

THE FALLEN GOD AND OTHER ESSAYS IN LITERATURE AND ART

"Tell her she fell asleep. By the way, thanks for saying nothing about me." When I first saw that bastard, I didn't believe she could even lift it. I joined them as they lay her on the bunk. "I think so," said Amos. "But that is a terribly grey swamp. I might blend into the scenery so. He fumbled for the bottle beside the bed, gripping it with a sweaty hand. His entire body was wet and clammy, and his fingers shook as they unscrewed the cap. For a moment Nolan wondered if he was coming down with another bout of fever. Then, as the harsh heat of the rum scalded his stomach, he realized the truth. "Or die trying," Song said. I lived on the Heliomere myself, just a kilometer away from Amanda's cabin. I don't sleep late, and the next morning while I was taking my wake-up walk along the beach, I saw no reason not to pass her cabin. I could take a brief look to make sure everything was all right, then come back for her at noon as agreed. I was enjoying the frosty bite of the air in my nose and throat and the surreal effect of the steam rising off the dawn-pink Heliomere when I saw Amanda running up the beach toward me, her hair flying long and loose around her. "America? Ever?" In the cottage Brother Hart cried out in his sleep, a swift sharp cry. His hand went to his side and, suddenly, under his heart appeared a thin red line like a knife's slash that bled for a moment. Hinda caught his hand up in hers and at the sight of the blood grew pale. It was the second time she had seen Brother Hart bleed. "It was an intolerable situation for her. "I'm not disturbing you, am I? I heard the typewriter." The room was indeed identical to mine, though it looked a hundred per cent more livable. I couldn't put my finger on what he had done to it to make it that way. Maybe it was just the semi-darkness. He had the curtains tightly closed and one lamp lit beside the typewriter. Marvin Kolodny responded with a boyish grin and offered his hand. An American flag had been (or, possibly, an allied) species, and then let nature take its course. Friday night when I see them lining up out there, I think I might go someday, but I never seem to get around to it. (You might think I'd see a few movie stars living where I do, but I haven't. I did see Seymour occasionally when he worked at Channel 9, before he went to work for Gene Autry at Channel 5.) "I had it clamped down, and the drill—did I turn it on, or not? I can't remember. One was in the whirligig garden and concerned a new plant that was bearing what might be fruit. They were clusters of grape-sized white balls, very hard and fairly heavy. The second discovery was made by Lucy McKillian and concerned the absence of an event that up to that time had been as regular as the full moon. But there are other reasons. Critical judgments are so complex (and take place in such a complicated context), the vocabulary of praise and blame available in English is so vague, so fluid, and so constantly shifting, and the physical space allowed is so small that critics welcome any way of expressing judgments that will be both precise and compact. If vivid be added thereunto, fine? what else is good style? Hence critics, whenever possible, express their judgments in figurative language. Wit is a form of condensation (see Freud if you think this is my arbitrary fiat) just as parody is a form of criticism (see Dwight McDonald's Modern Library collection thereof). yourself growing in her womb, first a red tadpole, then a thing like an embryo chicken, then a big-headed.
