The wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And Hemlock was invited to his nameday party the year after, a big party, beer and food for all, and new clothes, a shirt or skirt or shift for every child, which was an old custom in the West of Havnor, and dancing on the village green in the warm autumn evening. Diamond had many friends, all the boys his age in town and all the girls too. The young people danced, and some of them had a bit too much beer, but nobody misbehaved very badly, and it was a merry and memorable night. The next morning Golden told his son again that he must think about being a man..After a long time, she came back to the sunlight and the stableyard and her thoughts and puzzles..up most of his mind, and most of what we have. So, do you see, put up your money where he won't."I have to have a single heart. I can't play the harp while I'm bargaining with a mule-breeder. I can't sing ballads while I'm figuring what we have to pay the pickers to keep 'em from hiring out to Lowbough!" His voice shook a little now, a vibrato, and his eyes were not sad, but angry..Grove they were all of one kind, which grew nowhere else, yet had no name in Hardic but "tree"

Rivers and streams cut their way seaward through that high plain, winding and pooling, spreading and wandering, making a marsh of it, a big, desolate, waterland with a far horizon, few trees, not many people. And after a longer pause.,Queen Heru, called the Eagle, inherited the throne from her father, Denggemal of the House of Ilien. Her consort Aiman was of the House of Morred. When she had ruled thirty years she gave the crown to their son Maharion..to go into his mind, in the way he had learned from Gelluk long ago, when Gelluk was a true master.As mountains will, Andanden makes the weather. It gathers clouds around it. The summer is short, the winter long, out on the high marsh..It was far more convenient to him that Losen should be king than that he himself should rule.BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end..The fashion of the time among the nobility was to have a wizard in their service, a genuine wizard with a staff and a grey cloak, trained on the Isle of the Wise, and so the Master of Iria of Westpool got himself a wizard from Roke. He was surprised how easy it was to get one, if you paid the price..Irian stepped forward before the Doorkeeper could answer..but present, smiling, dancing. All his childhood friends were there too, half of them married by.Ayeth's stare grew more insolent as he watched Irioth stammer. The double heart has."In my judgment, you do," he said..The Doorkeeper bowed his head a little. A very faint smile made crescent curves in his cheeks. He."Your Rose is a wise flower," said the mage, unsmiling..As the dim light that came into the room from chinks in the mortar of the bricked-up window died away, instead of sinking into the blank misery of all his nights in that room, he stayed awake, and grew more awake. The excited turmoil of his mind all the time he had been with Gelluk slowly quieted. From it something rose, coming close, coming clear, the image he had seen down in the mine, shadowy yet distinct: the slave in the high vault of the tower, that woman with empty breasts and festered eyes, who spat the spittle that ran from her poisoned mouth, and wiped her mouth, and stood waiting to die. She had looked at him..immensely dangerous.
