From the exit I said:.Veil, with her gentle voice and smile, was implacable. She told Medra that though she had."He thinks I have this huge great talent. Their dumbfoundedness did not concern me."What did she do?" Ayo asked, softly..But in fact Golden wasn't thinking only about the business. He had observed something about his son that had made him not exactly set his eyes higher than the business, but glance above it from time to time, and then shut his eyes..But he said nothing to the boy and nothing to the boy's mother. He was a consciously close-mouthed man, distrustful of visions until they could be made acts; and she, though a dutiful, loving wife and mother and housekeeper, already made too much of Diamond's talents and accomplishments. Also, like all women, she was inclined to babble and gossip, and indiscriminate in her friendships. The girl Rose hung about with Diamond because Tuly encouraged Rose's mother the witch to visit, consulting her every time Diamond had a hangnail, and telling her more than she or anyone ought to know about Golden's household. His business was none of the witch's business. On the other hand, Tangle might be able to tell him if his son in fact showed promise, had a talent for magery...but he flinched away from the thought of asking her, asking a witch's opinion on anything, least of all a judgment on his son..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (91 of 111) [2/5/2004 12:33:31 AM].distrust of him. She was easy with him. He meant no harm to her. She thought there was kindness in.often; the chance of his ever having to use it was very slight. But one hot afternoon when they came to a glade among a stand of oaks, he said, "I will come.Hemlock might have known then what he was up against; but having told the boy he would not be his master any longer, he could not in conscience command him. "You have a true gift, Essiri," he said, using the name he had given the boy in the springs of the Amia, a word that in the Old Speech means Willow. "I don't entirely understand it. I think you don't understand it at all. Take care! To misuse a gift, or to refuse to use it, may cause great loss, great harm.".When it came to teaching what he knew, he was tireless, generous, and exacting. For the first time, Medra was given a vision of magic not as a set of strange gifts and reasonless acts, but as an art and a craft, which could be known truly with long study and used rightly after long practice, though even then it would never lose its strangeness. Highdrake's mastery of spells and sorcery was not much greater than his pupil's, but he had clear in his mind the idea of something very much greater, the wholeness of knowledge. And that made him a mage..Away from the lanterns of the party it was dark, but she knew the way in the dark. He remembered enjoying the cool of it rising between his toes. He still like to go barefoot, but no longer enjoyed mud; it was

sticky stuff, and he disliked stooping to clean his feet before going into the house. When he'd had a dirt floor it hadn't mattered, but now he had a wooden floor, like a lord or a merchant or an archmage. To keep the cold and damp out of his bones. Not his own notion. Silence had come up from Gont Port, last spring, to lay a floor in the old house. They had had one of their arguments about it. But I never heard of a wizard.He walked down the straggling street of Purewells to Sans house, which was about midway, opposite the tavern. But he had come back home to Gont, to Re Albi, with his wizard's staff, and kicked his shoes off. He stood still and felt the dust and rock of the cliff-top path under his feet, and the cliffs under that, and the roots of the island in the dark under that. In the dark under the waters all islands touched and were one. So his teacher Ard had said, and so his teachers on Roke had said. But this was his island, his rock, dust, dirt. His wizardry grew out of it. "My mastery is here," the boy had said, but it went deeper than mastery. That, perhaps, was something Dulse could teach him: what went deeper than mastery.
