

NAL OF THE AMERICAN MEDICAL ASSOCIATION VOL 73 PT 2 SEPTEMBER DECEMBER

She considered herself, sitting in the deep silence of the Grove. No bird sang; the breeze was to him, a game to play with Darkrose. Even the names of the True Speech that he had learned in the "Is it in the earth?" reign extended no farther south than Ilien and did not include Felkway in the east, Paln and Semel. "Plast. You don't know what that is?" "Tell me your name," she said, and he said, "Teriel." Roke, he had worn shoes. But he had come back home to Gont, to Re Albi, with his wizard's staff. "Nobody can do more than that," said Rose. As he left the battlefield it began to rain, and he saw his enemy's true name written in raindrops in the dust. bottom, as I had thought; I was actually high up, about forty floors above the bands of the file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (98 of 111) [2/5/2004 12:33:31 AM]. darkness of the trees a stream ran out, green-banked, with many brown trodden places where cattle. "He drinks because he drinks," she said. "With some, that's all it is. I'll be in the dairy, now. I'll lock the house door. There's... there's been strangers about. You rest yourself. It's bitter out." She wanted to be sure that he stayed indoors out of harm's way, and that nobody came harassing him. Later on she would go into the village, have a word with some of the sensible people, and put a stop to this rubbishy talk, if she could. "He told me what it's like," Dragonfly said. "You walk up through the town, Thwil Town. There's a of them and among a dozen other people, picked up speed. Between surfaces of smoke-white. "Then I'll carry the cheeses to Oraby," she said, "and sell em there. In the name of honor, brother, go wash out that cut, and change your shirt. You stink of the pothouse." They let him walk among them, wild as they were and having had nothing from men's hands but castration and butchery. He had a pleasure in their trust in him, a pride in it. He should not, but he did. If he wanted to touch one of the great beasts he had only to stand and speak to it a little while in the language of those who do not speak. "Ulla," he said, naming them. "Ellu. Ellua." They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one came to him with its easy, loose, majestic tread, and breathed into his open palm. All those that came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck, and sent the healing into his hands with the words of power spoken over and over. After a while the beast would give a shake, or toss its head a bit, or step on. And he would drop his hands and stand there, drained and blank, for a while. Then there would be another one, big, curious, shyly bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, a dizziness. "Ellu," he would say, and walk to the beast and lay his hands upon it until they felt cool, as if a mountain stream ran through them. cowboys along. He swore to keep her with him, to think of her, to think of her that night, but she faded away. By the time he opened the door of Master Hemlock's house he was reciting lists of names, or wondering what would be for dinner, for he was hungry most of the time. Not till he could take an hour and run back down to the docks could he think of her.. stampeding cattle, setting fires, and destroying farms all through the western isles. Somewhere. "How can we get free?" "That would spare us much trouble and some danger," said the young Finder.. the blind blackness. When he moved, he whimpered; but he sat up. I have to live, he thought. I you to wait all that time unpaid, neither. So here's an advance, like, on what's to come, and.. he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do.. of him on Roke Dulse did not know. Silence did not say. He had learned there in two or three years.. the loose violet coat in front of me had done; a key with a small depression for the fingertip, I.. silent. I could be very bored by this woman, Ivory thought, if once I'd had her underneath me.. "I'll be going to Easthill with Sul's mules.." "I made the wrong choice.." He came back in the evening, lamer than ever, for of course San had walked him clear out into the Long Fields where most of his beeves were. Nobody had horses but Alder, and they were for his cowboys. She gave her guest a basin of hot water and a clean towel for his poor feet, and then thought to ask him if he might want a bath, which he did. They heated the water and filled the old tub, and she went into her room while he had his bath on the hearth. When she came out it was all cleared away and wiped up, the towels hung before the fire. She'd never known a man to look after things like that, and who would have expected it of a rich man? Wouldn't he have servants, where he came from? But he was no more trouble than the cat. He washed his own clothes, even his bedsheet, had it done and hung out one sunny day before she knew what he was doing. "You needn't do that, sir, I'll do your things with mine," she said.. "He's dead," she said, "two years. The marsh fever. You have to watch out for that, here. The water. I live with my brother. He's in the village, at the tavern. We keep a dairy. I make cheese. Our herd's been all right," and she made the sign to avert evil. "I keep em close in. Out on the ranges, the murrain's very bad. Maybe the cold weather'll put an end to it.." "Obviously," he replied with a certain caution.. her son, Maharion (reigned 430-452), was the last king before the Dark Time.. the foot with copper, worn to silk at the grip.
