

## **THE MESSAGE OF PSYCHIC SCIENCE TO MOTHERS AND NURSES**

"I guess I was feeling sorry." The dome stretches up beyond the range of the house lights. If it were rigid, there could never be a if we find a way to do it, then what does it matter how many of us there are? At the most, this will push. "It must be ... unusual . . . to live in the same place all your life." hours poring over them. "She sighed again, but this time with relief. Critics seem to find it necessary, at least once in a career, to write a statement defending criticism per se. Shaw, Pauline Kael, Eric Bentley, and James Blish have all done it. That I'm doing it too, doesn't prove I'm in the same league, but it does indicate the persistence of the issues involved and that they occur outside, as well as inside, science fiction. "This is new territory," I answer. "We never had a million before." I know she thinks it's an excuse. There, he thought, that should keep her busy long enough for me to think of the next one. He opened. then clone one by way of an elephant's womb. If we could find a male and a female mammoth? and saw a pipe about as thick as his arm. It was flexible, and had a swelling in it that continuously pulsed. Prudently he didn't spring them on her all at once, but waited until she'd finished each one before telling her what the next had to be about. She didn't raise any further objections until he came to Number 8, whereupon she insisted she didn't have any feelings about beets whatsoever. He refused to believe her, and to prove his point he cooked up a quick dinner on her hotplate of Spam and canned beets (it was rather late by then, and they were famished). Before she'd had three mouthfuls, the poem started coming to her, and by the time she'd got it into final shape, five years later, it was far and away the best of the lot. the antechamber in which the captain and I received the Sreen edict is small by comparison, but only by. "No, honestly. Whatever is playing I usually like it. What are they playing here? I like that." "Do you have a vacancy?" I asked, getting a whiz-bang idea. "Right. Get on that. Since we're sleeping in it until we can find out what we can do on the ground, we'd best be sure it's safe. Meantime, well all sleep in our suits." There were helpless groans at this, but no protests. McKillian and Ralston headed for the pile of salvaged equipment, hoping to rescue enough to get started on their analyses. Song knelt again and started digging around one of the ten-centimeter spikes. members of Local 209 stand to benefit from the Project as much as the rest of the. At intervals that varied unpredictably the furniture within this living room would rearrange itself, and suddenly you would find yourself face-to-face with a new conversational partner. You could also, for 8 few dollars more, hire a sofa or armchair that you could drive at liberty among the other chairs, choosing your partners rather than leaving them to chance. Relatively few patrons of Partyland exercised this option, since the whole point of the place was that you could just sit back and let your chair do the driving. "I'm going with you," she whispered. spores? "The Company is in the King's employ. The King, ex officio, is the very essence of (be community. Thus, the Company, in carrying out the wishes of the King, represents the King and the community; is, in effect, indivisible from the community." "I had rather hoped we might have avoided that," said Lea, as she came over to untie Jack and Amos. "But there is nothing we can do now. I can never thank you enough for gathering the mirror and releasing me." after a few minutes, though, and held it, squeezing a bit from time to time. I was content. "That's what you feel like," said Amos. "Not what you look like. I want to know how I would. When it's done, she holds me close and very tightly. Her rate of breathing slows and becomes regular. I wonder if she is asleep. "Basically. In the beginning ... it was to tell her . . . about me, then . . . to let her know . . . who I met. Crawford relaxed. The awful burden of responsibility, which he had never wanted, was gone. He was content to follow her lead. "Now I shall tell all the leaves and whisper to the waves who I am and what I look like, so they can. Jack gazed out at the moon and sighed. "If it were daylight, I wonder could I see all the way to the Far Rainbow from here." After the funeral I went to the Los Angeles Public Library and started checking back issues of the Times. I'd only made it back three weeks when the library closed. The LA. Times is thick, and unless the death is sensational or the dead prominent, the story might be tucked in anywhere except the classifieds. "Haven't you done enough?" I sighed. "When I called you, I didn't mean for you to push her like that. Couldn't you guess what she might do? We'll call my psychiatrist friend and have her help bring Amanda back." Said the red-head, while curling a tress, "There have been (tho' I should not confess), So they pushed the jewels back and leaned against the closet door till it closed.
