me as if from below, so that I floated across the void and was set down softly on a white surface, only in dying life: so much before. Could they be flying columns? People were hurrying toward it from all weatherworking, and even healing, because they held no fear, no challenge to him. He saw no virtue town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge. So Diamond, instead of learning spells and illusions and transformations and all such gaudy tricks, as Hemlock called them, sat in a narrow room at the back of the wizard's narrow house on a narrow back street of the old city, memorizing long, long lists of words, words of power in the Language of the Making. Plants and parts of plants and animals and parts of animals and islands and parts of islands, parts of ships, parts of the human body. The words never made sense, never made sentences, only lists. Long, long lists. put her face in her hands. There was an uncomfortable silence, as the Doorkeeper did not speak. At last a slight, bright-eyed and your fiefdom on Hosk, the greatest navy the world has seen! I shall lead them. And the glory. Her mother Ayo and her mother's sister Mead were wise women. They healed Otter as best they could with warm oils and massage, herbs and chants. They talked to him and listened when he talked. Neither of them had any doubt but that he was a man of great power. He denied this. "I could have done nothing without your daughter," he said. The witch emerged with a soapstone drop-spindle and a ball of greasy wool. She sat down on the mourned him. Then, because here was dismay among us, and all my patterns spoke of change and windows, no wheels, not even lights, and careered as though blindly, at tremendous speed. He knew also that in that same moment he might defeat Gelluk, disempower him, if crows are flying early and the hound's after the otter," he said. LANGUAGES. The Creation of Ea contains no clear references to an original unity and eventual separation of dragons and humans, but this may be because the poem in its presumed original form, in the Language of the Making, dated back to a time before the separation. The best evidence in the poem for the common origin of dragons and humans is the archaic Hardic word in it that is commonly understood as "people" or "human beings," *alath*. This word is by etymology (from the True Runes *Atl* and *Htha*) "word-beings," "those who say words," and therefore could mean, or include, dragons. Sometimes the word used is *alherath*, "true-word-beings," "those who say true words," speakers of the True Speech. This could mean human wizards, or dragons, or both. In the arcane Lore of Paln, it is said, that word is used to mean both wizard and dragon. agreeing to end the enmity of their races. "I could teach you how to do that for yourself," the wizard said, smiling, watching Otter rub and for them. But when some of the young men started after them, there was no path. act of doing things well. The school was founded in about 650, as described above. The Nine Masters or master-teachers of a peaceful one, and ate what the Master Patterner brought her in his basket - eggs, cheese. At that the Changer looked at him, and after pondering said soberly, "Doorkeeper, what have you in him; he had the lead. But Early could follow the lead, and if his own powers were not enough he. He thought what he must do, and how he must do it. He wasn't sure whether he had summoned her or she had come of her own will; he didn't know how she had spoken the word of the Old Tongue to him or through him. He didn't know what he was doing, or what she was doing, and he was almost certain that the working of any spell would rouse Gelluk. But at last, rashly, and in dread, for such spells were a mere rumor among those who had taught him his sorcery, he summoned the woman in the stone tower. "Now you," Diamond said to Rose, and she started to do what he had done, but the rock only twitched a little. "Oh," she whispered, "there's your dad." "So?" said the Namer, more drily. She stood with the little oil lamp in her hand, and the light of it shone red between her fingers and golden on her face. He said her name. She gave him sleep. But he made no spell. He had no magic left in him. It was gone, run out of him into this terrible hill, into the terrible ground under him, gone. He was no wizard, only a man like the others, powerless. "Your majesty is sending forth his fleets," Early said to the staring old man in the armchair in the palace of the kings. A hundred ships will sail from the Great Port, from Omer and South Port and your fiefdom on Hosk, the greatest navy the world has seen! I shall lead them. And the glory will be yours," he said, with an open laugh, so that Losen stared at him in a kind of horror, finally beginning to understand who was the master, who the slave. always took her by surprise. He would rather have dealt dirt, rock, water. The air was cool and still. Away from the dripping of the stream it was silent. None of the mages answered him. In the silence, the men with him murmured, and a voice among them fighting against them, and at last crying out one other word. Then the man Ayeth crouched there, green hill. He woke with the vision still clear in his mind, knowing he had seen it ten years. "Well, and afterward?" Doorkeeper looked round, and now his smile was wider. Though he said nothing, she felt he was. The next day she said, "I'm going to sit under the trees." "Mercy," whispered Gift. She had not sewn a stitch since he began. A globe of misty, greenish fire drifted swiftly down the corridor at eye level, apparently pursuing the young man. The Doorkeeper waved his hand at it, and it avoided him. Irian swerved and ducked down frantically, but felt the cool fire tingle in her hair as it passed over her. The Doorkeeper looked round, and now his smile was wider. Though he said nothing, she felt he was aware of her, concerned for her. She stood up and followed him. you'll be paid well. He ran down from the straggle of huts to the quick, noisy stream he had heard singing through his sleep all his nights in Woodedge. He prayed to it. "Take me and save me," he asked it. He made the spell the old Changer had taught him long ago, and said the word of transformation. Then no man knelt by the loud-running water, but an otter slipped into it and was gone. She walked, slow but purposeful, down one of the tracks, and he went with her, a hand on her hip when the way was wide enough. When she waded a knee-deep stream, he held on to her tail.
