And with you off there, I didn't know what all this was for, to tell you the truth. All my business. If you're here, it adds up, you see. It adds up. Well! But listen here, did you just run off from the wizard? Did he know you were going?" .He came back in the evening, lamer than ever, for of course San had walked him clear out into the. By that time there were many people of the Hand who knew what was afoot on Roke. Young people came there sent by them. Men and women came to be taught and to teach. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. Still they came, and as the years went on a larger house was needed for the school than any in Thwil Town.. story of Ged and Tenar had reached its happily-ever-after, I gave the book a subtitle: "The Last. The name and office of archmage were invented by Halkel, and the Archmage of Roke was a tenth Master, never counted among the Nine. A vital ethical and intellectual force, the archmage also exerted

considerable political power. On the whole this power was used benevolently. Maintaining Roke as a strong centralising, normalising, pacific element in Archipelagan society, the archmages sent out sorcerers and wizards trained to understand the ethical practice of magic and to protect communities from drought, plague, invaders, dragons, and the unscrupulous use of their art..to him that neither was his wife seeing the witch anymore.
