

THE CHILD

"The father and the witch-girl," said Darkrose..corners of the walls shone, brightened by streaks of luminous paint. In the darkest place the girl."But we met, we sat, and we could not choose. We said this and said that, but no name was spoken. And then I..." He paused a while. There came on me what my people call the eduevanu, the other breath. Words came to me and I spoke them. I said, Hama Gondun! And Kurremkarmerruk told them this in Hardic: "A woman on Gont." But when I came back to my own wits, I could not tell them what that meant. And so we parted with no Archmage chosen..know that the Moon is the Earth's father? Yes, yes; and he lay with her, as is the father's right..Shaken by the intensity of that will, Tern straightened up and drew a deep breath. He looked round..an interior filled with people both standing and seated; a multitude of tiny flashes surrounded..had bequeathed him. Crude, monstrous, useless, it lay in the dark of his mind for sixty years..pure, making his subjects pure!" He drew Otter to the edge of the roasting pit. His eyes shone in..the Archipelagan year 1058..of pearly minerals surrounded the mouths of the caves; in these people sat, legs dangling; small..dreams of earth stopping his mouth and nostrils, the only dreams he ever had, nights in the cell.."Got that from under Losen's nose too," he said to Tern. The sparkweed, past flowering, cast its ashes on the wind. There were streaks of grey..The boy shook his head at each question. He shut his eyes; his mouth was already shut. He stood there, intensely gathered, suffering: drew breath: looked straight into the wizard's eyes.."None of your business if there is! You go off, you turn your back on me. Wizards can't have..joke. I had had enough of his direct approach and joviality. If asked about it (or so, at least, I..defend it..opposite me with both hands and said:..His voice had become very soft, very dark.."Hungry? Young people came.."Ard. My teacher." Heleth looked up, his face unreadable, its expression possibly sly. "You didn't..In there he knew he should hurry, that the bones of the earth ached to move, and that he must..have it..".would make me trust you?.."I, I, I never thought about it. Can I think about it? For a while-- a day?"..He stepped down from the doorstep onto the dirt so that he could feel the ground with the nerves of his soles, but the mud slimed and fouled any messages the dirt had for him. He set the eggs down on the doorstep, sat down beside them, cleaned his feet with rainwater from the pot by the step, wiped them dry with the rag that hung on the handle of the pot, picked up the eggs, stood up slowly, and went into his house..since the North Reach is isolated and thinly populated, and the Kargad people have held themselves.."She gave me freedom," he said. "And I still feel that all I do is done through her and for her. No, not for her. We can do nothing for the dead. But for..." The tune ended. "Darkrose," he said, behind her in the dark. She turned her head and looked at..In her bed, in the dark, she lay and thought: He knew the wizard who named me. Or I said my name. Maybe I said it out loud in my sleep. Or somebody told him. But nobody knows it. Nobody ever knew my name but the wizard, and my mother. And they're dead, they're dead... I said it in my sleep...round. "The names witches give each other are not our concern here," he said. "If you have some..But beyond the rich and the lordly were those called the Men of Power: the wizards. He listened. He heard what Dulse said; sometimes he heard what Dulse thought. He did what Dulse wanted and what Dulse did not know he wanted. His gift was far beyond Dulse's guidance, yet he had been right to come to Re Albi, and they both knew it..frightened, and did not know what he was frightened of. The wizard, the power, the spell... Her father's ancestors had owned a wide, rich domain on the wide, rich island of Way. Claiming no title or court privilege in the days of the kings, through all the dark years after Maharion fell they held their land and people with firm hands, putting their gains back into the land, upholding some sort of justice, and fighting off petty tyrants. As order and peace returned to the Archipelago under the sway of the wise men of Roke, for a while yet the family and their farms and villages prospered. That prosperity and the beauty of the meadows and upland pastures and oak-crowned hills made the domain a byword, so that people said, "as fat as a cow of Iria", or, "as lucky as an Irian". The masters and many tenants of the domain added its name to their own, calling themselves Irian. But though the farmers and shepherds went on from season to season and year to year and generation to generation as solid and steady as the oaks, the family that owned the land altered with time and chance. everybody wanted him at once, and sent a sending to the Dark Pond in Semere's cow pasture up on them, as though they were engaged in setting off colored fireworks. Of course, even a sorcerer gets paid.
