the motor home. Grinning, wagging her tail, aware that she's the hero of the hour, she turns left and trots. "She's coming down to the surface later this evening to pick up some papers and things from the house after it's dark. But she'll be under escort. We've worked out a plan, but it needs someone to get me into the house first, before they arrive, and to get her away afterward. He has no guardian but himself, no.He was satisfied that the Chironians would never provoke hostilities because they harbored no fears of Terrans and accepted them readily, as everything since the ship's arrival had amply demonstrated. They didn't consider the way Terrans chose to live to be any of their business, wouldn't allow their own way of life to be influenced, and weren't bothered by the prospect of having to compete for resources because in their view resources were as good as infinite. But he felt less reassured about the Terrans- at least some of them. Kalens was still making inflammatory speeches and commanding a substantial following, and Judge Fulmire was under attack from some outraged quarters for having refused to reverse the decision not to prosecute in the case of the Wilson shooting. And more recently, Pernak had heard stories from the Chironians about Terrans who sounded like plainclothes military intelligence people circulating in Franklin and asking questions that seemed aimed at identifying Chironians with extreme views, grudges or resentments, and strong personalities-in other words the kind who typified the classical recruits for agitators or protest organizers. The effort had not been very successful since the Chironians had been more amused than interested, but the fact remained that somebody seemed to be exploring the potential for fomenting unrest among the Chironians. The probable reason didn't require much guesswork; Earth's political history was riddled with instances of authorities provoking disturbances deliberately in order to justify tough responses in the eyes of their own people. If some faction, and presumably a fairly powerful one, was indeed maneuvering to bring.of sassy and the wrong kind was tricky, but if you pulled it off, you would never leave them thinking..Her pen paused on the downswing of the l in Farrel, and when she raised her head to look at Noah, her.collections of science-fiction action figures and models of ornate but improbable spaceships. Sirocco ordered most of the D Company personnel to secure the block against intruders and cordoned off the routes past it toward the outside. He sent Colman with a mixed detachment from Second and Third platoons to aid in whatever way they saw fit. They quickly encountered a squad of SD's who took them in tow to the west gate, a small side entrance to the campus, which was where the action was supposed to be. Colman wanted to post sentries around the motor pool, where several cargo aircraft brought down from the Mayflower II were parked, but he was outranked and told that another SD unit was securing that. Then all the lights went out. give a rat's ass whether it was poisonous or not, because it could have changed her life if it had gotten. "It's a klutz," Adam said wearily. "But . . . you can't hope to run a whole planet like that," Bernard protested after a few seconds' astonishment. "I mean, I know that right now your productivity must be enormous compared to your population, but the population is growing fast. You've got to start thinking about some kind of . . . system to regulate things. Your resources are only finite." Garfield Wellesley finished spreading liver pate on a finger of toast and looked up. "What about that character in Selene who claimed he was planetary governor and offered to receive us? What happened to him?" Celia smiled over her glass. "Thank you. It's rare to find such appreciation." Fierce as she has never been before, Old Yeller lunges toward the woman. Snarling, snapping, foaming. "Theoretically, I guess, yes, it would," Colman had agreed. If he had acted responsibly all those years ago, when she was twelve and he was sixteen, if he'd had the pie-baking neighbors, all you would get for trying to charm a snake was your eye on the end of a fang. might simply have absorbed Curtis's mood. Colman nodded. "I guess so. I'll probably be asleep when you come off duty. Better give me a call." Yesterday, in this yard, as Micky had broiled on the lounge chair, amused and a little disoriented by her. Colman nodded. "To start with, anyhow. Then, I guess, it's a case of how well you make out. "Bad news," Colman hissed through his teeth. "Just keep talking. Don't look round." That touched at what was really at the bottom of it all. The unspoken suggestion, which Kalens had been implying and to which everybody had been responding though few would have admitted it openly, was that the entire social edifice upon which all their interests depended was threatening to fall apart, and the real attraction of an enclave within a well-defined boundary was More to deter Terrans' leaving than bomb-carrying Chironians' entering. Now that Kalens had come as close as any would dare to voicing what was at the back of all their minds, all the lobbies and factions stood behind him, and Wellesley knew it. If Wellesley opposed, he stood to be voted out of office. So, he concurred, and the resolution was passed all but unanimously. asking. It was white, like marble, and waxy. He swallowed and stared woodenly. The Chironian's eyes flickered briefly across his face. "Someone you knew?". And then the three Special Duty troopers leaving the Bowery stopped to see what was going on, giving Padawski the excuse that he needed. "Let's get out of here," he

said. The trio swaggered toward the door and Hanlon moved in, then stepped aside. Padawski stopped in the doorway and half turned to throw a malevolent look back at Colman. "Some other time.
