"So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep you safe. To keep you with the mule-breeders, and the nut-pickers, and these." She struck the ledger full of lists of names and figures, a flicking, dismissive tap. "A spell of silence," she said. Licky did not take him into the roaster tower, but back to the barracks. From a locked room he. He stood up, suddenly, as he always did. "Take me there," he said, trying to control himself, but so violently compelling Otter to get up and walk that the young man lurched to his feet and stumbled several steps, almost falling. Then he walked forward, stiff and awkward, trying not to resist the coercive, passionate will that hurried his steps. In the evening he lay down on the ground and talked to it. "You should have told me, I could have. Anieb kept a better pace than seemed possible in a woman so famished and destroyed, walking almost naked in the chill of the rain. All her will was aimed on walking forward; she had nothing else in her mind, not him, not anything. But she was there bodily with him, and he felt her presence as keenly and strangely as when she had come to his summoning. The rain ran down her naked head and body. He made her stop to put on his shirt. He was ashamed of it, for it was filthy, he having worn it all these weeks. She let him pull it over her head and then walked right on. She could not go quickly, but she went steadily, her eyes fixed on the faint cart track they followed, till the night came early under the rain clouds, and they could not see where to set their feet. want to stay alive. I'll see that you're sent there. If you'll go." Though not a sorcerer, Licky was a much more formidable man than Hound. Yet like Hound he was brutal not cruel. He demanded obedience, but nothing else. Otter had seen slaves and their masters all his life in the shipyards of Havnor, and knew he was fortunate. At least in daylight, when Licky was his master. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and re woven by the wise women of the island, and had no commerce with any other people. Dragonfly looked about at the sights of the city in a silence that might have been awe or disapproval or mere stolidity. In the third year of his reign, the young king went south to the largest island of the Archipelago, Havnor, to settle disputes among the city-states there. Returning in his "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady of Solea, "in the orchards in the spring." He did not continue on to Enlad, but stayed with Elfarran. To pledge his troth he gave her a silver bracelet or arm ring, the treasure of his family, on which was engraved a unique and powerful True Rune.. The wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And Hemlock was invited to his nameday party the year after, a big party, beer and food for all, and new clothes, a shirt or skirt or shift for every child, which was an old custom in the West of Havnor, and dancing on the village green in the warm autumn evening. Diamond had many friends, all the boys his age in town and all the girls too. The young people danced, and some of them had a bit too much beer, but nobody misbehaved very badly, and it was a merry and memorable night. The next morning Golden told his son again that he must think about being a man..drank from it eagerly yet warily, as if long unaccustomed to hot soup..Most people of the Archipelago have brown or red-brown skin, black straight hair, and dark eyes; the predominant body type is short, slender, small-boned, but fairly

Most Archipelagan men have little or no facial hair. They're coming," the Doorkeeper said. Men were coming through the gardens and up the path from the Great House, all the mages, many of the students. Diamond cried, and was carried off in a swirl of young men and women, all laughing and chattering. "Don't you understand?" he said, exasperated with her for not understanding, because he had not. She asked nothing and he said no more. Presently he got up, and she followed him to the path that always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's House. When they came there, it was late afternoon. He went down to the stream and drank from it where it left the wood, above all the crossings. She did the same. Then sitting in the cool, long grass of the bank, he began to speak. "We could find no trace of him. No doubt he changed himself to a bird or a fish when he left Roke, the lawn.
