She came to the door and muttered some kind of greeting. They daunted her, these Masters of Roke, and also their presence meant that the peaceful time was over, the days of walking in the silent summer forest with the Patterner. That had come to an end last night. She knew it, but she did not want to know it. Gelluk stood tense and trembling, still at a loss. "Tures," he said, after a time, almost in a. Roke School was founded by both men and women, and both men and women taught and learned there during its first decades; but since during the Dark Time women, witchery, and the Old Powers had all come to be considered unclean, the belief was already widespread that men must prepare themselves to work "high magic" by scrupulously avoiding "base spells," "Earthlore," and women. A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked. werelight shot through by silver lines of rain. So the school on Roke got its first student from across the sea, together with
