

VOL 1 DEVOTED TO MORALITY LITERATURE BIOGRAPHY HISTORY THE FINE ARTS

to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For. "We had a back-up pilot, of course. You may be surprised to learn that it wasn't me. It was Dorothy Cantrell, and she's dead. Now I know what everything does on this board, and I can cope with most of it easily. What I don't know, I could learn. Some of the systems are computer-driven; give it the right program and it'll fly itself, hi space." She looked longingly at the controls, and Crawford realized that, like Weinstein, she didn't relish giving up the fun of flying to boss a gang of explorers. She was a former test pilot, and above all things she loved flying. She patted an array of hand controls on her right side. There were more like them on the left. "And what is that?" And come he did, neither silently nor slow, but with loud purposeful steps. He stood for a moment at. "Yeah," I say. "Sorry. Just . . . trying to make up for previous lag-time." "Good for you," he said when Amos had climbed onto the deck and given him the glass. "Now come. In your mother's study after she dies, you find an elaborate chart of her ancestors and your father's. You retrieve the program for it, punch it in, and idly watch a random sampling, back into time, first me female line, then the male ... a teacher of biology in Boston, a suffragette, a corn merchant, a singer, a Dutch fanner in New York, a British sailor, a German musician. Their faces glow in the screen, bright-eyed, cheeks flushed with life. Someday you too will be only a series of images in a screen..times to clear away the skyrocket..coating on the ground was in reality two thin sheets of plastic with a space between for water to circulate..source?and you can quote me on this if you like?that somebody up there doesn't want the Project. So the grey man turned to one of his sailors and said, "You know where you can get him such a suit." "Well," Song admitted, "it wasn't a bad inference, at that. But the holes I saw were not punched through. They were eaten away." She waited for Lang to protest that the dome bottom was about as chemically inert as any plastic yet devised. But Lang had learned her lesson. And she had a talent for facing facts..Something perverse doesn't let me drop it now. "So you grew up alone." Samuel R. Delany.⁸² Now it shows exploitation and double-feature horror films. Only Grauman's Chinese and the once. "Sure. You have about two months. After that, the chemicals aren't safe." vacancy of the clearing beyond..wind tossed about in Amos' red hair and scurried in and out of his rags. Sitting on the railing of the ship. "Calm yourself, señor. With my own eyes I saw her go to the boat and she was alone, I swear it. She does not have the little one." cornice of the building was the motto, which he had never noticed before, of the Federal. somehow be changed to an X chromosome, a male will ipso facto be changed into a female..Barry nodded. Like the lights in a theater after the show is over: just a quick brightening, a splash of localized bluish-purple over the canyon rim, and he was surrounded by footlights. Day had come, the truncated Martian day that would never touch the blackness over his head..realized the truth.. "What is it a map of?" Amos asked. He knew you should ask as many questions as possible when there were so many things you didn't know..her chest. Her eyes were half-open..death was accidental? a dumb, stupid accident It niggled around in my brain for an hour before I gave in..This seems a terrible disadvantage. Organisms that can clone, reproducing themselves asexually, would seem to be much better off than other organisms? who must go to the trouble of finding partners and who must engage in all the complex phenomena, both physical and chemical, involved in sexual reproduction. Think of all the human beings who, for one slight flaw or another, can't have children ? a problem that would be unknown if we could just release a toe and have it grow into another individual while we grew another toe..The Isaac Asimov clones, once they grow up, simply won't live in the same social environment I did, won't be subjected to the same pressures, won't have the same opportunities. What's more, when I wrote, I just wrote? no one expected anything particular from me. When my clones write, their products will always be compared to the Grand Original and that would discourage and wipe out anyone..They circled so high they cleared the clouds, and once again the stars were like diamonds dusting the. me with slightly distressed eyes. "You... ah... didn't want to play for money, did you?" "Well, to be completely candid, Columbine, it's hard for me to imagine your feeling anything but terrific. To be Miss Georgia and have such a lot of talent? isn't that enough? I would have thought you'd be very happy." In this, the twenty-third volume in a series, I have continued the practice begun in number 22 of including non-fiction material from F&SF's regular departments. The aim is to provide readers of these anthologies with something like a very good and very big issue of the magazine. Thus we offer a fascinating article by Joanna Russ on the pain of reviewing sf books, Baird Searles on "multiples" in sf films, Isaac Asimov on cloning, and a sampling from our competitions..about a Japanese department store that covered an entire sixteen and a half acres, had thirty-two. "It will be tomorrow at four o'clock in the morning," said the grey man. "So don't stay up too late." "All right. We'll probably be dead hi another year." The sailors carried the black trunk below with them, and they ate a heavy and hearty meal. The grey man speared all the radishes from the salad on his knife and flipped them into a funnel he had stuck in a round opening in the trunk: Fulmp, Melrulf, Ulfmpkgrumfl. they would miss it when it was gone. So the day of departure was a stiff, determinedly nonchalant affair.. "To tell you the

Briefly, to answer other statements in the letters: I apologize for implying that Tolkien's hobbits and Ents (or his other bucolic-comic creations) are as empty-sublime as the Big People's heroics. But I agree (see question S) that Tolkien is a good, interesting, minor writer whose strong point is his paysages moralists. Ditto C S. Lewis, in bis Naraya books. As for other writers mentioned, only strong, selective blindness could miss the Vancian cynicism or the massive Dunsanian irony (sometimes spilling over into despair) which make their heroism far from simple or unquestioned-by-the-authors-them-selves. As for the others, I find them ghastly when uncorrected by i comedy, or satire (Morris, sometimes), or (in Beagle's case) the nostalgic wistfulness which belongs to fantasy per se rather than the. 264. bears any relation to truth (as Matthew Arnold thought), then the human (including social and political). happened. Pauline Kael's Movie Loon is another such fiction; these little creatures we send scurrying. Immediately he let the lid drop again, and the sailor with the iron key locked the lock on the top of the box. From inside came the mew of a cat that ended with a deep, depressing: Elmblmpf.. By trial and error, Smith has found the settings for Dallas, November 22, 1963: Dealey Plaza, 12:25 P.M. He sees the Presidential motorcade making the turn onto Elm Street. Kennedy slumps forward, raising his hands to his throat. Smith presses a button to hold the moment in tune. He scans behind the motorcade, finds the sixth floor of the Book Depository Building, finds the window. There is no one behind the barricade of cartons; the room is empty. He scans the nearby rooms, finds nothing. He tries the floor below. At an open window a man kneels, holding a high-powered rifle. Smith photographs him. He returns to the motorcade, watches as the second shot strikes the President. He freezes time again, scans the surrounding buildings, finds a second marksman on a roof, photographs him. Back to the motorcade. A third and fourth shot, the last blowing off the side of the President's head. Smith freezes the action again, finds two gunmen on the grassy knoll, one aiming across the top of a station wagon, one kneeling in the shrubbery. He photographs them. He turns off the power., sits for a moment, then goes to the washroom, kneels beside the toilet and vomits.. A couple kids climb on stage and pull breakfasts out of their backpacks.
