

# DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR TUSAYAN GROWTH KAIBAB

With the uniformed troopers was a stocky, late-fortyish, brush-cut man in black slacks and a gray herringbone sports jacket. His face was almost pan flat, his first chin weak, his second chin stronger than the first, and his function unknown to Junior. He would have been the least likely man to be noticed in a ten-thousand-man convention of nonentities, if not for the port-wine birthmark that surrounded his right eye, darkening most of the bridge of his nose, brightening half his forehead, and returning around the eye to stain the upper portion of his cheek. Murder itself was easy, but the aftermath was more draining than he had anticipated. Although the ultimate liability settlement with the state was certain to leave him financially secure for life, the stress was so great that he wondered, in his darker moments, if the reward would prove to be worth the risk. Shivering, Junior slammed the trunk lid and warily surveyed the lonely landscape. Black pines spread bristled arms through the chary night, and the moon cast down a jaundiced light that seemed to obscure more than it illuminated. It wasn't as if this was Junior's first encounter with a dead body. In the past few years, he'd become as comfortable with the deceased as any mortician might be. They were as unremarkable to him as cupcakes were to a baker. "You look as if you've seen a ghost," said Vinnie, and Agnes wished the threat were as simple as a restless spirit, groaning and rattling its chains, like Dickens's Marley come to Ebenezer Scrooge on Christmas Eve. "It's that bad and worse," Grace said firmly. "Even if they catch him, you're going to live with the quiet fear that he might escape one day. As long as you know he can find you, then you're never going to be completely at peace. And if you love this city so much that you'll put Angel in jeopardy ... then who have you been listening to all these years, girl? Because it hasn't been me." A Description of Earthsea. He moved from a crib to a bed of his own, with guardrails, months ahead of the average toddler. Within a week, he requested that the rails be left down. From the floor, Junior snatched up the bottle of wine that had twice failed to shatter. His lucky Merlot. Agnes wanted to tell them that all their efforts would be to no avail, that they should cease and desist, be kind and let her go. She had no reason to stay here anymore. She was moving on to be with her dead husband and her dead baby, moving on to a place where there was no pain, where no one was as poor as. Imagination like all living things lives now, and it lives with, from, on true change. Like all we do and have, it can be co-opted and degraded; but it survives commercial and didactic exploitation. The land outlasts the empires. The conquerors may leave desert where there was forest and meadow, but the rain will fall, the rivers will run to the sea. The unstable, mutable, untruthful realms of Once-upon-a-time are as much a part of human history and thought as the nations in our kaleidoscopic atlases, and some are more enduring. Hers were the most feminine hands he'd ever seen. Slender, soft, prettier than Naomi's. He had no idea what she was talking about. "If her blood pressure stabilizes through the night," Dr. Daines continued, "I want her to undergo a cesarean at seven in the morning. The danger of eclampsia passes entirely after birth. I'd like to refer Phimie to Dr. Aaron Kaltenbach. He's a superb obstetrician." The six-foot-tall statue was of a nude woman, formed from scrap metal, some of it rusted and otherwise corroded. The feet were made from gear wheels of various sizes and from bent blades of broken meat cleavers. Pistons, pipes, and barbed wire formed her legs. She was busty: hammered soup pots as breasts, corkscrews as nipples. Rake-tine hands were crossed defensively over the misshapen bosom. In a face sculpted from bent forks and fan blades, empty black eye sockets glared with hideous suffering, and a wide-mouthed shriek accused the world with a silent but profound cry of horror. "Wait," said Deed, holding out one hand either beseechingly or to block the door. We have inhabited both the actual and the imaginary realms for a long time. But we don't live in either place the way our parents or ancestors did. Enchantment alters with age, and with the age. The currents of irrational fear, which bring periodic turbulence to virtually every childhood, didn't disturb the smoothly flowing river of Barty's first three years. He showed no fear of the doctor or the dentist, WALLY HAD NOT gone home with Death, but they had definitely been at the dance together. Maria arranged five place settings instead of four. The fifth--complete with silverware, waterglass, and wineglass--was at the head of the table, in memoriam of Joey. because even to cry in pain will invite more vicious discipline than the pummeling he's already endured. His father. "Mrs. Lampion, in a case like this, I've found that the greatest mercy is directness. Your son has retinoblastoma. A malignancy of the retina." Although he didn't believe in destiny, in fate, in anything more than himself and his own ability to shape his future, Junior couldn't deny how extraordinary it was that this woman should cross his path at this precise moment in his life, when he was frustrated to the point of cerebral hemorrhage by his inability to find Bartholomew, confused and nervous about the phantom singer and other apparently supernatural events in his life, and generally in a funk unlike any he had ever known before. Here was a link to Seraphim and, through Seraphim, to Bartholomew. All these punctures in the wall. Gouges. Slashes. So much rage required to make them. The voice had come not from the armchair in the corner, but from immediately beside the bed. He shouldered past two counter waitresses, past the short-order cook who was working eggs and burgers and bacon on the open griddle and grill. Whatever expression wrenched Junior's face, it must have been intimidating, for without protest but with walled alarm, the employees squeezed aside to let him pass. To celebrate, Junior went to a gallery and purchased the second piece of art in his collection. Not sculpture this time: a painting. Holding the mug in his right hand, Tom picked up the coin and rolled it across the knuckles of his left. Paul's quarter, after all. A two-bit temptation to panic. As gifted with physical grace as with good looks, Junior stepped into the bedroom doorway, lithely and with feline stealth. He leaned against the jamb. Dr. Walter Lipscomb's fingers were longer and more supple than the pianist's, and he had the presence of a great symphony conductor for whom a raised baton was superfluous, who commanded attention by the mere fact of his entry. A tower of authority and self-possession, he said to the becalmed Neddy, "I am this child's physician. She was born underweight and held in hospital

to cure an ear infection. You sound as if you have an incipient case of bronchitis that will manifest in twenty-four hours, and I'm sure you wouldn't want to be responsible for this baby being endangered by viral disease." When Junior cut open a grapefruit for breakfast, he didn't find a quarter in it. Of the three Bartholomews that he'd turned up recently, he chose Prosser because, burdened by the name Enoch, Junior felt sympathy for any girl whose parents had cursed her with Zelda. The instant he flipped the coin, he opened both hands-palms up, fingers spread-with a distracting flourish. She wouldn't answer him, but he was as convinced by her silence as he would have been by a blurted confession--or by a denial, for that matter. Her wild eyes convinced him, too, and her trembling mouth. Naomi had come back to be with him, and it could be argued that Seraphim had returned in a sense, too, for this girl was the flesh of Seraphim's flesh, born out of her death..gob of mucus in his throat. His face contorted with a misery that he did not have to fake, and he was astonished to feel tears spring to his eyes. When she closed the front door and turned away from it, Agnes bumped her swollen belly into Joey. His eyebrows shot up, and he put his hands on her distended abdomen, as if she were more fragile than a robin's egg and more valuable than one by Faberge. The window mechanism creaked, the two tall panes began to open outward but too slowly, and the cold white night exhaled a chill plume of breath into the room. He was a patriotic guy, and he preferred American rock to the British brand. He had nothing against the English, no prejudices against people of any nationality. Nevertheless, he believed that the American Top 40 ought to feature American music exclusively. At the sight of her photograph, she felt herself flush. She hoped none of the pedestrians passing between her and the gallery would look from the photo to her face and recognize her. What had she been. Gradually, she perceived that Lipscomb was more troubled than he should have been, considering that his patient had died through no fault of his own. Junior stood at the window for a long time, not because he was pretending to rest, and not because any of the attending nurses was a looker. He was transfixed, and for awhile he didn't know why. He squirmed deep under the covers, clamped a plump pillow over his head to muffle the singing, and chanted, "Find the father, kill the son," until at last he fell exhausted into sleep. "Other Bartys and other Agneses in other houses like this-all here together now." For a while, Junior profited enormously from Tammy's investment advice, and the sex was great. As a thank-you for the hefty trading commissions she earned-and not incidentally for all the orgasms-Tammy gave him a Rolex. He didn't mind her four cats, didn't even care when the four grew to six, then to eight. "When the Iroquois Theater in Chicago burned on December 30, 1903" he said aloud, testing his memory, "during a matinee of Mr Blue Beard, six hundred two people perished, mostly women and children." Commit and command. It doesn't matter so much whether the course of action to which you commit is prudent or hopelessly rash, doesn't matter whatsoever whether society at large thinks it's a "good" thing that you're doing or a "bad" thing. As long as you commit without reservation you will inevitably command, because so few people are ever willing to commit to anything, right or wrong, wise or unwise, that those who plunge are guaranteed to succeed more often than not even when their actions are reckless and their cause is idiotic. Hound smiled. "They haven't undone what you did yet, either," he said. "Old Whiteface was crawling all over her yesterday, growling and muttering. Ordered the helm replaced." He meant Losen's chief mage, a pale man from the North named Gelluk, who was much feared in Havnor. Blind he remained until an afternoon in May 1993, when at last the miracle occurred, and the meaning that Tom Vanadium had foreseen so long ago began to manifest. Bressler but no Vanadium. A girl named Angel. Something was wrong here. Something was rotten. "Sure. Or why don't I pull a Rumpelstiltskin and demand one of her children for payment' ". Junior's fear gave way to an appreciation for the irony in this situation. Gradually, he regained the ability to smile, tossed the coin in the air, caught it, and dropped it in his pocket. A quick review of these book spines revealed that the treasured Zedd collection wasn't here. Junior was accustomed to having women seduce him. His good looks were a blessing of nature. His commitment to improving his mind made him interesting. Most important, from the books of Caesar Zedd, he had learned how to be irresistibly charming. Her father respected and admired Tom, so she was thankful for his presence. And anyone who could survive whatever catastrophe had left him with this cubistic face was a man she wanted on her team in a crisis. A cheer went up from family and friends, and Agnes could only imagine what it must feel like to be Barty, both blind and blessed, his heart as rich in courage as in kindness. So burning with anger was he that his car, by direct thermal transmission from his hands upon the wheel, should have been glowing cherry red in the January night, should have been scorching tunnels of clear dry air through the cold fog. Rancor, virulence, acrimony, vehemence: All words learned for the purpose of self-improvement were useless to him now, because none adequately conveyed the merest minimum of his anger, which swelled as vast and molten as the sun, far more formidable than his assiduously enhanced vocabulary. Why Cain, even if he was the father, should be interested in the little girl was a mystery to Tom Vanadium. This totally self-involved, spookily hollow man held nothing sacred; fatherhood would have no appeal for him, and he certainly wouldn't feel any obligation to the child that had resulted from his assault on Phimie. "No, the monster lives in there," Barty said, which was a joke, because he'd never suffered night frights of that-or any--sort. One problem: Nolly Wulfstan, Quasimodo without a hump, probably repaired to this convenient club after work, to down a few beers, because this was surely as close as he would ever get to a halfway attractive woman. The detective would think that he and Junior were here for the same reason-to gawk at nearly naked babes and store up enough images of bobbling breasts to get through the night-and he would not be able to comprehend that for Junior the attraction was the dance, the intellectual thrill of experiencing a new cultural phenomenon. Glorifying in the cloudless day and the warmer than usual weather, he drove seventy miles north, through phalanxes of evergreens that marched down the steep hills to the scenic coast. All the way, he monitored the traffic in his rearview mirror. No one followed him. Jacob had become a card mechanic for one purpose. Not because he'd ever be a gambler. Not to wow friends with card tricks. Not because the challenge intrigued him. He wanted to be able to give Agnes winning cards once in a

while, if she was losing too frequently or needed to have her spirits lifted. He didn't feed her winning hands often enough to make her suspicious or to make the games less fun for Edom or Joey. He was judicious. The effort he expended-the thousands of hours of practice-was repaid with interest each time Agnes laughed with delight after being dealt a perfect hand.."You look very, very handsome this morning, Mr. Barty, " squeaked Pixie Lee, who was something of a flirt. "You look like a big movie star.Cain turned the pistol on Barty, but when Tom charged, Cain swung toward him once more. The round that he fired would have been a crippler, maybe a killer, except that Angel launched herself off the window seat behind Cain and gave him a hard shove, spoiling his aim. The killer stumbled and then shimmered..On January 2, 1968, four days before his birthday, Bartholomew Lampion gave up his eyes that he might live, and accepted a life of blindness with no hope of bathing in light again until, in his good time, he left this world for a better one..She bent down and kissed his cheek, his right eye, his left, his brow, his dry cracked lips. "I love you so much. I wanted to die when I thought you weren't with me anymore..Nor could she begin to imagine the nature of the disaster that had befallen him, leaving his face looking blasted and loose at all its hinges. She had last seen him at Phimie's funeral. A few minutes ago at her doorstep, she'd recognized him only because of his port-wine birthmark..When Nolly sighed and frowned, his lumpish face seemed in danger of sliding off his skull, like oatmeal oozing off a spoon. "Mr. Cain, much as I regret it, I'm afraid I'm going to have to return half of the retainer you gave me..".Dusk had arrived, strangling the day, and the throttled sky hung low, as blue-black as bruises. The streetlights had come on. Gouts of red light from pulsing emergency beacons alchemized the rain from teardrops into showers of blood..The galerieur's icy demeanor thawed marginally at this proof of taste and financial resources. He either smiled or grimaced at a vague but unpleasant smell-hard to tell which-and identified himself as the owner, Maxim Coquin..Celestina intended to capture Nella as she was now, head at rest upon the pillow of, perhaps, her deathbed, eyes closed and mouth slack, face ashen but serene. Then she would draw four more portraits, using bone structure and other physiological evidence to imagine how the woman had looked at sixty, forty, twenty, and ten..Instead of immediately killing anyone, Junior returned to his apartment on the afternoon of December 29, and went to bed, fully clothed. To calm down. To think about focus..Not a door opened in the narrow street. Nobody looked out to see what the noise was. Not till long after the men were gone did some neighbors creep out to comfort Otter's people as best they could. "Oh, it's a curse, a curse, this wizardry!" they said..Crossing Spruce Hills with John, Paul, George, Ringo, and dead Thomas, Junior headed back toward Victoria's place, where Sinatra was no longer singing..He had already reviewed twenty-four thousand names, finding no Bartholomew, putting red checks beside entries with the initial B instead of a first name. A slip of yellow paper marked his place..Kathleen and Nolly shifted their attention to Tom's clenched left hand, although the quarter could not possibly have traveled from one fist to the other..The reception still roared in both showrooms of the gallery. Legions of the uncultured, taste-challenged in every regard except in their appreciation for hors d'oeuvres, yammered about art and chased their cloddish opinions with mediocre champagne..His dry tongue, his parched mouth, his desiccated throat felt packed fall of sand, and his voice lay buried alive down there.."All right," Celestina said, "yes, of course." She could see no harm in humoring Phimie. "Angel. Angel White. Now, you calm down, you relax, don't stress yourself..".Vanadium's wounds were too grievous to pass for accidental injuries. Even if there were some way to disguise them through clever staging, no one would believe that Victoria had died in a freak fall and that Vanadium, rushing to her side, had slipped and tumbled and sustained mortal head injuries, as well. Such a strong whiff of slapstick would put even the Spruce Hills police on to the scent of murder..Otter stated it as an unfortunate fact, not as a moral assertion. Hound looked at him with appreciation. Living with the pirate king, he was sick of boasts and threats, of boasters and threateners.."Thirsty," Agnes rasped. Her voice was Sahara sand abrading anient stone, the dry whisper of a pharaoh's mummy talking to itself in a vaulted sealed for three thousand years..Junior liked women who drank a lot. They were usually amorous or at least unresistant..As always, curious about how others lived-or, in this case, bad lived-Junior explored the house, poking in drawers and closets. For a widower, Bartholomew Prosser was neat and well-organized..Shaking off this peculiar case of the spooks, Barty proceeded toward the stairs. Just when he reached the newel post, he heard the faint creak of the marker floorboard behind him..Finally wimping out completely, Parkhurst left the room. The heavy door sighed softly shut, silencing the squeak of rubber-soled shoes, the swish of starched uniforms, and other noises made by the busy nurses in the corridor.."So what I am is I'm your talking eyes." Lowering her hand from his face, Angel said, "Do you know where bacon comes from?""No, that's not necessary," Junior said, trying to sound casual. "Considering what you told me, I'm sure whoever's bothering me here can't be Vanadium. I mean, him being on the run, with plenty of his own troubles, the last thing he'd do is follow me here just to screw with my head a little..".Heart racing, Tom produced another quarter from a pants pocket. For the benefit of the adults, he performed the proper preparation-a little patter and the ten-finger flimflam-because in magic as in jewelry, every diamond must have the proper setting if it's to glitter impressively..It was the best he could do in protest against the misuse of good work and a good ship. He was pleased with himself. When the ship was launched (and all seemed well with her, for her fault would not show up until she was out on the open sea) he could not keep from his teachers what he had done, the little circle of old men and midwives, the young hunchback who could speak with the dead, the blind girl who knew the names of things. He told them his trick, and the blind girl laughed, but the old people said, "Look out. Take care. Keep hidden..".Later, weak and shaken, as he was packing his suitcase, the urge overcame him again. He was astonished to discover that anything could be left in his intestinal tract..During the past week, he had ferreted out what he could about the nurse. She was thirty, divorced, without kids, and lived alone..Incredibly, the thief left behind the most valuable items: the collection of hardcover first editions of Caesar Zedd's complete body of work. The box stood open, its contents having been explored in haste, but not a single volume was missing..Adding new growth

to his forest of frustration, Tom got up from the study desk, fetched the newspaper from the front doorstep, and went to the kitchen to make his morning coffee. He boiled up a pot of strong brew and sat down at the knotty-pine table with a steaming mug full of black and sugarless solace. Recuperating, he had plenty of time to practice meditation. He became so proficient at focusing on the imaginary bowling pin that he could make himself oblivious of all else. A stridently ringing phone wouldn't penetrate his trance. Even Bob Chicane, Junior's instructor, who knew all the tricks, could not make his voice heard when Junior was at one with the pin. While they waited for the room-service waiter to arrive, Tom got from Paul a detailed report of Enoch Cain's attack on the parsonage. He had heard most of it from friends in the state-police homicide division, which was assisting the Spruce Hills authorities. But Paul's account was more vivid. The ferocity of the assault convinced Tom that whatever the killer's twisted motives might be, Celestina and her mother--and not least of all Angel--were in danger as long as Cain roamed free. Perhaps as long as he lived. She remained fixated on the card that she had just dealt, and for a while she didn't speak, as though the eyes of the paper knave held her in thrall. Finally she said, "Monster. Human monster." Nolly adored her laugh, so musical and girlish. He would have made all sorts of a fool out of himself, anytime, just to hear it. "What are you strongest in?" "Better hurry," Wally advised, gracing Celestina's other cheek with a dryer kiss. "The pepper tree had been whispering in the breeze, the roses nodding their bright heads. Now a stillness came into the cemetery, as if rising from beneath the grass, from out of that city of the lost. When the pianist eventually launched into "Someone to Watch over Me," he didn't appear to be responding to a request, considering that a few other numbers had been played since the most recent gratuity. The tune was, after all, in his nightly repertoire. With a nimbleness and an alacrity that a lemur would have admired, the girl ascended to the first crotch. As early as this evening, here at her son's bedside, Agnes began dimly to sense that certain of these amusing conversations with Barty might not be as fanciful as they seemed, that he was expressing in a childlike way some truth that she had assumed was fantasy. Although the distance to the ground was only ten feet, she would be risking too much by running blindly off the roof and leaping to clear the fringe of fire at the edge. A landing on the lawn might end well. But if she fell onto the walkway, she might break a leg or her back, depending on the angle of impact. Yet that evening, when she'd accepted his proposal and asked if he wasn't frightened, he said, "Not anymore." By dawn, when the intestinal paroxysms finally passed, this bold new man of adventure felt as flat and limp as road kill. Agnes discovered, from her research, that among child prodigies, Barty was not a wonder of wonders. Some math whizzes were absorbed by algebra and even by geometry before their third birthdays. Jascha Heifetz, became an accomplished violinist at three, and by six, he played the concertos of Mendelssohn and Tchaikovsky; Ida Haendel performed them when she was five. Now, twenty-four hours later, when Sparky answered his telephone and heard Tom Vanadium, he said, "You looking for a little company? I've got another bottle of Merlot where the last one came from." almost recoiled in disgust. She held the newborn so that its mother could look into. Music played within. An up-tempo number. Possibly swing. He couldn't quite identify the tune. Uncommonly healthy, he didn't suffer croup, flu, sinusitis, or most of the ailments to which other children were vulnerable. "I sure think so. I think she's everything. I tell her she's the moon and stars. I'm probably spoiling her rotten." The Hackachaks had arrived post-grief, brought to the hospital by the news that Junior had expressed distaste at the prospect of profiting from his wife's tragic fall. They knew he had turned away Knacker, Hisscus and Nork. Edom removed two of the pies from the table and put them on the counter near the ovens. "That's kind of you," Panglo stammered, "but I have little time for reading, very little time." A deep-set casement window. Two latches on the right side, one high, one low. Detachable hand crank lying on the foot-deep sill. Mechanism socket in the base casing. By the time he ordered cr?me brulee for dessert, he was able to laugh at himself. Had he expected to see a ghost enjoying a cocktail and free cashews at the bar? Perhaps the paramedic had given him an injection, a sedative. the howling ambulance rocked along on this most momentous day, Junior Cain wept profoundly but quietly--and achieved temporary peace in a dreamless sleep. In addition to these scavengers, another presence was here, unseen but not unfelt. The chill of this invisible entity pierced Junior to the marrow: the stubborn, vicious, psychotic, prickly-bur spirit of Thomas Vanadium, maniac cop, not satisfied to haunt the house in which he'd died, not ready yet to seek reincarnation, but instead pursuing his beleaguered suspect even after death, capering--to paraphrase Sklent like an invisible, filthy, scabby monkey here on this city street, in bright daylight. Thrilled to have inspired this awe in her, he closed the book. "Remember what we talked about a long time ago? You asked me how come, if I could walk where the rain wasn't. . . ." His profession was cocktail piano, though he didn't have to earn a living at it. He had inherited a fine four-story house in a good neighborhood of San Francisco and also a sufficient income from a trust fund to meet his needs if he avoided extravagance. Nevertheless, he worked five evenings a week in an elegant lounge in one of the grand old hotels on Nob Hill, playing highly refined drinking songs for tourists, businessmen from out of town, affluent gay men who stubbornly continued to believe in romance in an age that valued flash over substance, and unmarried heterosexual couples who were working up a buzz to ensure that their rigorously planned adulteries would seem glamorous. Speaking of bosoms, everywhere in the loft were braless girls in sweaters and miniskirts, braless girls in T-shirts and miniskirts, braless girls in silk-lined rawhide vests and jeans, braless girls in tie-dyed sash tops, with bared midriffs, and calypso pants. Lots of guys moved through the crowd, too, but Junior barely noticed them. "That discord sets up lots of other vibrations, some of which will return to you in ways you might expect--and some in ways you could never see coming. Of the things you couldn't have seen coming, I'm the worst." Paul knelt on one knee beside her wheelchair. "This momentous day, Agnes. This momentous day, with all of its beginnings. Hmmm?" To buy as much time as possible while Enoch Cain's assault was still fresh in Celestina's mind, Tom proposed that they remain hidden away for another two weeks, unless the killer was apprehended sooner. "Then if you go to Wally's house from here, you'll want to install the best alarm system you can get, and

you should lead a restricted life for quite a while, even hire security if you can afford it. The smartest thing would be to move out of San Francisco as soon as Wally's recovered. He retired young, right? And a painter can paint anywhere. Sell the properties here, start over somewhere else, and make the move in such a way that you can't be easily traced. I can help you work that out." "Nicholas Deed." On her tongue, the name was as bitter as a dissolving aspirin..A dry laugh escaped the detective, but it had none of the warmth of most people's laughter. "You're not bad, Enoch. You're just not as good as you think you are."
