

OF LONDON STRANGE STORIES SCENES AND REMARKABLE PERSONS OF THE G

These kings and queens had some knowledge of the Old Speech and of magery. Some of them were certainly wizards, or had wizards to advise or help them. But magic in The Deed of Enlad is an erratic force, not to be relied on. Morred was the first man, and the first king, to be called Mage..him to her in the evenings. But she taught Otter more than the song of the Creation. She knew his..She looked round, and he looked up. Both knew that Gelluk had sensed something, had wakened. Otter felt the bonds close and tighten, and the old shadow fall.."Asleep." Azver nodded towards where she lay, curled up in the grass above the little falls.."But then came the dragon, Kalessin, bearing him living..house than the men of the Marsh. He was easy to talk with, and she told him about the curer, since..young man whom he had taught to read had become his unfathomable guide.."Tell them-tell them I was wrong," Irioth said. "Tell them I did wrong. Tell Thorion-" He halted, confused..philosophical, visionary, and spiritual poetry, and love songs. The deeds and lays are usually..All the way down the spinning, reeking stone stairs he talked, and Otter tried to understand, because this was a man of power telling him what power was..What she had on was all in large eyes, peacock eyes, and the eyes blinked. It was no illusion --..brought me to her place at this hour.."They may be friends. Did I say it was an easy life?" A pause. Hemlock looked directly at Diamond. "There was a girl," he said..each other directly, as there was no room for their knees. At O Port she had bought herself a..The great guilds, since their network covers all the Inner Lands, answer to no overlord or..what to do. It was in no tongue of man that he said, "Be quiet, be easy. There now, there. Hold." "I didn't understand," Irioth said, "about the others. That they are other. We are all other. We..way to come. And you have no wizards in the Kargish lands, I think.."The witch listened, unable to resist the lure of secrets revealed and the contagion of passionate.."Father, I don't want a party," Diamond said and stood up, shivering his muscles like a horse. He was bigger than Golden now, and when he moved abruptly it was startling. "I'll go to Easthill," he said, and left the room..never practiced it, but he could see that the young fellow had the gift. "I will," he said, and set to it.."It won't do," he said, talking to himself in Hardic, and then he said, "I can't do it." Then he said, "I can't do it by myself.."Avert!" Irian blurted out, making the sign to prevent word from becoming deed. I'm after bigger prey.."When (in the year 440, by Hardic count) Erreth-Akbe came to make peace between the Archipelago and the Kargad Lands, bearing the Bond Ring as pledge of his king's sincerity, he came to Hupun as the capital of the Kargad Empire and treated with King Thoreg as its ruler..prentice or a witch? Power like that shouldn't go wandering about unchannelled and unsignalled..At first he was overwhelmed with fierce fantasies of power and revenge: he would free the slaves, he would spellbind Gelluk and hurl him into the refining fire, he would bind him and blind him and leave him to breathe the fumes of quicksilver in that highest vault till he died... But when his thoughts settled down and began to run clearer, he knew that he could not defeat a wizard of great craft and power, even if that wizard was mad. If he had any hope it was to play on his madness, and lead the wizard to defeat himself..This will end badly, I thought. I was defenseless, and the lions were as alive, as authentic..Sail home to the houses of the sunrise, Hasa..heifer follows him about like a puppy." When she could see clearly she saw a path leading from the door through..They came out again among the ploughlands and pastures in the warm evening. As they walked back to their camping place he saw the four stars of the Forge come out above the western hills..quick woman, with a round face and clear eyes, and a mass of dark hair, not straight like most..whale's.."You have a gift for the business," Crow said. A great, desolate anger swelled up in him. There was no good, no good in anything..She closed her eyes in bliss and listened..I am doing the wrong, I am the ill, Irioth thought. He stopped the spell words in his mouth..HOUND STAYED IN ENDLANE. He could make a living as a finder there, and he liked the tavern, and Otter's mother's hospitality..father said, "Diamond," diamond being in his estimation the one thing more precious than gold.."He won't be angry? They say wizards have short tempers. Full of pride.."He met there a mage, an old man called

Highdrake, whose true name has been lost. When Highdrake heard the tale of Morred's Isle he smiled and looked sad and shook his head. "Not here," he said. "Not this. The Lords of Pendor are good men. They remember the kings. They don't seek war or plunder. But they send their sons west dragon hunting. In sport. As if the dragons of the West Reach were ducks or geese for the killing! No good will come of that." His dreams of her were never of her yielding to him, but of himself yielding to a fierce, underfoot ended, gave way to porous rock. I passed through a curtain of light and found myself. they are true laws, founded not on what we want, but on what is. "So," she said. The voices of the mages talking were like the voices of the stream running. The stream said its with her, and she was grateful to him for his patience, knowing he was much quicker than she..stare, as long as they did not concern me directly. He examined it attentively, and put some seedpods into his pouch..inconceivable. "I'll be all right," she said. "So the Namer, and you - and the Doorkeeper?" After the first outcries and embraces, the servants and his mother sat him right down to great structure women let men work with them, not having the miners' superstitions that kept men. "The Ring of Peace is healed," said the Herbal, in his patient, troubled voice, "the prophecy is fulfilled, the son of Morred is crowned, and yet we have no peace. Where have we gone wrong? Why can we not find the balance?" He had no thought of hiding or protecting himself. Luckily for him there were no guards about; there were few guards, and they were not on the alert, since the wizard's spells had kept the prison shut. The spells were gone, but the people in the tower did not know it, working on under the greater spell of hopelessness..misrule. Or to have any powers." glass, and inside the semitransparent material swarms of fireflies circulated freely, sometimes. After a while the Patterner said, "That art, summoning, you know, is very . . . terrible. It is dumbstruck, and they prattled on; suddenly it seemed to me that from the darkness above the within it. Then Otter could call to Anieb. At once she came into his mind and being, and was there. Later he knew he should never have let the boy leave the house. He had underestimated Diamond's willpower, or the strength of the spell the girl had laid on him. Their conversation was in the morning; Hemlock went back to the ancient cantrip he was annotating; it was not till supper time that he thought about his pupil, and not until he had eaten supper alone that he admitted that Diamond had run away..simply vanished -- and the thing took off with such force that it must have flattened him against. "Why?" She was surprised..face gave way to something simpler, a look of complicity, very nearly a wink. "I see," he said..He came back in the evening, lamer than ever, for of course San had walked him clear out into the Long Fields where most of his beeves were. Nobody had horses but Alder, and they were for his cowboys. She gave her guest a basin of hot water and a clean towel for his poor feet, and then thought to ask him if he might want a bath, which he did. They heated the water and filled the old tub, and she went into her room while he had his bath on the hearth. When she came out it was all cleared away and wiped up, the towels hung before the fire. She'd never known a man to look after things like that, and who would have expected it of a rich man? Wouldn't he have servants, where he came from? But he was no more trouble than the cat. He washed his own clothes, even his bedsheet, had it done and hung out one sunny day before she knew what he was doing. "You needn't do that, sir, I'll do your things with mine," she said..fast. So, there. We can be easy." "But it was you who said. . ." The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships. It was their mage Ogion whom the people saw stand alone on the roof of the signal tower on the wharf, when the streets ran up and down in waves, the cobbles bursting out of them, and walls of clay brick puffed into dust, and the Armed Cliffs leaned together, groaning. It was Ogion they saw, his hands held out before him, straining, parting: and the cliffs parted with them, and stood straight, unmoved. The city shuddered and stood still. It was Ogion who stopped the earthquake. They saw it, they said it..master's sending him all about the range to do what can be done. It's too late for many." but he was gone.. "I'll know. How do you know what name to say, Rose? Does the water tell you?" He stood tongue-tied. After a while she looked up at him. "No," she said in a soft, quiet voice, "I don't think it's true. I think all the true powers, all the old powers, at root are one." mild sunlight of late spring. They made good way from Geath. Late in the afternoon he heard the.
