enormously long.. "Oh, my Lord," Chicane groaned as he and Sparky half carried Junior into the bathroom..After a day of work, the pencil portrait of Nella Lombardi was finished. The second piece in the series-an extrapolation of her appearance at age sixty-was begun.. "There's lots of places where I don't have bad eyes at all. And then lots of places where I have it worse or don't have it as bad, but still have it some..".She hung her head, covered her face with her chilled hands, and wondered how her mother could sustain faith in God when such terrible things could happen to someone as innocent as Phimie..Agnes, who inherited the property, would have welcomed her brothers in the main house. Although both were willing to visit her for an occasional dinner or to sit in rocking chairs on the porch, on a summer night, neither could abide living in that ominous place..In regard for Barty's tender age, Dr. Franklin Chan had arranged for Agnes to spend the night in her son's room, in the second bed, which currently wasn't needed for a patient.. "Good heavens, Vinnie, I know that," she assured him as she lifted Barty-hardly bigger than a bag of sugar-from the bassinet. She settled with the baby into a rocking chair.. "He must've listened on the car radio," Agnes said, digging down into the layered days in her packed trunk of memories. "He was trying to get ahead of his work, so he'd be able to stay around the house a lot during the week after the baby came. So he arranged to meet with some prospective clients even on Sunday. He was working a lot, and I was trying to deliver my pies and meet my other obligations before the big day. We didn't have as much time together as usual, and even as impressed as he must've been with the sermon, he never had a chance to tell me about it. The next-to-last thing he ever said to me was 'Bartholomew.' He wanted me to name the baby Bartholomew..".The funeral director and his assistant were the only people, other than Junior, remaining at the grave. They asked if they might lower the casket or if he would rather that they wait until he was gone..She shivered, and Edom, thinking that she had caught a chill ripped off his suit jacket and draped it over her shoulders..Junior released Neddy and,

letting him slide down the wall to the floor, returned to the door to lock it. Reaching for the latch, he suddenly expected the door to fly open, revealing Thomas Vanadium, dead and risen. The ghost didn't appear, but Junior was shaken by the mere thought of such a supernatural confrontation in the middle of this crisis. Clearly touched and intrigued, the magician nevertheless circled the offer in search of reasons to decline, before at last shaking his head sadly. "I doubt that I'm the caliber of person you're looking for, Mrs. Lampion. I wouldn't be entirely a credit to your project." He had met her in a university adult-extension course titled "Increasing Self-Esteem Through Controlled Screaming." Participants were taught to identify harmful repressed emotions and dissipate them through the authentic vocal imitations of a variety of animals. Celestina's question had been about Phimie, but they had told her about the baby, and she was alarmed by their evasion. Angel liked to perch sideways with a drawing tablet in the window seat in Barty's room, look out at the oak tree from the upper floor, and draw pictures inspired by things she heard in whatever book he was currently listening to. Everyone said she was a pretty good artist for a three-year-old, and Barty wished he could see how good she was. He wished he could see Angel, too, just once. Not every coincidence, however, has meaning. Toss a quarter one million times, roughly half a million heads will turn up, roughly the same number of tails. In the process, there will be instances when heads turn up thirty, forty, a hundred times in a row. This does not mean that destiny is at work or that God-choosing to be not merely his usual mysterious self but utterly inscrutable-is warning of Armageddon through the medium of the quarter; it means the laws of probability hold true only in the long run, and that short-run anomalies are meaningful solely to the gullible. Succinctly, Edom told Jacob about visiting Obadiah, the magician with the mangled hands. Then: "When we left, I followed Agnes, and Obadiah held me back to say, 'Your secret's safe with me.'" He had never expressed opposition to starting a family. She'd had no reason to fear telling him that she was carrying their child. Teasing out the card, Edom saw that it was an ace of diamonds-remarkable in light of Maria Gonzalezs fortune-telling session last Friday evening. He was more astonished, however, by the name printed in black ink diagonally across the face of the card: BARTHOLOMEW. rearview mirror was not hung with one of those tacky decorative deodorizers. The seats, regularly treated with leather soap, were softer and more supple than they had been when the car had shipped out of. Besides, he didn't want the police in San Francisco to know that he'd been suspected, by at least one of their kind, of having killed his wife in Oregon. What if one of the locals was curious enough to request a copy of the case file on Naomi's death, and what if in that file, Vanadium had made reference to Junior waking from a nightmare, fearfully repeating Bartholomew? And then what if Junior eventually located the right Bartholomew and eliminated the little bastard, and then what if the local cop who'd read the case file connected one Bartholomew to the other and started asking questions? Admittedly, that was a stretch. Nevertheless, he hoped to fade from the SFPD's awareness as soon as possible and live henceforth beyond their ken. "He's here as sure as I am, Barty. He's very busy, with a whole universe to run, so many people to look after, not just here but on other planets, like you've been reading about." "It's all right," Tom assured her. To Angel, he said, "No, I'm not sad. And you know why?" The diminutive mortician spoke a few comforting words instead of commenting on the dental history of the deceased, and when he put a consoling hand on Jacob's shoulder, Jacob cringed from his touch. be entombed in one of those memorial walls, well above ground level, where nothing was likely to seep into them. Cold, wind-driven rain slashed through the missing windows, and voices rose in the street as people ran toward the Pontiac-thunder in the distance-and on the air was the ozone scent of the storm and the more subtle and more terrible odor of blood, but none of these hard details could make the moment seem real to Agnes, who, in her deepest nightmares, had never felt more like a dreamer than she felt now. "The mass of these malignancies suggest they will soon spread-or have already spread-out of the eye to the orbit. There is no hope that radiation therapy will work in this instance, and no time to risk trying it even if there were hope. No time at all. No time. Dr. Schurr and I agree, to save Bartholomew's life, we must remove both eyes immediately." Glaring and red-faced, lowering his voice almost to a whisper, Neddy said, "I'm sorry, but you've got me all wrong. I'm not like Renee and you." "Miss White was admitted to St. Mary's late January fifth," said Nolly, "with dangerous hypertension, a complication of pregnancy." Ten months later, he finally wore her down. She accepted his proposal, and they set a date for the wedding. Paul said, "I wanted you ... I don't know ... I just wanted you to see her. I wanted to say ... to say. . ." She loosened her hair and brushed it out, and Nolly took her to dinner at their favorite place, which had the decor of a classy saloon and a bay view suitable for God's table. They came here often enough that the maitre d' greeted them by name, as did their waiter. In July, she went for a walk on the shore with Paul Damascus, expecting to do a little beachcombing, to watch the comical scurrying crabs. Somewhere between the seashells and the crustaceans, however, he asked her if she could ever love him. From the darkness of his room, Barty now spoke the words for which Agnes had been waiting, his whisper soft yet resonant in the quiet house: "Good-night, Daddy." He tucked his left arm tight against his side and threw himself against the door. The obstructing furniture was heavy, but it moved an inch. If it would give one inch, it would give two, so it wasn't immovable, and he was already as good as in there. To his surprise, when Naomi expressed an interest in romance, Junior was a bull again. He would have thought he had left his best stuff at Reverend Harrison White's parsonage. "Then you have a big advantage, and you'll have to tell us all about yourselves," Agnes said. "I'll get the coffee brewing ... unless you'd like to help." "Because Cain had called him to get a recommendation of a P. I. here in San Francisco," said Kathleen. "To find out what happened to Seraphim White's baby." "I'll do your share of the housework for a month. If I'm closer to the date, you clean up all my pie-baking and other kitchen messes for a month-the bowls and pans and mixers, everything." He got in the Suburban, pulled the door shut, but didn't at once start the engine. "I've already told them," Joey said, wheeling away from her and yanking open the door of the foyer closet with such force that she thought he would tear it off its hinges. Evidently, the hero was accustomed to encounters of this nature. He

rose, pulled out the unused fourth chair. "Please sit with us." He still had a sour taste in his mouth, although it was not as disgusting as it had been. All the odors were wonderfully clean and bracing--antiseptics, floor wax, freshly laundered bedsheets--without a whiff of. ISBN 0-15-100561-3 I. Fantasy fiction, American, [I. Fantasy. 2. Short stories.] I. Title.. Agnes remembered the blood, the awful red flood. Excruciating pain and such fearsome crimson torrents. She'd thought her baby had entered the world stillborn on a tide of its own blood and hers.. The voice had come not from the armchair in the corner, but from immediately beside the bed.. Halted by the unmistakable meaning of the expressions on these women's faces, Paul was grateful that Nellie was briefly stricken mute. He didn't believe he had the strength to receive the news that she had tried to deliver.. On the short return trip to the ophthalmologist, Agnes crazily considered driving past Chan's office building, cruising onward--ever onward--into the sparkling December night, not just back to Bright Beach, where the bad news would simply come by phone, but to places so far away that the diagnosis could never catch up to them, where the disease would remain unnamed and therefore would have no power over Barty.. As he entered, the visitor's back was to Junior, and he moved toward the table, where dead Victoria sat with her head on her folded arms. She looked for all the world as though she were just resting.. The full nature of the nightmare continued to elude him, but he became convinced that good reason for his fear existed, that the dream had been more than a dream. He had a nemesis named Bartholomew not merely in dreams, but in the real world, and this Bartholomew had something to do with ... babies.. Neither hesitantly nor recklessly, the boy set off across the lawn toward the porch steps. He maintained a far straighter line than Agnes would have been able to keep with her eyes closed.. He slapped her hands, knocking the sharpener and the pencil out of her grasp. They clattered against the window, fell onto the window-seat cushions.. At best, Vanadium might decide Junior had come here to learn what other funeral his nemesis had attended--which was, in fact, the true motivation. But this made it clear that Junior feared him and was striving to stay one step ahead of him. Innocent men didn't go to such length. As far as the fruitcake cop was concerned, Junior might as well have painted I killed Naomi on his forehead.. Bellini assured Celestina that they didn't expect Enoch Cain to be so brazen as to follow police vehicles and to renew his assault on her at St. Mary's. Nevertheless, he assigned a uniformed police officer to the hall outside of the waiting room that served friends and family of the patients in the intensive-care unit. And judging by that guard's high level of vigilance, Bellini had not entirely ruled out the possibility that Cain might show up here to finish what he started in Pacific Heights.. Rescuers encouraged her to move safely away from the passenger's door, as far as possible, to avoid being inadvertently injured as they tried to break in to her. She could go nowhere but to her dead husband.. Dressed entirely in a shade of pink that darkened to rouge when wet, Angel squealed and deserted Barty. Spotted-streaked-splashed, with false tears on her cheeks, with a darkly glimmering crown of rain jewels in her hair, she raced up the steps as though she were a princess abandoned by her coachman, and allowed herself to be scooped into her grandmother's arms.. Neither Agnes nor Edom knew of Jacob's great skill with cards. He had been discreet about his apprenticeship with Obadiah, and for almost twenty years, he'd resisted the urge to dazzle his siblings with his expertise.. He hurried the length of the diner, pushing past waitresses, checking out all three of the possibilities, but of course, none of them was the dead detective--or anyone else Junior had ever seen before. He was looking for--what?--a ghost, but vengeful ghosts didn't sit down to a meat-loaf lunch in the middle of a hauntin.. Reverend White's murder received significant coverage throughout the nation, especially in West Coast papers, because of its perceived racial motivation and because it involved the burning of a parsonage.. One detail. One only. It was a crucial detail, however, one that she absolutely must confirm before she left St. Mary's, even if she would be required to look at the child once more, this spawn of violence, this killer of her sister.. "Jacob scares people," Agnes said. "No one would eat a pie that Jacob delivered without having it tested at a lab." The instant he flipped the coin, he opened both hands--palms up, fingers spread--with a distracting flourish.. But he was more than she had ever imagined her boy to be, more than merely a prodigy.. When Celestina first entered his ICU cubicle, the sight of his face scared her in spite of the surgeon's assurances. Gray, he was, and sunken-cheeked--as though this were the eighteenth century and so many medicinal leeches had been applied to him that too much of his essential substance had been sucked out.. She appeared to be in her early thirties, perhaps six years older than Junior, but he didn't hold that against her. He wasn't any more prejudiced against older people than he was against people of other races and ethnic origins.. At first, he couldn't gather the nerve to return to the kitchen. He was crazily certain that in his absence, the dead detective would have risen and would be waiting for him.. He lived high, on Russian Hill, in a limestone-clad building with carved Victorian detail. His one-bedroom unit included a roomy kitchen with breakfast nook and a spacious living room with windows looking down on twisty Lombard Street.. As terrible as the situation was for Barty, Agnes knew that it was equally difficult for Paul. She could only hold him in the night, and let herself be held. And more than once, she told him, "If worse comes to worst, don't you go walking again." He backed toward the hall door, watching as the fire spread. After lingering until certain that the house would soon be a seething pyre, he finally sprinted along the hall to the front door.. Tammy--the stock analyst, broker, and cat-food-eating feline fetishist--whom he had dated from Christmas of '65 through February of '66, had given him the timepiece in return for all the trading commissions and perfect sex that he had given her.. They were childless. It had to be that way. Truthfully, Paul felt no regrets about missing out on fatherhood. Because they were a family of two, they were closer than they might have been if fate had made children possible, and he treasured their relationship.. "Will I love you tomorrow, you mean, and the day after tomorrow, and on forever? Of course, forever, Wally, always." Jacob's mentor had been a man named Obadiah Sepharad. They had met when Jacob was eighteen, during a period when he'd been committed to a psychiatric ward for a short time, his eccentricity having been briefly mistaken for something worse.. Agnes's big brother by six years, Edom had lived in one of the two apartments above the large detached garage, behind the main house, since he was twenty-five, when he'd

left the working world. He was now thirty-six..Shaking the ravaged khakis at him, she said, "Then what made such a mess of these?.At eleven o'clock Saturday morning, having just settled in the hotel after arriving from St. Mary's, they were waiting for the SFPD to deliver suitcases of clothes and toiletries that Rena Moller, Celestina's neighbor, had packed according to her instructions. While waiting, the three of them took an early lunch-or a late breakfast-at a room service table in the living room..Her hands shook, her entire body shook, and in her mind was a hard clatter of fear like the wheels of a roller coaster rattling over poorly seamed tracks..Celestina, standing next to Agnes, put an arm around her waist, as perhaps she had once been in the habit of doing with her sister..During those spells when she was too shaky to draw, she stood at the window, gazing at the storied city..Hope, on many wings, hovered all around the physician, but he was afraid to let it roost.."I sure think so. I think she's everything. I tell her she's the moon and stars. I'm probably spoiling her rotten."."Done," Agnes said. "Now put away the three dollars, and let's have our lesson before my water breaks."Edom removed two of the pies from the table and put them on the counter near the ovens..Curiously, reciting these facts usually calmed him, as though speaking of disaster would ward it off. Since Friday, however, he had found no comfort in his usual routines..Celestina turned in her seat to look back at Wally and Angel, who were waving. "I guess I am."IN NEED OF OIL, the hand crank squeaked, but the tall halves of the casement window parted and opened outward into the alleyway.
