

PARODIES OF THE WORKS OF ENGLISH AMERICAN AUTHORS VOLUME V1

"Gone?" I sat bolt upright. A wave of dizziness knocked me flat again. "How can she be gone?" I called Amaada later. I expected to find her herself, yesterday already forgotten, but she still sounded anxious. "Matthew, can you come up?" slouch. Lorraine played dismally but she didn't seem to mind..213.Now do not get the idea that everyone here is simply sitting around playing Zorphwar. That is far from the case. While our schedules have slipped a bit in the last couple of months, morale is at an all-time high. With a crew of satisfied programmers, I feel there is nothing we cannot accomplish..were led to the brig.."The Organizer can take care of himself." Fallows sat back in his chair and cast a routine eye around the monitor room. Everything seemed to be running smoothly at the crew stations beyond the glass partition behind his console, and the other displays confirmed that all else was as it should be. The reserve tank to Number 2 vernier motor had been recharged after a slight course-correction earlier and was checking out at "Ready" again. All the fuel, coolant, primary and standby power, hydraulic, pneumatic, gas, oil, life-support, and instrumentation subsystems servicing the Drive Section were performing well within limits. Way back near the tail, the banks of gigantic fusion reactors were gobbling up the 35 million tons of hydrogen that had been magnetically ram scooped out of space throughout the twenty-year voyage and converting over two tons of its mass into energy every second to produce the awesome, 1.5-mile-diameter blast of radiation and reaction products that would have to burn for six months to slow the 140-million-ton mass of the Mayflower II down from its free-cruise velocity.."That's what you feel like," said Amos. "Not what you look like. I want to know how I would recognize you if I saw you walking quietly down the street toward me when you were off duty." creature? Crawford had thought of no better way to describe it. Each of the plastic spikes had blossomed into a fanciful windmill, no two of them just alike. There were tiny ones, with the vanes parallel to the ground and no more than ten centimeters tall. There were derricks of spidery plastic struts that would not have looked too out of place on a Kansas farm. Some of them were five meters high. They came in all colors and many configurations, but all had vanes covered with a transparent film like cellophane, and all were spinning into colorful blurs in the stiff Martian breeze. Crawford thought of an industrial park built by gnomes. He could almost see them trudging through the spinning wheels..?I?I'll certainly try it," Barry promised. They and Maurice are... were thick as thieves."..187.The package comes later, along with a stiff legal letter from a firm of attorneys. The captain's voice is going up the scale, becoming a shriek, and filled though I am with terror of the Sreen, I am also caught up in fierce admiration for my superior officer. He may be a suicidal fool to refuse to accept the situation, but there is passion in his foolishness, and it is an infectious passion. "How dare they treat us this way? What do they mean, ordering us to go home and stay there because they own the universe?"..She grimaced. "No need to panic. It's not an emergency. I'm licensed."..The next morning I staggered out of bed at 6 A.M. I took a cold shower, shaved, dressed, and put."That is not much for true friendship," said Amos..explain! is one of the ghastly facts of American education. Some defenses against this experience take the form of asserting there's no such thing as great art; some, that whatever moves one intensely is great art. Both are ways of asserting the primacy and authenticity of one's own experience, and that's fine. But whatever you (or I) like intensely isn't, just because of that, great anything, and the literary canon, although incomplete and biased, is not merely an insider's snobbish conspiracy to make outsiders feel rotten.
