

# TS OF LITERATURE OR WHAT YOU WILL VOL 2 A SATIRICAL POEM IN DIALOGUE

The sound made by the dropping corpse indicated that cushioning trash lined the bottom of the bin, and also that it was no more than half full. This improved chances that Neddy wouldn't be discovered until a dump truck tumbled him into a landfill--and even then perhaps no eyes would alight upon him again except those of hungry rats..Tom Vanadium was no alarmist, and the most logical explanation came to him first. Paul had wanted to learn how to roll a quarter across his knuckles, and in spite of being dexterously challenged, he practiced hopefully from time to time. No doubt, he had sat at the table this morning--or even last evening, before bed-dropping the coin repeatedly, until he exhausted his patience.."D'you have a bag?".Curiously, reciting these facts usually calmed him, as though speaking of disaster would ward it off. Since Friday, however, he had found no comfort in his usual routines..He tried to lean back as he dropped, with the hope that he would fall under her, providing cushion if they met with sidewalk instead of lawn..Hope became easier to sustain when late 1966 and 1967 brought the biggest advance in women's fashions since the invention of the sewing needle: the miniskirt, and then the micromini. Already, Mary Quant--of all things, a British designer--had conquered England and Europe with her splendid creation; now she brought America out of the dark ages of psychopathic modesty..self-controlled as he would need to be in any interrogation conducted by this brush-cut, thick-necked toad..Recuperating, he had plenty of time to practice meditation. He became so proficient at focusing on the imaginary bowling pin that he could make himself oblivious of all else. A stridently ringing phone wouldn't penetrate his trance. Even Bob Chicane, Junior's instructor, who knew all the tricks, could not make his voice heard when Junior was at one with the pin.."Better hurry," Wally advised, gracing Celestina's other cheek with a dryer kiss..Tears burst from Junior, stinging torrents, a salt sea of grief that blurred his vision and bathed his face in brine. "Get out of here, you disgusting, sick son of a bitch," he demanded, his voice simultaneously shaking with sorrow and twisted by righteous anger. "Get out of here now, get out!".Agnes winced. Already, another contraction. Mild but so soon after the last. She clasped her hands around her immense belly and took slow, deep breaths until the pain passed..He'd listened to the message and thought it incomprehensible, of no import. Suddenly, tardy intuition told him that it could not have been any more important to him if it had been dead Naomi calling from beyond the grave to leave testimony for the detective..Looking toward the nearest window, where the wet night kissed the glass, he said, "Lawn sprinklers?".That happened ten years ago, the first and last time anyone shot at Nolly. The real work of a private eye had nothing in common with the glamorous stuff depicted on television and in books. This was a low-risk profession full of dull routine, as long as you chose your cases wisely--which meant staying away from clients like Enoch Cain..She slipped into her shoes and stood for a moment watching his lips move as he gave thanks for his blessings and as he asked that blessings be given to others who needed them.."Could you throw an Oreo someplace you weren't blind or maybe someplace Wally wasn't shot?".In a pew in Old St. Mary's Church, in Chinatown, Junior took delivery of the lock-release gun and the untraceable 9-mm pistol with the custom-machined silencer, as previously arranged. The church was deserted at ten o'clock in the morning. The shadowy interior and the menacing religious figures gave him the creeps..On the other hand, one needed to believe in something. Junior didn't clutter his mind with superstitious nonsense or allow himself to be constrained by the views of bourgeois society or by its smug concepts of right and wrong, good and evil. From Zedd, he'd learned that he was the sole master of his universe. Self-realization through self-esteem was his doctrine; total freedom and guiltless pleasure were the rewards of faithful adherence to his principles. What he believed in--the only thing he believed in--was Junior Cain, and in this he was a fiercely passionate believer, devout unto himself. Consequently, as Caesar Zedd explained, when any man was clearheaded enough to cast off all the false.."Well, as years pass, they're going to be a financial burden, if nothing else, so I'm glad I've got a little surprise for you.".Tom stared down into the oceanic depths of the city, through the reefs of buildings, to the lamp-fish cars schooling through the great trenches..The young man raised his voice to be heard above the gobbling of the art turkeys. "No, sir. He just asked where the men's room was..".The piece that's intrigued me," Junior revealed, "is the one that's rather like a c-c-candlestick. It's quite different from the others..".Bartholomew, huh?" asked Wally as he piloted them through banks of earthbound clouds.. "Blood tests should reveal whether the child's yours or not. That also might explain all this..".As Joey opened the driver's door and got in behind the steering wheel, he said, "Okay?". "I wouldn't just whack anyone, not even a worm bucket like Cain, any more than I would commit suicide. Remember, I believe in eternal consequences..".Two high-quality deadbolt locks. Sufficient protection against the average intruder, but inadequate to keep out a self-improved man with channeled anger..Maybe every accidental death was suspicious to Vanadium. His obsessive hounding of Junior might be his standard operating procedure..He was a virile young man, desired by many, and life was short. Poor Naomi, her lovely face and her look of shock still fresh in his memory, was a constant reminder of how suddenly the end could come. No one was guaranteed tomorrow. Seize the day..When he noticed a blonde staring at him from a nearby booth, he smiled and winked at her. Although she was not attractive enough to meet his standards, there was no reason to be impolite..Mechanics have reliably steady hands, yet Jacob's hands shook as he discarded two cards and slowly turned over the ninth draw..When the nurse was gone, alone with his mother as they waited for the orderly to bring a gurney, Barty said, "Come close..".Barty's mathematical genius proved to have a valuable practical application. Even in his blindness, he perceived patterns where those with sight did not. Working with Tom Vanadium, he devised strikingly successful investment strategies based on subtleties of the stock market's historical performance. By the 1980s, the foundation's annual return on its endowment averaged twenty-six percent: excellent in light of the fact that the runaway inflation of the 1970s had been curbed..They wore out a lot of cards and kept a generous supply of all

types of decks on hand..When Paul arrived with a Christmas gift, Perri was abed, wearing Chinese-red pajamas, reading Jane Austen. A clever contraption of leather straps, pulleys, and counterweights assisted her in moving her right arm more fluidly than would otherwise have been possible. A lap stand held the book, but she could tam the pages..Turning his attention to Barty, Obadiah broke into a smile, revealing a gold upper tooth. "Something here is sweeter than that lovely pie. What's the child's name?" .Piano music drifted into the restaurant from the adjacent bar, so soft and yet sprightly that it made the clink of silverware seem like music, too..Licky did not take him into the roaster tower, but back to the barracks. From a locked room he brought out a small, soft, thick, leather bag that weighed heavy in his hands. He opened it to show Otter the little pool of dusty brilliance lying in it. When he closed the bag the metal moved in it, bulging, pressing, like an animal trying to get free.. "Mr. Cain, if he bothers you, would you want me to have his choke chain yanked?" .He was about to lift the body out of the chair when he heard the car in the driveway. He might not have caught the sound of the engine so distinctly and so early if the stereo had not been in the process of changing albums..On the nightstand waited a glass of water on a coaster and a pharmacy bottle containing several capsules of a potent painkiller.. "I'm not. I'm just going to be the conscience that Enoch Cain seems to have been born without." .he was prepared to find Vanadium sitting at the pine table, enjoying- a cup of coffee. The kitchen was deserted..The bow business had started a few months ago. Angel said she wanted to look pretty in her sleep, in case she met a handsome prince in her dreams..As she tucked the bedclothes around him again, she said, "Barty, I don't think you should let anyone else see how you can walk in the rain without getting wet. Not Edom and Jacob. Not anyone at all. And anything else special that you discover you can do ... we should keep it a secret between you and me." .He ran gasping, praying, feet slapping the concrete sidewalk, frightening birds out of the purple brightness of blossom-laden jacarandas and out of Indian laurels, terrorizing a tree rat into a lightning sprint up the bole of a phoenix palm. The few people he encountered reeled out of his way. Brakes shrieked as he crossed intersections without looking both ways, risking cars and trucks and rhinoceroses..He briefly closed his hand around the three coins, then with a snap of his wrist, flung them at Nolly, who flinched. But either the coins were never flung or they vanished in midair-and his hand was empty..Cradling the baby, the nun turned with it to Celestina, folding back a thin blanket to present her with a good look at the tiny girl..On January 3, 1968, Paul was fewer than 250 miles from Spruce Hills, Oregon. He wasn't aware of that town's proximity, however, and he didn't, at the time, have it as his destination..She leaned against the apartment door for a long moment, holding on to the doorknob and to the thumb-turn of the second deadbolt, as though she were convinced that if she let go, she would float off the floor like a cloud-stuffed child..She might have attributed his problem to eyestrain from all the reading he'd done during the past few days. She might have put drops in his eyes, told him to leave the books alone for a while, and sent him into the backyard to play. She might have counseled herself not to be one of those alarmist mothers who detected pneumonia in every snuffle, a brain tumor behind every headache..Traditional logic argued that an infant, no more than two weeks old, could not be a serious threat to a grown man..Now, here, lying on a bed in the emergency room of a Sacramento hospital, on a Saturday afternoon only six weeks before the camellia festival, Junior suffered under the care of a resident physician who was so young as to raise the suspicion that he was merely playing doctor..After all he'd suffered at Cain's hands, Tom Vanadium surprised himself by laughing at these colorful accounts of the wife killer's misadventures. Indeed, laughter had seemed disrespectful to the memories of Victoria Bressler and Naomi, and Vanadium had been torn between a desire to hear more and a feeling that finding any amusement value in a man like Cain would leave a stain on the soul that no amount of penance could scrub away..His first year in San Francisco was an eventful one for the nation and the world. Winston Churchill, arguably the greatest man of the century thus far, died. The United States launched the first air strikes against North Vietnam, and Lyndon Johnson raised troop levels to 150,000 in that conflict. A Soviet cosmonaut was the first to take a space walk outside an orbiting craft. Race riots raged in Watts for five fiery days. The Voting Rights Act of 1965 was signed into law. Sandy Koufax, a Los Angeles Dodger, pitched a perfect game, in which no hitter reached first base. T. S. Eliot died, and Junior purchased one of the poet's works through the Book-of-the-Month Club. Other famous people passed away: Stan Laurel, Nat King Cole, Le Corbusier, Albert Schweitzer, Somerset Maugham.... Indira Gandhi became the first woman prime minister of India, and the Beatles' inexplicable and annoying success rolled on and on..He added verisimilitude to his threats by concluding with a few hard punches where they wouldn't show, in her breasts and belly, and then he, went home to Naomi, to whom he'd been married, at that time, less than five months..Concerned that Junior's crying jag would trigger spasms of the abdominal muscles and ultimately another attack of hemorrhagic vomiting, the nurse had with her a tranquilizer. She wanted him to use the apple juice to wash down the pill..Prudence required that they strategize as though Enoch Cain were Satan himself, as though every fly and beetle and rat provided eyes and ears for the killer, as though ordinary precautions could never foil him..He slipped behind the door and raised the pewter candlestick over his head. Weighing perhaps five pounds, the object made a formidable bludgeon, almost as good as a hammer..Celestina nodded, unable to respond to the aide's kindness. Sometimes kindness can shatter as easily as soothe..In the kitchen were a radio, a toaster, a coffeepot, two place settings of cheap flatware, a small mismatched collection of thrift-shop plates and bowls and mugs, and a freezer full of TV dinners and English muffins.. "I'm gifted to a small extent, and it's an unusual gift," he admitted. "Nothing world-shaking. More than anything, really, it's a special perception I've been given. Angel's gift seems to be different from mine but related. In fifty years, she's the first I've ever met who's somewhat like me. I'm still shaking inside from the shock of finding her. But please, let's save this for Bright Beach and a better evening. You go down there tomorrow with Paul, okay? I'll stay here to look after Wally. When he's able to travel, I'll bring him with me. I know you'll want him to hear what I have to say, too. Is it a deal?" .After following the blacktop fifty feet, Junior headed downhill through the

close-cropped grass, between the tombstones. He switched on his flashlight and trod cautiously, for the ground sloped unevenly and, in places, remained soggy and slippery from the rain..Fortifying herself with more coffee, Jolene said, "Edom, you were going to tell us how Joey's coping with fatherhood." Looking from one to another of his companions, Tom said, "When I think of everything that had to happen to bring us here tonight, the tragedies as well as the happy turns of fortune, when I think of the many ways things might have been, with all of us scattered and some of us never having met, I know we belong here, for we've arrived against all odds." His gaze traveled back to Agnes, and he gave her the answer that he knew she hoped to hear. "This boy and this girl were born to meet, for reasons only time will reveal, and all of us ... we're the instruments of some strange destiny." Junior had come to the gumshoe four days ago, with business that might have made a reputable investigator uncomfortable. He needed to discover whether Seraphim White had given birth at a San Francisco hospital earlier this month and where the baby might be found. Since he wasn't prepared to reveal any relationship to Seraphim, and since he resisted devising a cover story on the assumption that a competent private detective would at once see through it, his interest in this baby inevitably seemed sinister..Reminding himself that fortune favored the persistent and that he must always look for the bright side, Junior began with the city itself and with those whose surnames were Bartholomew. This was a manageable number..impress the hell out of the hoity-toity types, take their money, and get famous." "Vomiting. I'm told it was an exceptionally violent emetic episode." "He spewed like a fire hose," Vanadium said matter-of-factly.. "Do you know him?" Edom asked, gazing longingly now at the open door, from which Jacob had turned away. "Obadiah Sepharad?" "In spite of her nature, Agnes could not find forgiveness in her heart this time. Words of absolution clotted in her throat. Her bitterness dismayed her, but she could not deny it..He bought knives. And then sheaths for the knives. He acquired a knife-sharpening kit and spent the evening grinding blades.. "It's not scary," said Mary. "I just step into another place for a little, and then back. It's just like going from one room to the next. I can't get stuck over there or anything." She looked at Barty. "You know how it is, Dad."..even allow himself as much as a lascivious wink or a quick caress of Victoria's hand..Of firm but pliable rubber, custom-formed to his disfigured foot, a shoe insert filled the void left by his missing toe. This simple aid ensured that virtually all footwear was comfortable, and by November, Junior walked with no discernible limp.. "There is no king in Earthsea," the young man said, stern and righteous, "In my master's service, then," Hound amended, patient.. "Why should I care whether you have any peace?" she asked, and she seemed to be listening to a woman other than herself..Mary Lampion, little light, was home-schooled as her father and mother had been. But she didn't study just reading, writing, and arithmetic. Gradually she developed a range of fascinating talents not taught in any school, and she went exploring in a great number of the many ways things are, journeying to worlds right here but unseen..Scamp spent Wednesday ravishing him. It wasn't love, but there was comfort in being familiar with his partner's equipment.. "You sounded as though you were in a lot of distress. You were frightened of this Bartholomew." "I know how to build boats, how to sail boats." Through fog-shrouded hills forested with oaks, maples, madrones, and pepperwoods, through magnificent stands of redwoods that towered three hundred feet, he arrived in Weott on the evening of January 3, 1968, where he stayed the night. If Paul had any northernmost goal for this trip, it was the city of Eureka, almost fifty miles farther-and for no reason, other than to eat Humboldt Bay crabs at their origin, because that was one of his and Perri's favorite foods.. "You'd never cheat me. I know you. We'd have Christmas twice a year and parties for half birthdays." She owned a public-relations firm specializing in artists, and over dinner she rhapsodized about the work of Jack Lientery. His current series of paintings- emaciated babies against backdrops of ripe fruit and other symbols of plenty- had critics swooning..Foreword. "You did just fine, Tom, just fine," Agnes said in a consoling tone that she might have used with a boy whose performance, at a piano recital, had been earnest but undistinguished. "We were all quite impressed." No elevator. He didn't have to worry that with no more warning than a ding, doors might slide open, admitting witnesses into the hall..In agreement, Maria pushed the stack of unused cards aside, and she peered at her hands as if she wanted to scrub them for a long time under hot water..She could have gone at him with the chair once more, but it was falling apart. Instead, she abandoned furniture for the promise of a firearm, dropped to her knees, and snatched the discarded pistol magazine off the floor..Kaitlin had the piercing voice and talent for vituperation that marked her as a member of the Hackachak tribe, but for now she was content to leave the vocal assault to her parents. The stare with which she drilled Junior, however, if brought to bear on a promising geological formation, would core the earth and strike oil in minutes..Murder itself was easy, but the aftermath was more draining than he had anticipated. Although the ultimate liability settlement with the state was certain to leave him financially secure for life, the stress was so great that he wondered, in his darker moments, if the reward would prove to be worth the risk..the hilly streets of the city, ignoring all traffic lights and stop signs, pegging the speedometer needle at its highest mark, as though he might eventually be air-cooled by sufficient speed. He wanted to slam through unwary pedestrians, crack their bones, and send them tumbling.. "Oh!" She blotted her eyes on the heels of her hands. "Wait! Give me a second chance. I can do it better, I'm sure I can." In her campaign to keep her weight gain to a minimum, anorexia was her ally. She learned to find pleasure in hunger pangs.. "So do I, honey. Oh, Lord, so do I." She kissed his forehead. "Listen, kiddo, in spite of their stories and all their funny ways, your uncles are good men." Junior realized that killing Renee this very night would be an unthinkable waste. Instead, he could marry her first, enjoy her for a while, and eventually arrange an accident or suicide that left him with all-or at least a significant portion of her assets..Junior could neither speak nor even mewl in agony. All the saliva had been draining forward, out of his open mouth, for so long that his throat was parched and raw. He felt as though he had munched on a snack of salted razor blades that were now stuck in his pharynx. His rattling wheeze sounded like scuttling scarabs..As long as Junior continued to fake sleep, the cop couldn't be absolutely sure that any deception was taking

place..Celestina looked out a kitchen window and saw Agnes in the Lampion driveway, where the three-vehicle caravan was assembled. She was loading her station wagon..She moved beside him. "For one minute, after her heart stopped the first time, she wasn't here in St. Mary's, was she? Her body, yes, that was still here, but not Phimie.".Griskin, a former convict, had served eleven years for second-degree murder before the lobbying efforts of a coalition of artists and writers had won his parole. He possessed a huge talent. No one before Griskin had ever managed to express this degree of violence an rage in the medium of bronze, and Junior had long kept the artist's work on his short list of desired acquisitions..People were at the car windows, struggling to open the buckled doors, but Agnes refused to acknowledge them..WHEN A GLASS OF chilled apple juice at dawn stayed on his stomach, Junior Cain was allowed a second glass, though he was admonished He was also given three saltines..Junior suspected Magusson never had any client but himself. Fat fees motivated him, not justice..Here again were these peculiar grammatical constructions, which sometimes she had thought were just the mistakes that even a prodigy could be expected to make, and which sometimes she had interpreted as expressions of fanciful speculations, but which lately she had suspected were of a more complex-and perhaps darker-nature. Now her dread took form, and she wondered if the personality disorders that had shaped her brothers' lives could have roots not just in the abuse they had taken from their father, but also in a twisted genetic legacy that could manifest again in her son. In spite of his great gifts, Barty might be destined for a life limited by a psychological problem of a unique or at least different-nature, first suggested by these occasional conversations that seemed not fully coherent..Adding new growth to his forest of frustration, Tom got up from the study desk, fetched the newspaper from the front doorstep, and went to the kitchen to make his morning coffee. He boiled up a pot of strong brew and sat down at the knotty-pine table with a steaming mug full of black and sugarless solace..Junior strove to appear properly mortified. "Thought I heard something. Searched the apartment.".He rewound the words, played them again, but still the source of the threat eluded him. He was hearing them in his own voice, as if he had once read them in a book, but he suspected that they had been spoken to him and that.He didn't want to lean inside and peer over the front seat. He had no weapon. He would be unbalanced, vulnerable..The police. The stupid police. Ringing the bell when they knew he'd been shot. Ringing the damn doorbell when he lay here helpless, the Industrial Woman lurching toward him, his toe on the other side of the kitchen, ringing the doorbell when he was losing enough blood to give transfusions to an entire ward of wounded hemophiliacs. The stupid bastards were probably expecting him to serve tea and a plate of butter cookies, little paper doilies between each cup and saucer.
