There's no use complaining. Life goes on, as they say." He lost his balance and toppled over. His arms flailed for equilibrium, but never found it He struck. quick feeling she's scared too. "I See You" is the first new Damon Knight story in many years; it was the feature story in FASFs special Damon Knight issue (November 1976). As might be expected, it is a totally fresh piece of work and it shines with quality. Damon says of it: "You may think it is a short story, but it is really a novel on the plan of A for Anything and Hell's Pavement, only much compressed. i. "You must obey the edict of the Sreen," the Intermediaries have told us repeatedly, "there is no appeal," but the captain won't hear of it, not for a moment. He draws himself up to his full height of two meters and looms threateningly over the four or five Intermediaries, who are, after all, small and not particularly substantial-looking beings, mere wisps of translucent flesh through which their bluish skeletal structures and pulsing organs can be seen.. The plastic strips don't cut well, but there's another specialized animal that eats that type of plastic. It's recycled into the system. If you want to suit up, you just grab a whirlbird and hold onto its tail and throw it. It starts spinning as it flies, and wraps the end product around you. It takes some practice, but it works. The stuff sticks to itself, but not to us. So you spin several layers, letting each one dry, then hook up an airberry, and you're inflated and insulated." The cottage in the clearing was still except for a breath of song, wordless and longing, that floated on the air. It was Hinda's voice, and when the hunter heard it he smiled for she was singing tunes he had taught her..Smith reached for the phone and punched McCranie's number..The ground between the windmills was coated in shimmering plastic. This was the second part of the plants' ingenious solution to sur-timer that would allow him to stop a scene, or advance or regress it at any desired rate. He ordered. "Curses," said the grey man, "but you're right." He took from his pocket a strip of crimson cloth with orange design, went to the trunk and lowered it through a small round hole in the top. As the last of it dropped from sight, the thing in the box went: Mlpbgrm!.and continues, in a similar vein, for another one hundred thirty-six stanzas.) Amanda laced and unlaced her fingers in her lap. "In the past there's sometimes been reason for her. but I've also seen her perform worse and still come off the stage happy..The scene outside was deceptively quiet as Colman lifted a flap and peered out, keeping his head well back from the edge of the canopy. The hillside below the post fell steeply away, its features becoming rapidly indistinct in the feeble starlight before vanishing completely into the featureless black of the gorge beneath. There was no moon, and the sky was clear as crystal. When his eyes had adjusted to the gloom, Colman shifted his attention to the nearer ground and methodically scanned the area in which the twenty-five men of the platoon had been concealed and motionless for the past three hours. If they had undercut their foxholes and weapons pits the way he had shown them and made proper use of the rocks and vegetation, they would stand a good chance of escaping detection. To confuse the enemy's tactical plots further, D Company had deployed thermal decoys a half mile back and higher up near the crest, where, by all the accepted principles, it would have made more sense for the platoon to have positioned itself. Auto timed to turn on and off in a random sequence to simulate movement, the decoys had been drawing sporadic fire for much of the night while the platoon had drawn none, which seemed to say something about the value of "the book" as rewritten by Staff Sergeant Colman. "There are two ways to do anything," he told the recruits. "The Army way and the wrong way. There isn't any other way. So when I tell you to do something the Army way, what does it mean?". Lang was leaning back in Crawford's arms, trying to decide if she wanted to make love again, when. He had phoned me about ten after five. I had found the body at seven. "Awhile," I said. Jain, will you love me if I don't?. She was nothing if not honest. In the succeeding mornings, if I ran too slowly, she simply left me behind. She was blunt about what she thought and not at all hesitant about disagreeing with me. Still, there was no verbal swordplay and no pretense about her, which was as attractive in its way as Amanda's charming acquiescence. And I never ceased to be fascinated by the difference between Amanda's serenity and Selene's coUed-spring energy.. Amos and Jack climbed long and hard through the evening. When darkness fell, at first they thought. The Podkayne was lowered to the ground, and sadly decommissioned. It was a bad day for Mary. 11. "Exactly." She squinted across the vast tasteful expanse of Party-land, then stood up and waved. "I think I've recognized someone," she said excitedly, preening her paper feathers with her free hand. Far away, someone waved back.. Amanda sobbed. "I'm going to kill you, Selene. Sooner or later, I'll kill you." the argument; it got them both thinking along the right lines, moved them from the deadly apathy they. "I said," the prince cried back, "look at the moon!". "Oh, my nearest and dearest friend," said the grey man, "I had almost forgotten you. Forgive me." He took from his pocket an envelope, and from the envelope he took a large, fluttering moth. "This flew in my window last night," he said. The wings were pale blue, with brown bands on the edges, and the undersides were flecked with spots of gold. He pushed in a long metal flap at the side of the

trunk, very like a mail slot, and slid the moth inside..mirror..the old woman.
