It has to be cultivated on its own terms, and kept under control -- learned and.Otter pointed at the low slope that rose before them. "The King's House is there," he said. Gelluk's attention turned entirely away from him then, fixed on the hillside and the vision he saw within it. Then Otter could call to Anieb. At once she came into his mind and being, and was there with him..speech was also strange, stiff and somehow deformed. "Silence is the answer to everything, and to.They kept him safe. Maybe that is why the people there now call their village not Woodedge, as it.The young man slept on a pallet under the little west window of Dulse's house for three years. He learned wizardry, fed the chickens, milked the cow. He suggested, once, that Dulse keep goats. He had not said anything for a week or so, a cold, wet week of autumn. He said, "You might keep some goats."..Still it rankled him that Diamond had let him down flat, without a word of thanks or apology. So much for good manners, he thought..dumbstruck, and they prattled on; suddenly it seemed to me that from the darkness above the."Our problem is with men," Veil said, "if you'll forgive me, dear brother. It's a difficult thing.They let him walk among them, wild as they were and having had nothing from men's hands but castration and butchery. He had a pleasure in their trust in him, a pride in it. He should not, but he did. If he wanted to touch one of the great beasts he had only to stand and speak to it a little while in the language of those who do not speak. "Ulla," he said, naming them. "Ellu. Ellua." They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one came to him with its easy, loose, majestic tread, and breathed into his open palm. All those that came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck, and sent the healing into his hands with the words of power spoken over and over. After a while the beast would give a shake, or toss its head a bit, or step on. And he would drop his hands and stand there, drained and blank, for a while. Then there would be another one, big, curious, shyly bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, a dizziness. "Ellu," he would say, and walk to the beast and lay his hands upon it until they felt cool, as if a mountain stream ran through them..great strength flow into him from the west, as if Silence had taken him by the hand after all.. "Not till you'd come to Oraby, a ten-twelve miles on south." She considered only briefly. "If you need a room for the night, I have one. Or San might, if you're going to the village."..consulting her every time Diamond had a hangnail, and telling her more than she or anyone ought to."Irian," he said, and now her name came easily, sweet and cool as spring water in his dry mouth. "Irian, here's what you must do to enter the Great House..."..they could, seeing him as the source of the worst evils they suffered, a malign being. It might not be what and looked very much a man, though a very young one. If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and plans of training him in the business, and having him help in expanding the carting route to a regular trade with South Port, and buying up the chestnut forests above Reche -- all such plans dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden all but floated up the stairs himself, borne on such visions. "But I will come, master!" he said. And then after a pause, "How soon?" And after a longer pause, he told the air something in a language the ship's captain did not understand, and made a gesture that darkened the air about him for an instant. lengthened a day by five hours, though he could not, as he had sworn to do, stop the sun at noon. cigarette from my pocket and lit it. Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room where the lorebooks and wordbooks were, or asleep. Hemlock was a stickler for early abed and early afoot. But now and then Diamond had an hour or two free. He always went down to the docks and sat on a pierside or a waterstair and thought about Darkrose. As soon as he was out of the house and away from Master Hemlock, he began to think about Darkrose, and went on thinking about her and very little else. It surprised him a little. He thought he ought to be homesick, to think about his mother. He did think about his mother quite often, and often was homesick, lying on his cot in his bare and narrow little room after a scanty supper of cold pea-porridge -- for this wizard, at least, did not live in such luxury as Golden had imagined. Diamond never thought about Darkrose, nights. He thought of his mother, or of sunny rooms and hot food, or a tune would come into his head and he would practice it mentally on the harp in his mind, and so drift off to sleep. Darkrose would come to his mind only when he was down at the docks, staring out at the water of the harbor, the piers, the fishing boats, only when he was outdoors and away from Hemlock and his house. Often her mind here seemed empty of thought, full of the forest itself, but this day memories came. was lucky. I learned my lesson young. He had not known how tired he was until he came to haven.
