

TWO STICKS IN ENGLAND VOL 2 OF 6 BEING A CONTINUATION OF LE DIABLE BOI

"Good for you," he said when Amos had climbed onto the deck and given him the glass. "Now come glare at me. She says, "You're not going to be working for any promoter in the business. Would the genetic equipment in the nucleus unblock, and would the egg cell then proceed to divide and redivide? Would it go on to form an individual with the genetic equipment of the original somatic cell and, therefore, of the person from whom the somatic cell was taken? If so, the new organism would be a clone of the person who donated the somatic cell..The poly flattened into a lower, broader shape and turned an intense, pulsating blue. "I don't want to go off into a lot of personal anecdotes and reminiscences. That kind of thing is customary on an occasion such as this, but it would be trivial, and I wouldn't want my last speech as president of NASDO to be marked by trivia. The times do not permit such luxury. Instead, I want to talk about matters that are of global significance and which affect every individual alive on this planet, and indeed the generations yet to be born--assuming there will be future generations." Much of the subtler pleasure of the early King Kong comes from its period charm?the naivet?, the wonderfully .preten-tious dialogue, even the oonga-boonga black natives.
