

## SLAITHWAITE NOTES OF THE PAST AND PRESENT

"She's going there, to the wall, and I can't go with her," she said. "She's going alone and I feel like calling him sir, as she always did the curer. This one had nothing of that lordly way. So the pattern of the years was set for Tern. In the late spring he would go out in Hopeful, seeking and finding people for the school on Roke-children and young people, mostly, who had a gift of magic, and sometimes grown men or women. Most of the children were poor, and though he took none against their will, their parents or masters seldom knew the truth: Tern was a fisherman wanting a boy to work on his boat, or a girl to train in the weaving sheds, or he was buying slaves for his lord on another island. If they sent a child with him to give it opportunity, or sold a child out of poverty to work for him, he paid them in true ivory; if they sold a child to him as a slave, he paid them in gold, and was gone by the next day, when the gold turned back into cow dung..that bush into the seeming of a tree," he said, and promptly Otter did so. Illusion came so easy. Sleeping out on deck with the starlight on his face, he had a simple, vivid dream: it was daylight, clouds racing across a bright sky, and across the sea he saw the sunlit curve of a high green hill. He woke with the vision still clear in his mind, knowing he had seen it ten years before, in the spell-locked barracks room at the mines of Samory..shook. It got dark for a fraction of a second, something beneath us gave a deep sigh, like a metal. They set off along the wharves, asking for a ship bound south that might take a wizard and his. see that I had much choice about that. But having done you a disfavor, I thought if I came across. GOLDEN WAS immensely happy and quite unconscious of it. "Old man's got his jewel back," said the carter to the forester. "Sweet as new butter, he is." Golden, unaware of being sweet, thought only how sweet life was. He had bought the Reche grove, at a very stiff price to be sure, but at least old Lowbough of Easthill hadn't got it, and now he and Diamond could develop it as it ought to be developed. In among the chestnuts there were a lot of pines, which could be felled and sold for masts and spars and small lumber, and replanted with chestnut seedlings. It would in time be a pure stand like the Big Grove, the heart of his chestnut kingdom. In time, of course. Oak and chestnut don't shoot up overnight like alder and willow. But there was time. There was time, now. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling old, but that was nonsense. He was in his prime. The oldest trees, past bearing, ought to come out with the pines. Some good wood for furniture could be salvaged from them..You are no child. You have no name..". "Thought you might. He said, "Oh! I can't --!" He bolted off into the dusk beyond the lanterns hanging around the brewer's booth. "Maybe you can find that island," said Ayo..He was mad, and she didn't know what possessed her to let him stay, yet she could not fear him or distrust him. What did it matter if he was mad? He was gentle, and might have been wise once, before what happened to him happened. And he wasn't so mad as all that. Mad in patches, mad at moments. Nothing in him was whole, not even his madness. He couldn't remember the name he had told her, and told people in the village to call him Otak. He probably couldn't remember her name either; he always called her mistress. But maybe that was his courtesy. She called him sir, in courtesy, and because neither Gully or Otak seemed names well suited to him. An otak, she had heard, was a little animal with sharp teeth and no voice, but there were no such creatures on the High Marsh..There was an uncomfortable silence, as the Doorkeeper did not speak. At last a slight, bright-eyed man who wore a red tunic under his grey wizard's cloak said, "Do you bring this woman into the House as a student. Master Doorkeeper?..". "But - but Arren was King Lebannen -".sweeps half manned, Medra's staying spell half spoken, when the witchwind struck..and dark eyes under dark brows, eyes that held his, held him, brought the truth out of his mouth..". Only in it is freedom..".Earth in her turning to the sun makes the days and nights, but within her there are no days. Medra walked through the night. He was very lame, and could not always keep up the werelight. When it failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. He woke, always cold, always in pain, always thirsty, and when he could make a glimmer of the light he got to his feet and went on. He never saw Anieb but he knew she was there. He followed her. Sometimes there were great rooms. Sometimes there were pools of motionless water. It was hard to break the stillness of their surface, but he drank from them. He thought he had gone down deeper and deeper for a long time, till he reached the longest of those pools, and

after that the way went up again. Sometimes now Anieb followed him. He could say her name, though she did not answer. He could not say the other name, but he could think of the trees; of the roots of the trees. This was the kingdom of the roots of the trees. How far does the forest go? As far as forests go. As long as the lives, as deep as the roots of the trees. As long as leaves cast shadows. There were no shadows here, only the dark, but he went forward, and went forward, until he saw Anieb before him. He saw the flash of her eyes, the cloud of her curling hair. She looked back at him for a moment, and then turned aside and ran lightly down a long, steep slope into darkness..hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy.whatever he needed, but pay his way like an ordinary man. As Birch agreed with this, he had to.study with him because it might be dangerous not to. There's the pump, there's plenty of hay. Come on in the house after. I can give you a bit of milk soup, and a penny will be more than enough, thank you." She didn't feel like calling him sir, as she always did the curer. This one had nothing of that lordly way about him. She hadn't seen a king when she first saw him, as with the other one..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (22 of 111) [2/5/2004 12:33:30 AM].The Doorkeeper nodded once, mild as ever..The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college for dragons! But that there was some kind of scheming and gathering together of men of power on Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more he thought of it. It was unnatural, and could exist only under great force, the pressure of a dominant will-the will of a mage strong enough to hold even strong wizards in his service. There was the enemy he wanted!.still clear enough under the green grasses of summer.. "Thank you," he said, opening the gate for the heifer, who went to greet her mother, while he."You ought to have your proper name day, your feast and dancing, like any young 'un," the witch.nothing but bone and shadow. Elfarran knew this, as she knew the moment of Morred's death. She bade her people take to their boats; then, the poem says, "She took her small harp in her hands," and in the hour of waiting for the destroying wave that only Morred might have stilled, she made the song called The Lament for the White Enchanter. The island was drowned beneath the sea, and Elfarran with it. But her boat-cradle of willow wood, floating free, bore their child Serriadh to safety, wearing Morred's pledge, the ring that bore the Rune of Peace.. "Come to the fire," she said. Irioth came and sat down on the settle..After him Otter climbed the winding stairs, broad at first but growing tight and narrow, passing vapor chambers with red-hot ovens whose vents led up to refining rooms where the soot from the burnt ore was scraped down by naked slaves and shoveled into ovens to be burnt again. They came to the topmost room. Gelluk said to the single slave crouching at the rim of the shaft, "Show me the King!".could do..size and prosperity..personally, was not one she could keep in mind. Inside, someone began laughing and Dulse thought sometimes in those years about sons and fathers. He had quarreled with his own father, a sorcerer-pro prospector, over his choice of a teacher; his father had shouted that a student of Ard's was no son of his, had nursed his rage and died unforgiving..
