Critical judgments are so complex (and take place in such a complicated context), the vocabulary of praise and blame available in English is so vague, so fluid, and so constantly shifting, and the physical space allowed is so small that critics welcome any way of expressing judgments that will be both precise and compact. I blew out a lungful of smoke. "I wonder what he wanted," I said. Variety of problems with your ship such as invasion by mind-warping beings, power-system failure, and problem is cars. And in the only two other real space emergencies since that time, all hands were lost." She turned and scowled at each of them in turn. He fumbled for the bottle beside the bed, gripping it with a sweaty hand. His entire body was wet and clammy, and his fingers shook as they unscrewed the cap. For a moment Nolan wondered if he was coming down with another bout of fever. Then, as the harsh heat of the rum scalded his stomach, he realized the truth. She was blonder and more beautiful than he'd remembered, more loving and tender than he'd ever known her to be, and in the union that was their reunion Nolan found fulfillment. Of course there was none of the avid hunger of Nina's coiling caresses, none of the mindless thrashing to final frenzy. But it didn't matter; the two of them were together at last.
