The treetops stood out more distinctly against the sky; dawn was breaking. I was glad of her whole mind on how the women of the Hand might grow strong again. But her mind, formed by her. She brought them to a house at the end of a lane. It had been a handsome place once, two stories built of stone, but was half empty, defaced, window frames and facing stones pulled out of it. They crossed a courtyard with a well in it. She knocked at a side door, and a girl opened it. a little afraid of him. And when he leaves me, he hides in the place of ordure, in foulness. A quarrel between brothers over their inheritance divided them. One heir mismanaged his estate through greed, the other through foolishness. One had a daughter who married a merchant and tried to run her estate from the city, the other had a son whose sons quarrelled again, redividing the divided land. By the time the girl called Dragonfly was born, the domain of Iria, though still one of the loveliest regions of hill and field and meadow in all Earthsea, was a battleground of feuds and litigations. Farmlands went to weeds, farmsteads went unroofed, milking sheds stood unused, and shepherds followed their flocks over the mountain to better pastures. The old house that had been the centre of the domain was half in ruins on its hill among the oaks. Who opened it to rich or poor, "Study with Master Hemlock?" said Diamond, his voice up half an octave. between Sans house and the tavern. Archmage. He had been the Master Patterner and the kindest of all Dulse's teachers at the School. "I don't either. Morred and Elfarran sang to each other, and he was a mage. I think there's a Master Chanter on Roke, that teaches the lays and the histories. But I never heard of a wizard being a musician." Medra did not answer at once. "Chance," he said at last, "favoring long desire. Not art. Not knowledge. I think I've come to the place I sought, but I don't know. I think you may be the people they told me of, but I don't know. I think the trees I saw from the hill hold some great mystery, but I don't know. I only know that since I set foot on that hill I've been as I was when I was a child and first heard The Deed of Enlad sung. I am lost among wonders." returned with their year-old child to her native island, Solea, where her own powers would he tale, the mounted figures that walked through bright mist across the vague dun of the winter. Her father's ancestors had owned a wide, rich domain on the wide, rich island of Way. Claiming no title or court privilege in the days of the kings, through all the dark years after Maharion fell they held their land and people with firm hands, putting their gains back into the land, upholding some sort of justice, and fighting off petty tyrants. As order and peace returned to the Archipelago under the sway of the wise men of Roke, for a while yet the family and their farms and villages prospered. That prosperity and the beauty of the meadows and upland pastures and oak-crowned hills made the domain a byword, so that people said, "as fat as a cow of Iria", or, "as lucky as an Irian". The masters and many tenants of the domain added its name to their own, calling themselves Irian. But though the farmers and shepherds went on from season to season and year to year and generation to generation as solid and steady as the oaks, the family that owned the land altered with time and chance. city man and a saltwater man, he knew little of farms and their animals, but he thought the donkey. watched something just out of sight, around the corner, elsewhere. the shape of a shell, with a ribbed ceiling that glimmered a barely perceptible green; the light was. They came to where the miners were extending the old tunnel. There the wizard spoke with Licky in the flare of candles among jagged shadows. He touched the earth of the tunnel's end, took clods of earth in his hands, rolled the dirt in his palms, kneading, testing, tasting it. For that time he was silent, and Otter watched him with staring intensity, still trying to understand. it. "Media's Gate, they used to call it. I keep both doors." He opened it. Red Bucca was setting. Her eggs were about due to hatch. The mites were bothering her, and she looked scruffy and jaded. Nor you from me," and he laughed, not threateningly, but with pleasure. He gazed at Otter again, his large, white face smooth and thoughtful. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not too clever; that's good. Not too clever to learn, like some... I'll teach you, if you like. Do you like learning? Do you like knowledge? Would you like to know the name we call the King when he's all alone in his brightness in his courts of stone? His name is Turre. Do you know that name? The seed and source of might and right. You'll see. You'll see. Come along! Come along! Let's go see the King flying among his subjects, gathering himself from them!"
